PAVED HIGHWAY IS NOW ASSURED

Ordinance Providing Building of Steel Will Be Presented to Council

The first step toward the paving of Front street between the end of the present paving and Motor street, a distance of about one and three quarters miles, was taken by council in special session last evening.

At the meeting the ordinance committee was authorized to present an ordinance at the next regular session of council providing for the paving of this section. The improvement, it was brought out, will be carried out under the law providing that the owners of adjacent property pay two-thirds of the cost and the borough the remainder.

Borough officials are assured that the state would pay one-half the cost at a meeting with highway officials on Monday. Officials of the highway department have recently communicated with the borough council urging the immediate procedure to place the road in good condition and offering their assistance.

On Monday, borough officials and Deputy Highway Commissioner Harry Biles held a joint conference to discuss the matter. The borough was represented at this meeting by E. C. Henderson chairman of the highway committee of council; Councilman Wambach, Engineer Callaghan, Street Commissioner Mesley and Secretary Feidt.

The state, it is understood is very anxious to see the street paved as numerous complaints have been made about the poor condition of the highway recently. The government has complained on the grounds that by being compelled to travel this section of the street, trucks going to and from the Middletown job are hampered to a great extent.

The improvement it is understood, will cost between \$50,000 and \$75,000. About \$50,000 will be needed to build a concrete roadbed, while more money is necessary to construct a brick highway. What material will be used in building the road has not yet been decided.

Famous Bethlehem Band Will Play Concert Here

The crack Bethlehem band of the Bethlehem Steel Company, comprising almost one hundred musicians, will give a concert at Cottage Hill, Saturday, July 20. This will be the first time the Bethlehem players have appeared here for a concert and local music lovers are looking forward for the date of the concert. Several times this band has paraded in Harrisburg and on each occasion has created a fine impression both in appearance and in the quality of music rendered.

A large bandstand will be erected on the athletic field under the direction of W. L. Guyer, manager of the local Steelton band. The grandstand and bleachers will afford ample seating facilities for the audience.

GAFFEY GIVEN WATCH

Intoxicated Foreigners Break Restaurant Window

Four foreigners are in the borough lockup pending a hearing before Burgess McKintee on a charge of disorderly conduct. According to the police, the foreigners last night about 12 o'clock, while under the influence of drink, broke a large plate glass window at the restaurant owned by John A. Baker, Front and Walnut streets. The foreigners were arrested by Patrolmen Burrell and Pearson and placed in the borough lockup. Damage to the property, including the broken window, Mr. Baker said, would amount to about \$50. The foreigners will be given a hearing before the Burgess this evening.

Local Man Gets German Canteen From France

Kirk Shelley, proprietor of the Central Hotel, received a German canteen and small pieces of shrapnel as souvenirs from his sons, Roy and Carl Shelley, who are driving ambulances in France. Painted on the canteen, which appeared to have seen long service, was "Verdun, 1918." The boys said they obtained the souvenir from a German in the previous offensive. The letter accompanying the souvenirs was written on May 25.

Four Boys Summoned For Destroying Crops

Four boys, whose ages range from 12 to 14 years, have been summoned to appear before Burgess McKintee on June 27, to be heard on charges of disorderly conduct. The boys, it is alleged, recently destroyed some of the crops in the Kelker estate war gardens. The police have been conducting an investigation for several days, but not until last evening were they able to secure any evidence. The parents of the boys have been summoned to appear at the hearing. Chief Grove said this morning the names of the despoilers would be withheld for the present time at least.

Huns Will Imprison French Until Compensated

Amsterdam.—When reports that ten thousand Germans have been expelled from China and interned in Australia are proved, says the Deutsches Tages Zeitung, of Berlin, the German government will collect ten thousand inhabitants of French occupied districts and send them to prison until the Germans are reimbursed for China and compensated for their losses.

\$235 in Envelope Found on Hamburg Street

Hamburg.—An envelope containing \$235 in bills was for two days lying in the street near the residence of Dr. George F. Potteliger. Passersby kicked and tossed it about, little thinking of the value thereof. Clayton Hardinger picked it up and received a reward of \$5 for returning it to the owner, Charles Hiestler, of Orwigsburg, who dropped the envelope.

THEFT RETURNS \$350

Reading, Walter Rice, 37 years old, arrested in Williamsport, Pa., after being trailed by detectives on a charge of robbing the restaurant of Andrew J. Peifer here of \$575, while employed at the place as a waiter, was given a hearing to-day before Magistrate Kreider and held for court. Rice admitted the theft and returned \$350 of the stolen money, saying that he had spent but \$20 and must have lost the rest in his flight. The theft represented the day's receipts of two restaurants. The money was kept in a buffet. In locking up for the night, Rice left one door unlocked and came back later and got the money. He was traced to Williamsport through the checking of his baggage. Rice is now in jail.

T. L. WALLACE, LONG PROMINENT, DIES AT HOME

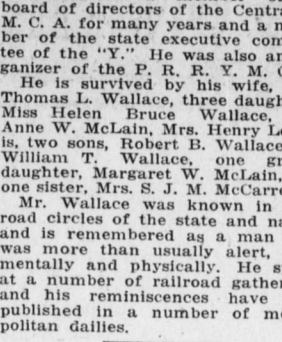

Was Identified With Pennsylvania Railroad and Business Enterprises in City

THOMAS L. WALLACE

Thomas Laird Wallace, aged 80, died last night at his late home, 214 Pine street, following a long illness. He was prominent in business circles of Harrisburg for many years. He was born in Clearfield and spent his early life there. At the age of ten, his parents, Mr. and Mrs. Robert Wallace, moved to Hollidaysburg. In 1857 he became agent for the Pennsylvania railroad and was transferred to Harrisburg in 1859. He served as clerk for John A. Connon. A few months later, Connon resigned and Wallace was appointed freight agent of the Pennsylvania railroad, although he was only 22 years old. He resigned as freight agent January 1, 1898, because of ill health. He was connected with the division freight office as a solicitor, until he was retired in 1907, at the age of 70. He was greatly interested in the transportation business, organizing the Harrisburg Transfer Company and remaining as manager until April, 1916, when he retired. Mr. Wallace was a member of the Pine Street Presbyterian Church, joining in 1859. He was an active member in all the years of his church life and was president of the

Horses, Burros, Rabbits Mexican Soldiers' Food

Juarez, Mex.—Horses, burros, rabbits and roots often form the only ration for the Mexican soldier who marches miles across the hot, sandy deserts on the scanty food he can commander enroute.

Troops have been passing through here recently marching to Ojinaga district without any commissary supplies other than the half-starved horses and mules which they are often forced to kill to obtain food and spent his early life there. At the age of ten, his parents, Mr. and Mrs. Robert Wallace, moved to Hollidaysburg. In 1857 he became agent for the Pennsylvania railroad and was transferred to Harrisburg in 1859. He served as clerk for John A. Connon. A few months later, Connon resigned and Wallace was appointed freight agent of the Pennsylvania railroad, although he was only 22 years old. Newspapers Play Big Part in War's Conduct

MAX AITKIN

London.—Lord Beaverbrook, head of the British propaganda department, who is Max Aitkin, the writer of eye-witness accounts for the Canadian army early in the war, is trying to obtain an increased supply of paper for daily and weekly publications issued in England. He believes that the restrictions on paper are too drastic. The newspapers, he argues, play such an important part in the conduct of the war that they should be treated more liberally by the government.

Polish Troops Doing Well Against Huns

With the French Army in France.—Polish troops under officers of their own nationality have been for some little time in the line in one of the interesting sectors of the war front. They have done exceedingly well in the work they have so far had to do carrying out raids and bringing down a German airplane during the first few days in which they occupied the position. Their units are undergoing training back of the line.

Rumanian \$2,000 Nets Burglar Only \$40

Cleveland.—One burglar in Cleveland must have worn a sad expression the other day. For after he had robbed John Miller, a roomer at 324 S. Clair avenue, of \$1,500 and a handbook containing \$500 he found that the money was Rumanian currency and worth only \$40. He got \$10 more from Miller's roommate, however, and \$5 from a third occupant of the room.

U. S. IS CAREFUL OF TRANSPORTS

Elements of Danger in Trip Overseas Reduced to a Minimum

London.—No greater care and secrecy could attend the shipment of royal jewels than as observed in shipping American troops to France. To safeguard his boys Uncle Sam takes every possible precaution, from the time they embark until the transport has reached its destination. He leaves no loophole for the machinations of enemy agents.

Usually, as result of this elaborate protective system, the trip from "An Atlantic Port" to the French or English port, as the case may be, is remarkably uneventful. All elements of danger have been so carefully anticipated that the risk is reduced to the lowest minimum.

Until the troops and civilian passengers have reached the pier they do not know the name of their ship. It is only a number to them. On the regular troopships it is difficult for a civilian, unless he is engaged in war work, to secure passage. Those who manage to do so are subjected to close scrutiny, and their credentials and luggage are thoroughly examined.

Embarkation often begins several

days before the transport sails. All good-bys have been said before the troops start for the ship. No relative or friend may accompany them to the pier. This rule applies to the officers as well as to the men. Once aboard, there they remain, no shore communication being permitted. This regulation imposes no hardship other than inactivity. Unless all troops have been assigned to quarters and organization has been effected, the men are left pretty much to their own devices. No restriction is placed on writing and bags are kept open for soldiers' mail up to almost the hour of sailing. This privilege gives many a chance to get off neglected letters and postcards, although these, as a matter of precaution, are not put into the mails until the ship has passed through the submarine zone.
