Friction is a Poor Passenger to Haul Around in Your Car "No matter what kind of a car

ou drive, how many passengers it holds, or where or when you drive, there's an extra passenger along with you." says a local garage man. "It's old man friction. You can't

fect of his sly, damaging tactics. He runs up your gasoline and repair bills and wears out your car a lot quicker as long as he has his own

quicker as long as he has his own way. "Friction must be eliminated by the use of a good lubricant, and I have found the graphite lubricants manufactured by the Dixon Com-pany most effective. The selected fake graphite in the grease forms an unusually long-wearing coating that keeps the metal contact surfaces from the rasping grind that wears away the parts. Graphite is espe-cially good for cars used to travel-ing a hilly country."
