Inadequacy and Confusion Over Types, Despite Exposure, to Be Reported

Washington, June 26.—Continued failure in aircraft production, despite former exposures, reorganizations and promise of greater efficiency, will be revealed by the coming report of the subcommittee on aircraft production of the Senate Military Committee. This subcommittee has visited all the important aircraft plants in the country, has observed their operations and talked with officials and is now concluding its inquiry with the examination of witnesses here in Washington.

Confusion Over Types
There is still confusion among the
authorities respecting the types of
machine to be manufactured; still

machine to be manufactured; still endless experimentation and constant changes of plans, with the result, it is declared, that no heavy bombing planes—the planes needed to aid in any advance by the allies—will be produced in this country for several months and, possibly, not for a year. Reorganization of the aircrft production forces, effected by the President six weeks ago, has not yet proved effective in establishing definite plans or of mobilizing production resources for effective work.

French Deputies Are Told **U-Boat Menace Is Ended**

Paris, June 26. — Georges Leygues, Minister of Marine, in reply to ques-tions in the Chamber of Deputies said French Navy led an enchanted life and was surprising the world at large by its magnificent accomplish-ments. The real sea peril was in 1916, but the allied navies had checked the submarine war. Soldiers and food-stuffs were now pouring into France. The Germans had boasted that Ameri The Germans had boasted that American armies would never approach the French shores and bring victuals, Admiral Bienaime, Deputy for the Scine, also gave praise to the French state and the series of the French was dead. Accidents submarine har was dead. Accidents till happen, he added, but German piracy had been vanquished.

Washington, June 26, - London

Washington, June 26.—London dispatches to-day reporting Alexander Kerensky there and on his way to the United States, besides being the first definite information of the former Russian dictator's whereabouts since he was deposed overnight months ago, opened a wide field of speculation.

Whether his sudden appearance in London and his coming visit to the United States have been arranged in connection with the consideration of the Russian situation does not appear on the surface. Neither does it appear whether Kerensky's plans are all his own or whether they have been shared by those in the United States who are to put Russia back into the war on the side of the entente allies.

For some time powerful forces have been gathering within Russia itself to restore order and set up a government which the allies could recognize and with which they could be in accord. To what extent Kenensky represents that element, or of what use he may be in the general plan being worked out by the allies and the United States for the rehabilitation of Russia is not being made known at this time.

Philadelphia, June 26.—Acting on the declaration of a dividend was deferred at to-day's meeting of the directors of the Pan Handle lines of the Pennsylvania Railroad. It was stated that the company would await the receipt of the money from the Federal Government. Last year the line paid five per cent. in dividends. The Pennsylvania Railroad directors also postponed the declaration of a dividend. It is not payable until August 31 and, as there will be no summer recess, the dividend question will be acted upon at the July meeting of the board, it was stated.

WAR STAMPS CALL

Pursuant to the proclamations of the President of the United States and the Governor of this state, I, War Savings Chairman for Dauphin county, acting under the authority of the United States Treasury Department, have called all taxpayers and wage-earners to meet on Friday, June 28, to give their subscriptions for War Savings Stamps. Meetings will be held in every public school house in every school district at 8 p.m.

Duly appointed officers will conduct the meetings in every school house, keeping a record of the proceedings and reporting the names of all persons present and the amount of War Savings Stamps subscribed for by them. The names of absent persons and of those who refuse or neglect to subscribe, with their reasons for so doing, will also be reported.

refuse or neglect to subscribe, with their reasons for so doing, will also be reported.

War Savings Stamps (which are United States Government Bonds the same as Liberty Bonds) can be paid for during any month in the year 1918, but it is intended that signed subscriptions will be taken for them on June 28.

The price of each War Saving Stamp depends upon the month in which it is bought. During June each Stamp will cost \$4.17. In July each Stamp will cost \$4.18, and so on, one cent more each month during 1918. On January 1, 1923, the Government of the United States will redeem all War Savings Stamps at \$5.00 each, no matter which month in 1918 they were bought. They cost less during the early months in 1918 than during the later months because the person who buys earlier has loaned his money to the Government for a longer time than if he should buy later.

Ey way of illustration, note the following table:

COST OF WAR SAVINGS STAMPS
DURING JUNE, JULY AND AUGUST, 1918

Cost in Cost in Cost in An
June July August on

1 Stamp. \$4.17 \$4.18 \$4.19

20 Stamps. 208.50 209.00 209.50

100 Stamps. 417.00 418.00 419.00 100 Stamps....417.00 200 Stamps....834.00 836.00 838.00 1.000.00

The law proides that no person may hold in his own name War Savings Stamps exceeding \$1,000 maturity value. War Savings Stamps, however, may be purchased for other members of the family, including minor children.

The money invested in War Savings Stamps is not a gift, or a donation, but is a loan to the Government. It will all be paid back with 4 per cent. compound interest. If, because of some serious financial reverses, or calamity, it should, be necessary to get your money before January 1, 1923, you may do so by giving ten days notice to any Money Order postmaster, in which case you can get what you have paid for the Stamps, with interest to date of payment. The Stamps are free from all state and local taxes; when registered at the post office they are insured against loss; they are backed by all the property in the United States; they cannot fall in value below the price you pay; they are as convenient and as well paying an investment as has ever been offered by our Government.

A definite quota of War Savings Stamps has been assigned each school district and community, which will be announced at each meeting on June 28. The Government of the United States expects all the clitzens of every school district and county to subscribe for its quota and to pledge themselves to save and economize to help win the war.

It is to be hoped that the subscriptions taken at the meetings in your county will show you and your neighbors to be loyal Americans to whom our Government, in this hour of need, does not call in value.

In Camp After the 15th Although the order issued last night for 220,000 men probably will deplete the present availables in class 1 in most of the draft districts, it pointed out that the bulk of the men called for July will not go to camp until after the middle of the month and by that time it is expected the additions gained by reclassification and by the new regulation of 21-year-old youths will be available.

The quotas assigned to various states in to-day's call and the camps to which the registrants will be sent, include the following:

registrants claiming to support their parents, are among those who are losing deferred classifications. It is pointed out that registrants who received deferred classification on the grounds that they were supporting their parents, developed to be merely contributing board at home. These men will be placed in Class 1.

To Add New Men

The new class of 1918, which has not yet been classified, but is now receiving its questionnaires, will shortly add to the number of available Class 1 men. The number of Class 1 men in the new ranks of the registrants is thought to be large, as hastily or recently contracted marriages will be no claim for exemption.

In completing the recapture of the western bank of the Plave, the Italians added 1,600 prisoners to the already large numbers taken from the enemy. While the sudden rise of the river distressed the Austrians who had crossed to the western bank the river fell during the enemy retreat but again has risen, hampering the Italian pursuit on the eastern bank. Apparently the Italians have been content to hold to strong bridgeheads on the eastern bank rather than to attempt to pursue the enemy any distance eastward.

Apparently the Italians have been content to hold to strong bridge-heads on the eastern bank rather than to attempt to pursue the enemy any distance eastward.

Germans Depressed

Vienna officially places the Italian classes at 150,000, including 50,000 prisoners. It admits the retirement across the Plave from Montello to the Adriatic, but intimates the Italians lans did not press the retiring Ausstrians very closely. In their efforts on the mountain front, it is added, they Raiding operations continue on the front from Switzerland to the sea, especially between Ypres and Rheims where further heavy fighting undoubtedly will take place. German soldiers are reported as being despressed over the Austrian defeat and it is held in some entente quarters that Germany may make a strong effort almost immediately in order to maintain German and Austrian morale behind the lines. The Germans had expected a successful Austrian offensive against Italy, thereby hastening peace.

"Peace by Negotiation' Apparently Germany has given up hope of reaching a decision on the field of battle, if the speech of Foreign Secretary Von Kuehlmann is an indication. He declared peace must come through negotiation and said that the appearance or European

indication. He declared peace must come through negotiation and said that the appearance on European fronts of soldlers from overseas had made this necessary. He could give no idea of when the war would end. His effort was received coldly by the Reichstag.

The official view in Washington was that the speech was a peace move and that Germany now invites proposals from the entente. It is felt that the move is similar to others which have followed German or Austrian failures to bring a quick decision in the field.

On the other hand, Germany still moves forward in her conquest of Russia. It is reported that 3,000 German troops have been landed at Potl, a Trans-Caucasian port on the Black Sea, which has rail connections with the important centers of Tiffits, Batum and Baku. Batum is in the hands of the Turks.

In Siberia, Czecho-Slovak troops, who are in revolt against the Bolsheviki, are reported to have captured Irkutsk, which makes an advance of 800 miles from Tomsk, which they entered some days ago. Seemingly the Czecho-Slovaks are pushing rapidly toward Vladivostok in order to get out of Russia, as their forces are hardly large enough to combat the Bolsheviki for any length of time.
