# PRESIDENT SAYS EASY IN FRANCE SUFFRAGE WOULD HELP WAR CAUSE

"Very Enthusiastic," Senators Say After Conference With Wilson

Washington, June 25. - After a conference with President Wilson at the White House late yesterday, a delegation of senators, supporting the House resolution for submis-sion of the states of a Federal suffrage constitutional amendment, pre-dicted that the resolution would be passed by the Senate next Thursday. They said the President was "very enthusiastic in his support of the amendment."

The President is understood to have reiterated his belief that the suffrage resolution is an important war measure and vital in its effects both upon this country and abroad. The adoption of the resolution, the President is said to have told the enators, will prove a striking dem-

senators, will prove a striking demonstration of the democracy existing in the United States.

Members of the delegation said the President feels it would be difficult for peoples of some foreign nations to understand rejection of an equal franchise proposal in view of the often expressed democratic war aims of this country. In most of the European nations the masses do not understand the distinctions in the United States between Federal and state jurisdiction and for that reason the President is reported as feeling that an adverse vote on the resolution might be misinterpreted.

# HEAVY SENTENCE **GIVEN SLACKER** AT CAMP MEADE

Ten Years at Hard Labor For Conscientious Objector Who Ate Surreptitiously

Camp Meade, Admiral, Md., June 25.-Private Jacob Rose, "conscientious objector," found guilty of trying to lead a mutiny, and of giving false testimony with regard to a hun-ger strike which he attempted to lead, was sentenced to ten years at hard labor by a court-martial. The original sentence was twenty years, but this was reduced by the review-ing authority.

Rose, one of the wildest of the radicals, according to testimony, began trying to induce Private J. Howard Branson and others to refuse to obey orders of superior officers. It was on February 1 that he sought the co-operation of Branson, Frank Buck, Alonzo Payne, Charles Felder and William M. Kantor in carrying

and William M. Kantor in carrying out a hunger strike.

In his testimony Rose declared to Major Martin C. Wise, division inspector, that he did not eat from February 2 to February 19, but observers learned that he had been supplied with chocolate and other food during that period and that he sladly ate what was given him while pretending to be living on a few glasses of water daily. This testimony was one of the specifications against him as a violation of the ninety-third article of war. Rose also was found the suity of "the intention of obstruction of the war and active in enemy propaganda by circulating a book, writes to his aunt and uncle, Mr. and Mrs. Riley Probst, Harrisburg.
