Several thousand Steelton residents are interested in this event which is the first of its kind in the history of the world. The Southern Slavs of which there are a large number in Steelton, are fighting for freedom from Austria and although classed as alien enemies because they are from a province of Austria, they are very loyal and have demonstrated that fact repeatedly with their purchase of Liberty Bonds and their support of all war work. The local Southern Slavs are exceptionally active in all the work and are now seeking to be classed as residents instead of alien enemies.

SEIZURE OF WIRE SYSTEMS NEED OF U. S. ANY MINUTE

Baker Tells House Committee It Is Essential to Give President Power

Washington, July 2.—While three cabinet officers were before the commerce committee advocating the Aswell resolution empowering the President to take over telegraph, telephone, cable and radio systems, the House took jurisdiction over the measure from that committee and voted in the military committee.

There was no discussion and only a viva voce vote when Representative Gordon, of Ohio, moved that jurisdiction be transferred because the measure was urged as a military necessity. Members of the military committee said later they were not opposed to the resolution and would report it favorably.

Secretary Baker, taking the stand first, said it did not happen at the minute to be a military necessity to take over telephone and telegraph lines but it might be "the next minute."

TOLL OF GERMAN DEATH IS HEAVY

Over an area of several miles the Americans now have the enemy under their guns. Daylight this morning saw the Americans digging in almost undisturbed far beyond the old German defense line.

Germany's expected blow against the western front still is withheld. Meanwhile the British and French continue to recapture small pieces of terrain in local actions. On the mountain front west of the Brenta the Italians have extended their success by the capture of two more heights.

Activity behind the enemy lines is reported to be on a greater scale than last week, but the Germans have given no sign of where they will attack. In fact the Germans have not even made strong attempts to retake the ground captured by the allies in the successful nibbling operations of the past ten days.

latent gains by the Germans on the important sector between Aras and the Somme, while the French are active between the Aisne and the Marne.

Harass German Area
Allied airmen are harassing the area behind the German lines with increasing violence. Aerial combats have been numerous and French and British airmen have brought down or sent down out of control fifty-three German machines and destroyed eight captive balloons. Railway junctions, railroad and other military targets have been bombed heavily, while British airmen keep up their bombardment of the districts around Metz an eastward toward the Rhine. Mannheim again has been attacked. The Germans repeated their attempts to raid Paris Monday night but met with no success.

When the Germans attack they probably will find an American Army aiding in barring their way westward. It is believed the first American corps has been completed. Three divisions are in the line from northwest of Montdidier to east of Chateau-Thierry on the Marne.

Czecho-Slovak Troops Fight
Czecho-Slovak troops took part in the capture of Monte di Valbella almost simultaneously with the announcement that France and Great Britain had given their support to the Czecho-Slovak fight for independence. Other Czecho-Slovak troops, formerly under the Austrian flag, have been most active against the Bolsheviks in Siberia.

No additional survivors of the British hospital ship, Llandovery Castle, torpedoed by a German submarine, have reached land. The number missing is 234 out of 253 persons on board.

Senate Stands Firm For Wheat Increase to \$2.50 Per Bushel

Washington, July 2.—The Senate yesterday by an overwhelming majority refused to yield to House opposition to an increase in the Government's minimum guarantee for wheat to \$2.50 per bushel. A motion of Majority Leader Martin, proposing to instruct the Senate conferees to abandon the Senate price increase amendment to the annual agricultural bill, was defeated, 46 to 19.

The Senate's action causes continuation of the deadlock over the \$28,000,000 appropriation measure and prevented its passage yesterday, the beginning of the Government's fiscal year. Enactment of an emergency resolution to provide needed funds for the Department of Agriculture, pending settlement of the wheat dispute, is under consideration.

German U-Boat Sinks Danish Steamship Indian

Events Drawing Germans to Russia Will Compel Allies to Follow Suit

London, July 2.—The Finnish-German push along the Pasovill river in the Murman region of Northern Russia must be considered in connection with events in Russia which gradually are developing in anti-Bolshevik directions, says the correspondent of the Times at Christiania.

There is reason to believe, he adds, that intense traffic at Archangel, which has been suspended for the past twelve months, will soon be resumed. The Germans, therefore, are eager to cut communications with Southern Russia and force an issue as regards their demand for an ice free port on the Arctic coast. The correspondent adds:

Flour Mills Must Disgorge All Illegal Excess Profits

Washington, D. C., July 2.—Four millers who made excess profits during the last fiscal year, as charged by the Federal Trade Commission in its report Saturday to the Senate, must return the amount of such profits to the government in the form of milled flour, under regulation made public by Food Administrator Hoover.
