

WAR ROADS WILL BE IMPROVED

Half a Million Dollars Voted by Defense Fund Will Be Used During Summer

Seventeen sections of state main highway, most of them on much traveled roads over which army truck trains are continually passing and which will aggregate almost seventy-five miles, have been designated by highway commissioner J. Denny O'Neil for improvement under the half million dollars set aside by the State Defense Commission for war emergency roads. Contracts for some of the work were let in March and on others the maintenance forces of the State Highway Department will begin work.

The work designated is as follows:

 Big Decision Coming.—A decision of far reaching importance in regard to complaints against increases of fare by street railway companies in communities where rates are fixed by franchise ordinances will probably be handed down by the Public Service Commission when it meets on Monday for executive session. The commission has been considering whether it can take jurisdiction in such complaints or whether because they are contracts they should be a matter for the courts. It is believed that the commission will take jurisdiction. If this is done the way will be opened for early action in complaints from Pittsburgh, Wilkensburg, Scranton and a number of other places. There are small prospects of any vacation for commissioners this summer owing to the numerous cases pending.

Forestry Work—Members of the State Forestry Commission were at the meeting of the State Forestry Association in the Poconos yesterday. The extent of the work being done by the state was reported on by the state forester.

No Awards Made—No awards have been made by the State Highway Department on bridge bids opened yesterday. Five bridges were bid upon in Upper Augusta township, Northumberland county and on one of which a bid was thrown out because there was no check received.

At Sea Girt—Adjutant General Beary was at Sea Girt in connection with the rifle matches and other militia work.

Dope From Car—State and Federal agents succeeded in catching a gang of men who had been selling 'dope' from automobiles in Philadelphia.

New Draft Rules—All local draft boards in Pennsylvania have been instructed to adhere to the regulations in classifying the new registrants in regard to dependency, especially where parents or relatives are willing to provide for dependants while the registrant is in service. Boards have been instructed in considering claims for deferred classification on dependency grounds "to disregard income provided by the state or municipalities for the maintenance of dependants while the registrant on whose labors these persons are dependent for support are in the military service of the United States." Cancellation of numbers of serial numbers whether because of a death or not must not be made without authority from the state headquarters. Boards have also been warned to be economical in sending of telegrams.

Buy Thrift Stamps—Governor Brumbaugh has renewed his urging of people to buy Thrift Stamps and says he wants to see Capitol Hill enlisted from top to bottom for the stamps.

That's where our good judgment comes in. We "clean house" twice every year by having these reductions — We have never yet betrayed the confidence "the people" have in us and when we offer money saving opportunities like these, our loyal patrons readily respond and help us to turn "good merchandise" into "cash" which enables us to use every available advantage in securing greater values for them.

The outstanding feature that makes Doutrichs a store worthwhile is, that you can always get what you want, for HERE we carry tremendous stocks and keep them active — You'll find there's nothing undesirable HERE at any price.

All clothing will be much more expensive than it is at present — We could make more money by holding it rather than to sacrifice it now, but YOUR "good will" is worth more to us than dollars and cents — It will pay you to invest where you are sure of genuine reductions.
