

MADE COMPLAINT ABOUT STREETS

Authorities at Camp Colt Ask Gettysburg Burgess to Hasten Repairs to Town's Highways

Gettysburg, Pa., July 11.—Because formal complaints about the condition of the town's streets have been made by the authorities at Camp Colt, promises have been made that stone will be sent here and that shipments will be made at once. In the complaint to Burgess Eicholtz, it was stated that the streets of the town were in such bad condition that the cost of repairs to the army trucks which do all the hauling for the camp is excessive. The Burgess explained to the officer that the blame could not all be put on the borough, as the officials have been trying all spring and summer to get stone tacked and binder to put them in good repair, but without results, and that the government should be credited with part of the blame, as word had been received from the company that the tarvia and binder were all ready and had been ready for shipment for some time, but up-to-date the government has failed to order the material released.

Shipments of stone will be made at once from the quarries of the Bethlehem Steel Company at Bittinger, near here and the work will be done on with as far as possible.

What Is a Czecho-Slovak?

Hardly a day passes without news dispatches from Europe in which are mentioned the Czecho-Slovaks. Now they are fighting valiantly in Italy again they are the subject of violent argument in the Bundestrath at Vienna; we read of their activities in far-off Siberia, and in the next column, perhaps, about their future being discussed in London.

Who are they? What do they want? What are they trying to do that is so disturbing to the Kaiser and Emperor Charles? In what way might they become a powerful factor in the war?

These and other questions about the "mystery race" of Central Europe are fully answered in the magazine section of next Sunday's Philadelphia PUBLIC LEDGER. There is also an intimate account of "A Whole Day With Charlie Schwab"—showing just how the world's greatest shipmaster works his miracle of production and at the same time keeps cheerful and healthy.

There will be many other interesting articles and eight pages of photographs in Sunday's PUBLIC LEDGER. To be sure of getting it, notify either of the following Harrisburg agents: M. Formey, Harrisburg News Company and J. Hoffman.—adv.

CHAMBER OF COMMERCE OFFERS PRIZE FOR NEW FLAG DESIGN

Telegraph's Idea Accepted by Chairman Reineohl, Who Announces Conditions of the Contest; Open to All

The Harrisburg Chamber of Commerce offers a prize of \$5 for the best design for a Chamber of Commerce flag.

The Chamber announced yesterday that it had decided to have a flag. "So many parades and other public occasions demand insignia whereby the members of the Chamber may be identified when together that the directors have decided to have a standard," said George S. Reineohl, chairman of the committee.

"Why not a prize for the best design?" he was asked. "That's a very good idea," Mr. Reineohl replied. "I will say for the committee that we will give \$5 as a prize to the maker of the design we adopt."

To this the Telegraph will add \$1 as a second prize for the second best design submitted.

Later to-day Mr. Reineohl announced that the contest will close August 1.

"The Telegraph's idea is good," said the committee. It has adopted it. I will shortly announce a board of judges whose duty it will be to pass upon designs and decide which two are worthy of prizes. The contest will close August 1. All designs must be in the mails before the close of business July 31.

Designs should be addressed to Chamber of Commerce Contest Editor of the Telegraph, and mailed or brought to the office of this newspaper.

TRI-COLOR IS TO WAVE OVER CITY ON BASTILLE DAY

Full Program Arranged For Harrisburg's Participation in National Celebration

Suitable mention of the fall of the Bastille and its meaning, by the majority of clergymen in Harrisburg, at morning and evening services.

City-wide observance at Reservoir Park at 4 Sunday afternoon which includes:

Addresses by prominent Harrisburg citizens. Musical program by Municipal Band. Community or mass singing, directed by Abner W. Hartman.

In brief that is the program planned for Sunday's observance of Bastille Day by the committee in charge.

The Municipal Band was engaged for the park observance by the committee in charge this morning, and has promised an excellent program.

It was urged upon citizens generally, and those living in Market street in particular, to-day, that they make lavish use of the French flag and colors Sunday. Captain Rouvier is to be taken to Reservoir Park in Market street, and it is urged that this wide thoroughfare be suitably decorated by the persons who live between the central city and the Bellevue entrance to the park.

Harrisburg Railways Company to-day promised especially fine car service for the Reservoir and State street lines Sunday afternoon.

Attorney John Fox Weiss, in charge of the musical arrangements, said the Municipal Band will play the city present Sunday afternoon to lead the song fests which is part of the observance.

FANCY DRESSERS LIMITED TO ARMY, DESIGNERS RULE

Decide All Male Attire Outside U. S. Service Will Be Hooverized

New York, July 12.—The American Designers' Association, in convention at the Hotel Martinique, has put the official kibosh on "fancy clothes" for men.

"No more of this 'in the spring a young man's fancy' stuff," said Harry Simons, general chairman of the convention. "So long as this war lasts there's only going to be one man that will be a 'fancy dresser,' and that's the man in the service. Any fancy designers have lying around loose is going to be corralled and made into a uniform."

Addressing the 150 members of the association yesterday afternoon L. Kirstein, chief of the Clothing Procurement Department of the Quartermaster General, said: "We have been informed that General Pershing wants more style in the soldiers' uniforms. That's enough for us. If the General wants more style in those coats and trousers you can rest assured he's going to get it and get it quickly, and it's going to represent the efforts of the biggest men in the Designing Association. General Pershing considers that style in the uniform is an aid to the maintaining of morale in the Army. That is one reason he has insisted upon the standing collar on the uniform."

"We are working now on a new flare for the coat. We're trying to find the best sort of seam for army use and whether top or side pockets are most effective."

Beau Brummels Only in War

"If there are going to be any American Beau Brummels they're going to be found in the army."

When the designers get finished curtailing waste, the male civilian will find that he has been bereft of his patch pockets and the cuffs on his trousers. His coat tails won't even flap as they used to do. There will not be enough of them to flap.

ALBANIA BLOW TO AID RUSSIA

Foch Is Believed to Rely on Help of Jugo-Slavs; Siberian Project Is Shelved

Washington, July 12.—That the "great adventure" of an inter-allied expedition across Siberia has been definitely abandoned by General Foch and his military advisers as impossible; that inter-allied military intervention on the Murman coast is, on the other hand, an accomplished fact, to guard the ports of Kola and Archangel, and that the world war is sweeping back across Serbia to Sarajevo, whence it sprang, are notes of a complete change of Allied and American policy which are being sounded here by close friends of the administration.

Allied military advisers have definitely concluded that the eastern front cannot be reconstructed by action along the 6,000 miles of railway leading from Vladivostok. It is a military impossibility, they admit, if not a political and ethical impossibility. Therefore General Foch has turned his eyes toward another avenue of approach.

Seck Way Across Albania

The Italian offensive across Albania, reaching toward the half million of Anglo-French troops at Salonica and ultimately up across the newly recognized Czecho-Slovak state and through friendly anti-German nations that extend to the Russian border, will be the strategic line of the allies, it is predicted, for a reconstruction of the southern and eastern fronts. On the Arctic sea the passage of supplies into Russia will be guarded by the co-belligerent forces.

Wilbert Eckels, Well-Known Farmer, Dies at His Home

Mechanicsburg, Pa., July 12.—Wilbert G. Eckels, a prominent farmer of Upper Allen township, died last evening at his home in High street, Bowmansdale, after several months' illness of tubercular trouble. Mr. Eckels was 54 years old and was a graduate of the Mechanicsburg High school. He lived here for many years before going to farming. He was tax collector of Upper Allen township and secretary of the Bowmansdale Lodge of Odd Fellows. He is survived by his wife and four children: Mildred, Wilbert, Jr., Spencer and Helen Eckels, all at home; also two brothers, Charles Eckels, of York, and L. J. Eckels, of Shepherdstown. Funeral services will be held on Monday afternoon at 2 o'clock in charge of the Rev. T. J. Ferguson, of Silver Spring Presbyterian Church. Burial at Silver Spring Cemetery.
