CHARGE COKE OVENS TODAY

Battery of Eighty Placed in Operation; Increases Daily Output by Eighteen Cars

With the placing in operation of Blast Furnace A at the local steel plant some time next month, the largest part of the Schwab improvement program at the local plant will be completed.

A battery of eighty coke ovens were charged to-day and officials expect to draw coke some time Wednesday. These ovens were scheduled to go into operation on Friday but because of several leaky gas connections it was impossible to charge them.

The new battery of ovens will be able to produce about eighteen cars of coke daily. This output added to about twenty-five cars from the 120 ovens which have been in operation a long time will give the local plant about forty-five cars of fuel daily from this source.

Final rehearsal in preparation for the concert to be given at Reservoir Park to-morrow evening will be held this evening by the Steelton Band. Director Zala has selected a program of fine musical selections which will be presented by the local organization.

Police Make Raids on Street Gamblers

In less than twenty hours between 9 o'clock Saturday evening and 1 o'clock yesterday morning the local police department reports seventeen arrests.

Eight of this number were charged with charges of gambling, while the remainder were arrested for being disorderly and intoxicated. The local roundup is billed to be the week-end campaign. Had it been necessary for the department to hold all of the lawbreakers instead of releasing some on bail, it would have been necessary to take them to Harrisburg, pending the hearings today and this evening before Burgess McIntee.

NEGRO SHOT IN LEG Wilson Moyer, negro, is in the Harrisburg Hospital with a bullet wound in one of his legs. Moyer said he was shot when he tried to get away from another negro who was trying to take his money. Steel company police are investigating. The shooting is supposed to have taken place near Locust Grove.

MONTHLY MEETING Class No. 2 of the Intermediate department of the Centenary United Brethren Sunday school will hold its monthly meeting at the home of George Hartz. Members are requested by the teacher to meet at Second and Walnut streets at 7:45 o'clock and proceed to the Hartz home.

HUNS PROPOSE PEACE TO ITALY

Usual Attempt to Break Down Morale Tried Again by Germany

Washington.—That Germany has offered "an honorable peace" to Italy was disclosed by Premier Orlando before the Italian Chamber of Deputies yesterday, according to Rome cables.

In the course of a statement to the chamber Premier Orlando referred to the announcement which was made by him about a fortnight ago that the Central Powers had made overtures to Italy for a separate peace. The premier's comment that this proposal had been rejected promptly by the Italian government was greeted by an enthusiastic demonstration.

Advices received here do not indicate the nature of the temptations held out to Italy, but reports from Rome, current at the first news was given of this attempt to break the solidarity of the Entente alliance indicated that Emperor Charles was the prime mover in the attempt at peace negotiations and that he had held out a promise of extension of the Italian border northward in recognition of Italy's predominance in the Adriatic, besides some minor concessions relating to the status of Italian subjects in Austria.

Railroad Notes

Charles Miller, assistant road foreman of engines for the Middle division of the Pennsylvania Railroad, is again on regular duty in this city.

Work on the station platform at Jeonota will start this week. Many railroad shomen of this city will attend the big convention at Altoona this week. Four retired shomen of the Pennsylvania Railroad have returned to work at Altoona.

The Pennsylvania Railroad has added two more flagmen to its force at New Castle, Pa. They are Mrs. Thomas Ford and Mrs. Brown, and are stationed at the Washington street crossing, near the New Castle Fiber Works. Each woman does six hours work. The night shift of twelve hours is covered by James Hallman.

Schools have been opened by the railroad administration in several cities to train women to sell tickets at depots and consolidated city offices. It was announced that the students who are graduated, after a short course, will be paid salaries equal to those paid men on the same work. The administration already has women employed in ticketoffices in New York and Washington.

Spain Begins to Realize Frank Neutrality to the Allies the Better Plan

Barcelona, Spain, July 8.—Signs are not wanting in a certain section of the Spanish press of uneasiness as to what the verdict of history may be on Spain's attitude during the war.

Portland is the center of the great spruce area of the Pacific Northwest. Colonel Disque's vast organization occupies three floors of one of Portland's largest business blocks, and to meet the requirements of the government and to attain the great production sought by Colonel Disque, the organization in Oregon will greatly be increased. Already an army of men is at work in the forests, in the cut-up mills, and in the traffic departments preparing the raw stock, and semi-finished spruce products for the great aeroplane manufacturers of the country, and for shipment to our allies.

Too Weak To Work Vermont Woman Tells How She Regained Her Health Alburt, Vt.—"I was run-down, no appetite, and too weak to do my housework—medicines did not seem to help me until I tried Vinol—I soon noticed an improvement, and am now well, strong, and able to do my work."—Lillian Babba. The reason Vinol was so successful in Miss Babba's case, is because it contains beef, and cod liver peptones, iron and manganese peptones and glycerophosphates, the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength. Ireland to Start Search For Ancient Deposits of Gold Dublin.—Gold mining in Ireland is a possibility of the near future hinted at in a report of a committee organized here to make a survey of Ireland's mineral wealth. It is believed that ancient deposits of gold, which were worked in the late eighteenth century along the Ballinvalley stream, might be found commercially profitable under modern mining methods. According to the published statement, the first discovery of gold along the Ballinvalley was made in 1796, when a nugget weighing half an ounce was picked up. The search continued for two months, and at the end of that time 20 ounces of pure gold had been found. The gold found ranged from tiny atoms to nuggets weighing over a pound. One nugget weighed twenty-two ounces, measuring four inches in length by three in breadth, and was retained by the finder who has recently been exhibited at Trinity College, Dublin. As late as 1856 a nugget weighing six ounces was picked up in the Ballinvalley, and it is believed that with the latest modern methods a substantial profit could be made from intensive operations in this district. The spots proposed for experiment are at Cronanahilly, Crogan-Mor and Killahurrian.

Congress Is Captured by the Hustling Elks Atlantic City, N. J.—Two hundred and twelve members of Congress have accepted the invitation of the Atlantic City Lodge of Elks to be guests of the order at the half century reunion, which is to begin here Monday, July 8, and continue through the week. The golden anniversary, although coming at a time when the nation is engaged in war, is to be notable in many ways. In addition to the Congressional delegation, several Cabinet members have promised to attend the celebration, while President Woodrow Wilson has indicated an intention that Philadelphia expects to be represented by 1,000 or more reached here recently. New York will send a contingent delegation, as it intends to make a contest for first time. Brooklyn will number no less than 6,000; Camden will parade 500, and California is after the "distance" trophy with a prominent city-six. Cleveland reports an enrollment of 100. The antler herd speak of 30,000 being in attendance, but twice that number is expected.
