

TRACTORS FOR FALL PLOWING

Secretary Patton Gives Orders For the Listing of Farms Fit to Plow

The State Department of Agriculture to-day completed plans to place its farm tractors at the disposal of the farmers of the state for fall plowing in what is hoped here will be a record acreage of wheat.

TELLS HOW TO GET BACK OLD TIME AMBITION

Discoverer instructs druggists everywhere not to take a cent of anyone's money unless Bio-feren doubles energy, vigor and nerve force in two weeks.

7 A DAY FOR 7 DAYS

Any man or woman who finds that they are going backward, are not as strong as they used to be, have lost confidence in their ability to accomplish things, are nervous and run down should take two Bio-feren tablets after each meal and one at bedtime.

Seven a day for seven days. Then take one after each meal until the supply is exhausted.

Then if your nervousness is not gone, if you do not feel twice as strong and energetic as before, if your sluggish disposition has not been changed to a vigorous active one, take back the empty package and your money will be returned without comment.

No matter what excesses, worry—overwork—too much tobacco or alcohol—have weakened your body and wrecked your nerves, any druggist anywhere is authorized to resupply your money on request if Bio-feren, the mighty upbuilder of blood, muscle and brain does not do just what is claimed for it.

Secret to Physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron; Peptonate; Manganese; Peptonate; Ext. Nux Vomica; Powd. Gentian; Phenolphthalein; Oleoresin Capsicum; Kola.

Keeps Teeth Clean and Gums Healthy

Specially indicated for treatment of Soft, Spongy and Bleeding Gums.

All Druggists and Toilet Counters.

Bio-feren LEAVES NO AFTER-EFFECTS EXCEPT HEALTH

Over the Top with the Gas

Is this a monster from Mars, or a soldier of modern warfare? It is only one of our 'Sammies,' going over the top with the gas and the fire which the Huns taught us in this barbarous war.

These 'Ironic' tablets were discovered by Dr. Pierce and his able staff of physicians at the Surgical Institute, and were invariably found to give vitality to the blood and strength to the nerves.

TALK FINANCES

Important School Conferences Will Be Held in Pittsburgh Next Week

The State Board of Education has called for a special session at Pittsburgh on July 3 to discuss the proposed a campaign for an increase in the state school appropriation which will cover twenty-five per cent of teachers' salaries.

The state education authorities will leave Saturday for Pittsburgh as the annual sessions of the National Educational Association begin in that city with special services on Sunday.

State Doing Well.—State treasury receipts during the month of June have been at a higher figure than usual owing to the collection of licenses of various kinds and the gathering in of state taxes which have been in process of protracted settlement.

Can't Better Farms.—Well drained land if properly cultivated should produce the maximum crop, says Chas. W. McClain, farm adviser of the Department of Agriculture.

Attending Meeting.—Auditor General Snyder is at Bedford Springs attending the meeting of the State Bar Association.

Can Build Bridge.—The Franklin county commissioners were yesterday given permission by the State Water Supply Commission to build a bridge over Falling Springs creek at East King street in Franklin county.

Home From Canada.—S. S. Riddle, of the Department of Labor and Industry, has returned from Canada where he made a study of the means to rehabilitate soldiers invalided from France.

Reappoint Ryan.—Reappointment of Michael J. Ryan as a member of the State Public Service Commission is expected to be announced at the end of the week.

LETTERS FROM FRANCE

"COOTIES" Harrisburg Boy Tells of Air Battles at the Front, the Mud and the Ever-present "Cooties."

Dr. J. George Becht, secretary of the State Board of Education, has just received a letter of unusual interest from his son, Howell Becht, a member of the Gas and Flame Regiment—Thirtieth Engineers—known as "Fire" unit Young.

"I am back with the company again. We are located in a very pleasant place—ideal camping site—within range of Fritz's guns, of course, but well camouflaged. In fact, since our training we have never been out of range of the guns except about three weeks. Those three weeks were about the only days, or rather weeks, that we have not been within sound of guns since we arrived in France.

"The bad weather is letting up a little and at times I can see why some sentimental devil might call this place 'Sunny France.' Until now, however, it has seemed more like the 'land that God forgot.' In one place that we were operating it rained continually and the mud was knee deep. The holes in the duck-board in the trenches were frequent and it was very bad, to say the least, to slip down a hole and go into the mud, rifle and all, then pull yourself out and hear that disconcerting snick as you pulled your feet out one after another. Then you staggered on a few feet in the black dark and were knee deep in again. All the time, of course, the rain played a merry lark on your tin hat. Sometimes it was funny and sometimes it wasn't. It depends much on your mood. You course frequently get very wet, but softly, for silence is a necessity. Fritz hear you and toss over some iron rations which only add to your discomfort. You can't help but dive into the mud and play beaver for a while. You get mud all over your face, down your neck, in your ears, in the barrel of your rifle, in your bayonet scabbard and, if you aren't careful, you will find yourself filling your pockets with the stuff just from the habit of having it

come from the Governor's office as to when the vacancy on the commission will be filled. The appointment of William A. Magee will also go to the Senate for action.

Police to Help.—Assistance of the State Police in enforcing the orders of the food administrators in various counties will be extended if needed. In this city boards of flour have been found among foreigners and similar discoveries are reported elsewhere.

Drummond's Drumming.—The assertion of Gregor Drummond, admitted as a member of a Philadelphia local draft board, that he does not regard the action of Major W. G. Murdock in ordering his removal as final, is regarded with considerable amusement here. Major Murdock can only act by direction of the provost marshal general, who is the President's direct representative.

Attack Water Company.—Charges that the Muncy Water Supply Company, of Muncy, has increased rates from twenty to sixty per cent, and that its rates are excessive in view of the actual investment in the plant and the service is not what it should be are made in a complaint filed with the Public Service Commission by a citizens' committee from Muncy. The company will be asked for an answer.

Trustees Reappointed.—Lieutenant Governor Frank B. McClain, Judge Charles I. Landis and H. L. Trout, of Lancaster, were to-day reappointed trustees of the Stevens Industrial school at Lancaster.

Militia Officers.—Fred A. Ubill, Lock Haven, was to-day appointed first lieutenant and battalion adjutant of the Second Infantry of the Reserve Militia; Harry M. Goehring, Pittsburgh, first lieutenant and battalion adjutant, Third Infantry, and Paul H. Dilling, Bellevue, second lieutenant Company D, Third Infantry.

CARE FOR WHEAT URGED BY STATE

Expert Says That Conditions This Year Are Away Below Par in Many Counties

Not in many years has the condition of wheat fields in Pennsylvania been so low in general average as the season 1918. Early in the year many fields made such a poor showing for a strand of stalks that conditions were turned under and some other crop substituted in the same ground—either barley, oats or corn.

"More care should be taken in harvesting the crop," writes J. Aldus Herr, farm adviser of the Department of Agriculture in a bulletin. "It would be well to have your machine in good running order before beginning cutting. Much wheat is practically ruined because it is cut either too green or straw is not dry and spoils in the sheaf before threshing. Quite a number of farmers begin to cut early in the day before the dew is off the wheat and haul direct to the barn. This is a bad practice and cannot mean anything but partially spoiled wheat, which, over the state, is an enormous loss both to the producer and likewise a loss in the quality of the flour.

"I saw Elsie Janis last night and enjoyed seeing an American girl again."

National Anthem As Easy To Sing As German Hymn

Americans who are inclined to criticize the "Star Spangled Banner" because they consider it too difficult to be sung, are advised to make a musical analysis of other national anthems before condemning their own. For instance, it may surprise them to learn that the American National Anthem presents no greater vocal difficulties than does "Die Wacht am Rhine," and none of the Kaiser's subjects appears to find the German anthem too difficult for patriotic rendition.

Councilmen Are Opposed to City Ash Collection

Municipal ash collections are not being considered, a majority of Councilmen said to-day, in discussing plans for removal of rubbish and refuse next year, when the present "gentlemen's agreement" ends. A number of the Commissioners declared that if necessary legislation could be passed they would be in favor of municipal collections, but in view of the opinion by City Solicitor John E. Fox such a plan will not be considered at present. They said, however, that definite action will be taken within the "you can't help me" provide for collections for next year. Commissioner Haessler, in speaking of providing for the work in 1919, said Council should reach a decision by early fall so that during the winter there will be no interval during which ashes are not removed.

About 625,000 Fighting U. S. Troops in France

Washington, June 26.—Between 65 and 70 per cent of the 900,000 American soldiers who have been sent to France are actual combat troops, Secretary Baker said yesterday. "These figures are necessarily rough estimates," he said. "Naturally I would not care to deal with specific figures in this connection."

Ten Boy Volunteers Go to Work on County Soil

Ten boys who volunteered for service in the United States Boys Working Reserves were assigned to places on farms, at a meeting held in the Technical High School Auditorium yesterday. The boys, sent to various places in the county, are: Clarence Reich, Emerson Beeble, Paul Schwarz, Daniel Krieg H. Weldman, Paul Springer, Kramer Johnson, William Keller, John Owen, Leon Reich. They received two weeks' training preparing them for their farm work at a camp in State College.

TIGHT MILITARY GRIP AFTER WAR IS TEUTON PLAN

Soldiers Warned There Will Be Few Social Rights Given Workers

Amsterdam, June 26.—What the German soldier may expect from his taskmasters when he returns home from the war was hinted at during the recent meeting in Vienna of Austro-German economic associations. The principal object of the meeting was to discuss and formulate a common social policy for the central powers, but there were apparently few supporters of any plans to change conditions. Suggestions of

MIDDLETOWN

Congregation Surprises Pastor and His Family

The Rev. James Cunningham, pastor of the Methodist Episcopal Church, was given a pound surprise by members of the church last evening. The members gathered in the church loaded down with pound packages of goods, consisting of sugar, rice, flour, beans, peaches and numerous other articles, which they had stored in one of the class rooms. The affair was quite a surprise to the Rev. Mr. Cunningham and family, who had been taken out in the automobile of D. W. Huntzberger and on his return had stopped at the church when the pastor and family were taken in the church where they found the large number presents.

Albert Olson was arrested by Chief of Police Charles Raiser in Ann street yesterday morning being a deserter who failed to report to Board No. 4, Detroit, Mich., on May 13. He was placed in the local lock-up and will be taken before the Sleeton draft board.

The series of ten lectures given to a class of twelve as first aid by Dr. H. B. Rhoads was completed last evening and the final examination will be given in the High school building next Tuesday evening. The Ushers' Association of the St. Peter Lutheran Church held its monthly meeting in the parish house last evening.

Charles Benson, of Camp Merritt, N. J., is spending several days in town.

PIMPLES? RASH? LET POSLAM GET AT THEM

You apply a little Poslam on some affected part at night. In the morning, when you look, your own eyes give evidence of this healing remedy's work. If it was a slight trouble—an adolescent Pimple or inflamed spot—the chances are that it has disappeared. If a virulent eruption trouble, it should be subdued, so much so that you will want Poslam to keep right on.

Sold everywhere. For free sample write to Emergency Laboratories, 343 West 47th St., New York City. Be careful of the soaps you use on your skin. Poslam Soap is safe, beneficial, delightful, medicated with Poslam.—Advertisement.

Always Reliable

Store Closed Thursday Afternoon

Maintaining a Great Service to the Public

In the face of the many obstacles and inconveniences caused by the war "Always Reliable" Doutrichs has maintained its service to the public.

Ever watchful, we doubly scrutinize and inspect every article of merchandise that comes into this "Live Store" because to-day as in normal times Doutrichs guarantee of satisfaction or money refunded holds good to the letter.

Now more than ever before the tremendous buying power of Doutrichs is forcibly demonstrated—Because of the fact that we buy in such large quantities, we are offered advantages and opportunities obtainable by few.

In other words, you can depend on this—that just as long as clothes are manufactured, Doutrichs will have the largest and most varied stocks at prices that deliver the greatest values. Examples of good clothes can be found here in
