

### COUNTIES WILL GET NOTICES

#### Game Commission Will Lose No Time in Closing Them to Hunting of Grouse

Immediate steps are to be taken by the State Game Commission to give notice to the counties that hunting of grouse has been closed to the hunting of the ruffed grouse for a year in accordance with the action of the commissioners on petitions yesterday and it is expected that York, Adams, Lehigh and Montour, the four counties whose papers are not complete, will file within a short time.

The commission will make advertisement of the closing and give counties and the game which is to be protected for certain periods. This will be done to prevent any hunting of the grouse this fall and to enable plans for propaganda to be carried out by the state and private enterprise. The closed season for a year will give two hatching seasons and enable grouse to be shot again in 1919.

**Composition Rulings.**—The State Compensation Board has ruled in the case of Stanislawski vs. John Wood Manufacturing Co., Conshohocken, that the claimant should return to his previous occupation if opportunity is presented to him by his employer or to some work he can do so as to afford the board a basis for computing earning power. This solution was reached when the effect of an injury was questioned. A new hearing is awarded in Hamor vs. Mertz, Northumberland and the appeal dismissed in Schuey vs. Kittaning, in which it was claimed that allowance by the board of an amended answer by the insurance carrier was an error of law. The board holds "the right to amend is discretionary and does not depend on statute."

**Attended Ceremony.**—Attorney General Brown attended the enthronement of Archbishop Dougherty in Philadelphia to-day.

**Board in Session.**—Members of the State Industrial Board left last night for Philadelphia to attend the regular meeting of the board.

**In Maine.**—Howard M. Hoke, secretary to the Attorney General, is in Maine on his vacation.

**Bridges Ordered.**—The State Board of Public Grounds and Buildings has ordered bids asked for state bridges at Laceyville and Falls and has chosen J. Murray Africa as engineer for the state bridge in Huntingdon county and G. A. Flink as engineer for the new Snyder county bridge.

**Opinions Given.**—Attorney General Brown has informed T. B. Patton, general superintendent of the Huntingdon Reformatory, that the board of managers of that institution are

not authorized to receive young men convicted of violation of laws of the federal government. He holds that the reformatory was established for reformation of juveniles of this state alone. The Attorney General has also given an opinion to Dr. Nathan C. Schaefer, Superintendent of Public Instruction, in which he clarifies the law with respect to the authority of the College and University Council to approve colleges for the granting of academic degrees. The opinion was given in the Irving College case and the Attorney General says "the legislative requisites for approval, in respect to corporations, as set forth in the act of 1895 do not necessarily govern the approval with respect to college certificates required by the act of 1911."

**After the Guns.**—Officers of the State Game Commission, who have been examining homes of foreigners to see whether they possess firearms have confiscated a number of guns in the Marysville region and have also been going through aliens' homes in the Lykens valley. Some of the revolvers taken are of ancient vintage.

**Fifty-eight Stars.**—The State Highway Department has hung out a new service flag. It contains fifty-eight stars, the largest number of any branch of the state government.

**To Improve Road.**—Immediate steps are to be taken for the improvement of the state road at the "nose" of the mountain near Marysville, an inspection having been completed by the state, county and railroad authorities who are jointly interested.

**Grade Crossings Up.**—Hearings were held at the offices of the Public Works Commission to-day on the applications for approval of contracts between the city of Chester and the Pennsylvania railroad for grade crossings on several streets in the industrial district of that city which is largely engaged in manufacture of munitions. Grade crossing cases for industrial purposes from Philadelphia and Lancaster were also heard.

**To Move 700 Men.**—Arrangements were made at state draft headquarters to-day for moving of 700 men with grammar school educations to colleges and schools in this state for special training in mechanics. The men are to be in the colleges by Monday.

**Many Permits Issued.**—The State Water Supply Commission last night issued a statement giving approval of the John K. Hager bridge in Chambersburg; for repair of dams in vicinity of York and Ephrata; Reading railroad bridges in Berks county and approving nineteen applications for county bridge permits.

**Government Agents Step Into Ranks of Youth in Cleveland; Take 1,000**

By Associated Press  
Cleveland, Ohio, July 10.—About 300 American Protective League operatives searched downtown Cleveland last night for slackers, as a result of which more than 1,000 youths between 21 and 31 who could not show their classification cards, were hauled before the examining board. All poolrooms, saloons and grills in the district were temporarily put out of business by the raids. Scores of girls were bereft of their escorts.

The board was in session all night trying suspects. Many were released until to-morrow upon promises to report with their registration cards, while others spent the night in jail.

**Six-Cent Trolley Carfare Looms Large For Nation**

Washington, July 10.—The President has before him recommendations of the war labor board, which, if carried out, and everyone expects that he will approve them, will probably mean a 6-cent minimum street car fare for American cities.

The recommendations are the result of the recent hearing by Joint Chairman W. H. Taft and Frank P. Walsh of the board in the application of street car men from more than 20 cities in the country for increased wages. The cities include Chicago, Cleveland, Detroit and Newark, N. J.

The representatives of the men and the companies involved agreed with the board during the hearings that it was financially impossible for the companies to pay the wage increases at their present rate of fare, and the board agreed to make recommendations to the President for financial relief of the companies before it ordered the wages raised.

**Austrian Empress Zita III Under Peace Imputations**

By Associated Press  
Amsterdam, July 10.—Denying rumors which have been circulating in Austria-Hungary regarding Empress Zita, the correspondent at Vienna of the Hljid says:

"It is true the Austrian Empress partly desires peace and has with proper dignity advocated it, but the rumor that an energetic Austrian offensive against Italy was delayed by her influence is slanderous as also is the rumor that the Empress was to blame for one or two setbacks which followed the offensive."

"It is still more slanderous to involve her honor as a woman. The Empress, whose sensitiveness is well known, suffered not a little under the imputations which have driven her to a sick bed."

"The slander is more painful as it ever assailed the wedded fidelity which so distinguished the conduct of the imperial couple."

"The Live Store"

"Always Reliable"

# DOUTRICHS SHIRT SALE

Eager buyers are crowding this "Live Store" daily—Its the "biggest" event that's been presented to Harrisburg — Our first customer to-day was a Philadelphian — After purchasing two "silk shirts" he remarked that he was attracted by our exceptional window display, said he never saw anything like it even in the big city.
