fect upon the fighting forces. It is beginning to dawn upon the flour hoarder that your Uncle Sam means just what he says. law providing for nonpartisan election of judges seems to be meeting

AFTER THE WAR, WHAT?

With general approval throughout the state, even people who urged the nonpartisan system as the cure for all evils being now almost convinced that has hung for more than eight months over the Italian front, the steady increase of allied man-power in France and the evident distress of the Central Powers within, we may begin to think a little more about what we shall be called to face when the war is over. An allied victory is more certain to-day with general approval throughout the state, even people who urged the stone people who urged the state, even people and even people and even people who urged the state, even people and even people and even people and even to face when the war is over. An allied victory is more certain to-day than ever, and then will come the great trade war which has been foreseen ever since the combat of foreseen ever since the combat of arms settled down to a period of years. What, we may ask, are we preparing to do with the gigantic industries we have brought into being since the war started? What are welding toward providing work at high wages for the millions now employed so steadily and for those other millions coming home? Are we to leave them in worse condition in peace than they were during war? Is our arms settled down to a period of them in worse condition in peace than they were during war? Is our much-discussed guarantee of personal and national freedom to be accompanied by the pangs of an industrial depression? Yes, unless we prepare for peace now, as the nations of Europe have been doing for the past year.

The Foreign Trade Convention, held some time ago in Boston, complained that the government "is chief condemnation." * "The effect of the law is to put a premium on the self-seeking ambitious lawyer who is capable of smart campaigning, and to force the judicial candidate who has respect for the dignity of his profession and of the ermine to stoop to an appeal for votes that would be regarded as unworthy if it were not necessary to prevent an undesirable election."

held some time ago in Boston, com-plained that the government "is making practically no study of trade recovery after the war as a means HOSE contractors and indi- of insuring the stability of the terms viduals who vainly imagine that of peace," and that the Department they can "put anything over" of Commerce has "little vision of the Commissioner Lynch should work of preparing for peace." The themselves and get awake to convention found the government the fact that the head of the Depart- "rather setting up new and compliof Public Works has been on cated restrictions for the purpose of earth a few years and knows most winning the war, yet without organof the curves which have relation to ized consideration of their effect on trade recovery and keeping this war He is inclined to be lenient most won," and this was contrasted with of the time—too lenient some of the the preparations which other countime—but it must not be thought tries, even Germany, are making to that there is any lack of backbone in meet after-war conditions. This is the complaint which is so general The other day a certain individual throughout the American business

Howley is to be ousted to make room for James Houlahen, who is now ap-praiser of customs, says the Pitts-burgh Gazette-Times. property of the taxpayer. More power to his good right arm. Harrisburg is not going into the discard if all the officials will pursue the same course.

It is a quite common remark that the present form of commission government leads to a tendency to court public favor by failure to enforce will vanish and bring about a speedy power is proper or discardance in the present form of commission governmental policies will vanish and bring about a speedy proper or discardance in the United States Senate. Boies Penrose is Pennsylvania's forement public man. proper ordinances or to insist upon observance of the rights of all the people. Officials will always do well to remember that votes are never made in this way; that for every vote thus acquired hundreds are lost. When Captain Thompson goes to New York to study traffic regulations let us hope that he will come back with a definite determination to use the semaphore signals at the important street intersections. It is an outrage to expect a policeman to wave his arms from morning until night like an animated scarecrow, when he could be giving proper attention to the traffic by use of "Go" and "Stop" signals.

"TREAT 'EM ROUGH"

TREAT 'EM ROUGH"

TREAT 'Em Rough' is the name of the Tank Corps' newspaper at Camp Colt, Gettysburg, which a camed Colt, Gettysburg, arms of the following, clipped from the Sanate and he alone of the Senate and he alone of the Senate, and he was the first Pennsylvanian to be elected to the Senate, and he was the first Pennsylvanian to be elected to the Senate, and he was the first Pennsylvanian to be elected to the Senate and he value of the Senate and he was the first Pennsylvanian to be elected to the Senate and he was the first Pennsylvanian to be elected to the Senate and he was the first Pennsylvanian to be elected to the Senate and he was the first Pennsylvanian to be elected to the Senate and he was the first Pennsylvanian to be elected to the Senate by the votes and Republican leader in the United States Senate, Boies Pennose is pennose to pennose public man. His record in the service of Pennsylvania and the nation is a record of sanity, patriotism and the proposal states Senate, Boies Pennose is pennose to pennose commendation with which people. He has been honored by this Commonwealth for his worth as a citizen and his recognized ability and he has been retained in public life because of his value as a practic, influential and effective legislator for Pennsylvania and the entire country.

Commercial advertising and the war don't mix well. Occasionally some happy thinker combines the two in a pleasing and convincing manner, but usually the wise advertiser keeps his copy out of the trenches.

Gabriel H. Moyer is proving to prograndist himself.

Anyway, Mr. Hoover didn't put his antibeef regulations into force until steak had become so expensive few of us could afford it.

We'll stand a lot from Food Administrator McCormick, but we don't want him to come fooling around our huckleberry pie ration.

SOMEBODY IS ALWAYS TAKING THE JOY OUT OF LIFE

Utopia Still in Distance

People like to talk about their respect for law and the rights of others. Nevertheless it is necessary to retain a traffic officer to every busy corner.—From the Toledo Blade.

SAMMIE IN THE AIR

The Boche is oft a crafty stubborn man,
And our puzzle is to best him if we can;
Get your bayonets and your guns tuned up and seek him in his lair,
But the one that's going to turn the tide,
Is "Sammie" in the air.

We are sending forth a load of brand new planes,
And we're going to turn our losses
into gains;
So be sure to understand that if you

want to win the war,
The only way to do it is to join
a Flying Corps. Tis the squadron of the air that takes the bun.
They are using every scheme to catch the Hun;
When our energetic Sammees take to flying o'er the place,
You'll never need a doubt as who will surely win the race.

You may talk about your soldiers of You may talk about your soldiers of the soil, They are lauded and commended for their toil, And whate'er they give in service now, you'll never see them lag,

For whate'er they do for Hoover, they are doing for the Flag.

But our soldiers of the air will take first place.

They are flocking in from every port and base:

If you ask me tho', I'll tell you who will win the Honor Rate,

"Tis the men in Aero squadrons, from our dear old Keystone State.

EDITORIAL COMMENT

Kultur is materialism's reductio absurdum.-Chicago Daily News. The Yankee idea of holding a line

"The signs are right for a good bass season and I think that the fishermen of Pennsylvania will enjoy the change in the season which is effective this year for the first time," is the opinion expressed by Nathan R. Buller, the state commissioner of fisheries, who has been on a tour of inspection of hatch-

on a tour of inspection of hatcheries and the main streams of the state, some of which he has been observing because of allegations of pollution. The new bass season was outlined in the fish code-of 1917 and runs from July 1 to December 30, both dates inclusive. Mr. Buller says that he has had no protests against it and that he thinks the fixing of the July 1 date as against the middle of June will suit many people better, while the limiting of the catch will be a good thing for fish conservation. The state has liberally stocked many streams with small mouthed black bass in the last few years and some which had been pretty well fished out have been reported to contain good specimens again. The Susquehanna salmon or wall eyed pike, which was almost unknown in some streams five years ago, has been successfully propagated and the big cebtral river has been stocked in several places. "The weather has enabled some trout fish-

ago, has been successfully propagated and the big cebtral river has been stocked in several places. "The weather has enabled some trout fishing to be carried on later than usual in certain parts of the state," remarked Mr. Buller in talking of the general situation. "and I think this year will come close to having a very fine catch. The results of the systematic stocking of streams with fishable to take care of themselves is commencing to be apparent." The State Commission of Fisheries at its meeting at Bellefonts to-day will consider plans for very extensive trout "planting" this fall and will also arrange for bass propagation on a very extensive scale. Appropriations for enlarsement of hatcheries will be asked next year.
