in hand and is applying her own methods to thicken their muscles, strengthen their bones and generally toughen them up for the impending battle of life.

Amazons Take Them in Hand

But there, in the classroom, is the enemy with the fifty-seven varieties of cuteness and ready, in the interests of a killing, to try out any number of them.

"The young amazon looks over the lot and selects her victim. Perhaps she does not think very much of him—she may regret that he is not taller, that his cheeks are soundsy, that his hands are not clean, that he is always munching something out of a bag. But he is a boy—and have you ever watched a kitten play with a mouse?

"The campaign is opened, not inschool, but at the boy's home." at least that is the way it happened to my boy, the mother continued. Diana, we'll call her that, began calling up my son on the telepnone. At first she wanted to know what the lessons for the next day were—she had left her paper in school.

"And it was amusing to see how bored Bob was. What's the matter with her and why don't she ask someone else about her lessons."

Then, after three or four incuries of this sort, there was a change, the conversation ran:

"That you, Bob; there's to be a little porch party at Florence Smith's to-night, there's going to be strawberry ice cream, and we're going to the said he'd take her,

"Now my poor cave-boy cared nothing about dancing or Diana, but he is a slave to ice cream, so he said he'd take her,

"He went as Diana's partner and there he met other cave-boys, and have wanted to know what the lessons."

The nation of the matter with her and why don't she ask someone else about her lessons."

Mental congeniality means far more than most young people in love stop to realize. Of course, an ignorant and uncouth man is likely often to shame the woman who loves him—but a little lack of culture is far more endurable than a little lack of character! Your sweetheart is in service, you say. Suppose you give him the loyalty and the faith that will keep up his individual hopes and so do your bit to aid the morale of our fighting men. It is very likely that he will bring back from service a largeness of vision, a richness of experience and a greatness of soal that will make up for his inability to write a good letter or phrase a sentence well!

The Machine Way in Shorthand A Short Cut to Success

Stenotypists have been unusually successful and are in such active demand that we have decided to put in a battery of stenotypes, so that in the future students may pursue their course without purchasing a machine, just as they do typewriting. Stenotypy being easier, shorter, more accurate and more speedy, which is in keeping with other Twentieth Century Methods, you will do well to give it careful consideration. to give it careful consideration.

Schools teaching Stenotypy also teach shorthand. They KNOW both. They have watched the progress of both in the class-room and in the offices. Only such schools have an intimate, first-hand knowledge of both. Only such schools can advise you intelligently, safely and honestly. Students may select the course desired, and are
