Dr. Kalbfus Discusses the Re-sult of the Recent Treaty With the Dominion

The upland plover and the redbird can not be hunted in Pennsylvania until 1926, according to a statement issued to-day by Dr. Joseph Kalbfus, secretary of the State Game Commission, who has been in communication with Washington authorities relative to the effect of the treaty for protection of various birds which has been negotiated with the Dominion of Canada.

Wool and the War

While wool comes under the head of vital war necessities, it is not suggested that we wear cheap clothing made of shoddy, but simply that we choose good clothes, made of good material, and give them good care.

In Simms-made clothes, suits, top-coats, etc., you get value-plus in cut and cloth.

NEWS ITEMS OF THE WEST SHORE

FARE INCREASE ON WEST SHORE

President of Valley Railways Company Says Higher Rate Will Be Necessary

Lemoyne, Pa., July 2.—In reference to the pending increase in fares on the West Shore lines of the Valley Railways Company, C. H. Bishop, president of the company, said to-day that "the company had reached the place a year ago where it was necessary to increase the rates. For more than a year, he continued, directors have been holding off on final action in the matter just as long as possible.

"I do not see how it is possible for the company to operate under the present conditions without an increase in rates. If there is an increase it will be two cents, making the rate seven cents. An increase of one cent would not help the company out to any great extent.

President Bishop was of the opinion that fare increases will be threshed out finally at the meeting of the board of directors to be held the last week of July.

Confronted by unprecedented conditions brought about by the war, this company has been giving adequate service for a year. Officials are continually searching for motor-men and conductors which is one of the reasons for the labor shortage. At the present time the company has enough men in their employ to give normal service, officials say.

A program of the increases on the various lines was not announced, but it is understood the increase will effect all the lines of the company which include the territory from Marysville to New Cumberland and to Carlisle.

MACADAM ROAD ON WEST SHORE

State Department Rebuilding Highway Leading to Government Plant

Lemoyne, Pa., July 2.—Work on construction of a macadam road from the Cumberland Valley bridge in Lemoyne to New Cumberland, was started by a large force of workmen from the State Highway Department yesterday. It is understood the type of roadway to be built by the State Department is similar to that of the Carlisle pike.

The State Highway Department has for some time been making temporary repairs to Rossmoyne street, in Lemoyne, and Bridge street, in New Cumberland, so that they would remain in good shape until the street is built. These repairs and the construction of a new roadbed are to facilitate transportation to and from the big government job below New Cumberland.

When the road is completed it will be one of the finest stretches of highway on the West Shore. The rebuilt section will be about three miles in length. The road will eliminate the dust nuisance which both New Cumberland and Lemoyne.
