WOMAN SHOTS WEASEL

Newville, Pa., July 5.—When Mrs. Eva Moxell, of Newville, R. D. 1, went to feed her young chickens one morning recently she discovered a large amount of feathers lying around the coop and upon looking inside the coop found a hen and nine young chicks dead. She repaired to the house for traps, which she intended to set to catch the intruder, and on her return noticed a weasel sticking his head out of a small stone pile nearby. She then went to the house and got the shotgun and, returning, shot the weasel.

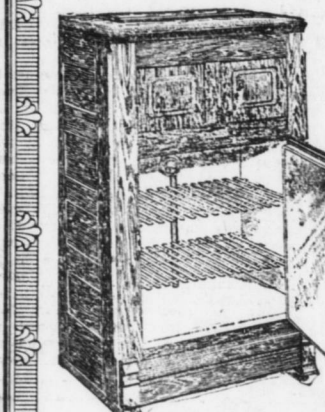

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain mulsumed coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Scarcity of Material Holds Up Gettysburg Street Oiling

Gettysburg, Pa., July 5.—Gettysburg Borough Council is having quite a time over the question of the repairing and oiling of the streets. At a meeting early in the spring it was decided to oil the streets of the town so that the citizens would be relieved of the dust nuisance, and the highway committee was instructed to go ahead and make the necessary purchases of stone to fill up the low places before the oiling should be done, as well as to purchase the oil and tarvia. The summer is half gone and still the townspeople are afflicted with the dust and nothing has yet been done. At the June meeting of the Council the matter was taken out of the hands of the highway committee and placed in the hands of a special committee.
