

10,000 PEOPLE SEE NEW GUARD AT MT. GRETTA

Adjutant General Beary Inspects Militia; Religious Services Feature

Camp General Thomas J. Stewart, Mount Gretna, Pa., July 15.—Stewart, 10,000 persons from various points in the state witnessed the first assembly and review yesterday of the militia organized by the Pennsylvania state militia. Adjutant General Frank D. Beary reviewed the brigade and later made an inspection of the entire command.

MON VIEUX PREND DU FER NUXATE TAKE NUXATED IRON OLD PAL

As a tonic, strength and blood builder probably no remedy has ever been so successful as Nuxated Iron. It is composed of iron, copper and other elements. It is taken in this country alone. It has been highly endorsed and used by such men as Hon. Joseph P. Morgan, former President of the United States, Hon. Charles D. Smith, former Secretary of the Treasury, United States Judge Al. K. Williams, of the Court of Claims, Washington; Judge Wm. L. Chambers, Commissioner of the United States Board of Pensions and Conciliation, formerly Chief Justice of the Interstate Commerce Commission; former United States Senator and Vice-President of the United States, Hon. Charles F. Townsend, of Minnesota; former U. S. Senator, Richard T. Lamm, of Colorado; and former U. S. Army Surgeon General, Dr. J. C. Newland, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago. Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood cells, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (outdoor Dept., New York, and the Westchester County Hospital, says there are thousands of men and women who need a strength and blood builder, but do not know what to take. In his opinion there is nothing better than organic iron—Nuxated Iron—for enriching the blood and helping to increase the strength and endurance of men and women who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day. If you are not strong or well, you owe it to yourself to make the following test: See how long you can walk or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

MANUFACTURERS' NOTE: Nuxated Iron was developed by former members of the United States Senate and House of Representatives, and other prominent people with such surprising results, and which is prescribed and recommended above by physicians is not a secret remedy, but one which is well known to druggists everywhere. Unlike the older inorganic iron products it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by Croll Kellar, Geo. A. Goran, J. Nelson Clark and all other druggists.—Advertisement.

M. Brenner & Sons Motor Co. Announce the Opening Of Their New Salesrooms at Third and Hamilton Streets Tomorrow, Tuesday, July 16 where they will carry a complete line of Automobile Accessories, Supplies Motor Oils and Gasoline Local Distributor For Kissel Trucks Touring Cars

FRENCH HOLIDAY IS CELEBRATED AT CAMP MEADE

Tricolor Flies and Commanders Tell How Autocracy Fell in France

Camp Meade, Md., July 15.—Welfare agencies of the camp, acting through General Joseph A. Gaston, joined yesterday in observing the anniversary of the fall of the Bastille. The celebration was held in the new building of the Jewish Welfare board. Addresses were made by Edward C. Baldwin, head of the Young Men's Christian Association; Francis A. Litz, of the Knights of Columbus, and A. A. Steinbach, head of the Jewish Welfare Board. There was music by the depot brigade band.

The "Marseillaise" and other French patriotic airs were played. The French Tricolor was flown from flag staffs on this occasion as the Italian flag was displayed a few weeks ago to indicate the feeling of fellowship with the Italians. Every commander impressed upon his men the importance of this day as marking the fall of autocracy in France and thus it is a date of rejoicing for all liberty loving people at this time when liberty is fighting for its existence against Hohenzollernism.

17,000 New Men Coming Everything is being put into shape for the arrival of 17,000 new men this week. The number may be swelled to 19,000 before the week is over. The men will come from Maryland, West Virginia, Tennessee and the District of Columbia. While Pennsylvania will not send any this month, for most of the men from the Keystone State in the August call, will be sent here to make up a number of the 17,000.

Enrollment is being received today that the 313th Infantry of the 79th Division, which trained here, had reached "over there." Absolute confirmation of this, however, could not be made. It is a fact, though, that the 313th sailed some time ago for France. The work of enlarging the water supply and the sewerage system of the camp will be started within a few days. More pipes will be laid and filters built. The coming of 13,000 signal corps men, in addition to the regular selected men, will make great demands upon the two systems.

Pittsburgh Sunday Papers Up to 10 Cents

Pittsburgh, July 15.—Pittsburgh newspapers announced in their price lists that after this date their price will be ten cents a copy on Sunday. The increase in price of white print paper fixed by the Federal Trade Commission at Washington, Sunday papers hitherto sold for seven cents.

RED CROSS WORKERS NEEDED ON SOCKS

Red Cross knitters will have an opportunity to do their bits to-morrow when the local workrooms at 10 to 12 and 1 to 5, and work will begin on meeting an order for 3,500 pair of socks. These must be completed during the months of July, August and September. Mrs. John W. Reilly will be a busy chairman when Harrisburg woman patriots swamp her to-morrow.

TO CONTINUE SERVICE

Despite the absence in Baltimore of Captain and Mrs. Nielsen, nightly services will be conducted in the Salvation Army headquarters at 10 and 11 streets to-day. The captain and Mrs. Nielsen are in Baltimore, because of the death of his brother-in-law, C. Albrecht.

ABRAHAM SHEETS DIES

As the result of injuries received in an automobile accident near Paxtang on Saturday, Abraham Sheets, aged 52, died in the Harrisburg hospital yesterday afternoon. He was admitted in a dazed condition, apparently suffering from a severe contusion of the left leg. It was noted later that he was internally injured. It is not known how the accident occurred. Efforts to find relatives of the man have proved futile, hospital authorities say.

RELEASING BY POLICE

The negro named Hendricks, held by police on a murder charge furnished by a colored woman, was released when word from Texas, where the murder was supposed to have been committed, declared that he was not wanted.

MEAMIAN QUAIL WILL BE BOUGHT FOR AMERICANS

State Game Commission Is Hopeful of Securing Supply From the Republic

The State Game Commission is going to make another effort to obtain quail for stocking Pennsylvania counties next year. Notwithstanding the disappointments attending the shipment of several thousand promised from Mexican highlands and arranged for here this spring, correspondence has been undertaken with men who claim that they will avoid revolutions and comply with Federal requirements and deliver the birds to Pennsylvania when weather and food conditions are right. The commission at its meeting yesterday delivered next week a marked desire on the part of many sportsmen to have the state stocked with quail on an extensive scale not only to furnish sport, but to replenish the losses caused by last winter. Promises to enlist interest of farmers in feeding of quail because of their great value as bug destroyers have also been received here.

The commission has already contracted for thousands of ring-necked pheasants to be delivered next year and has liberated many and distributed hundreds of dozens of eggs to sportsmen this year. It is planned to buy a few new birds next year. The game will be purchased and an effort to propagate grouse will be undertaken. Approval of the first three auxiliary game preserves and the order for opening of the new Forest county state game preserve, to be known as No. 24, are expected to stimulate game propagation. The three auxiliaries will be wired in Clarion, Luzerne and Bucks counties. Clarion has the honor of being the first county to be wired. Game wardens will be followed by others from western counties where the state does not own forest land, but for some counties are easier to preserve and hope to get around the oil and gas lease situation and obtain use of cover for game. All confirmation of this, however, could not be made. It is a fact, though, that the 313th sailed some time ago for France.

The work of enlarging the water supply and the sewerage system of the camp will be started within a few days. More pipes will be laid and filters built. The coming of 13,000 signal corps men, in addition to the regular selected men, will make great demands upon the two systems.

Elizabethville Board Examines Class of 191

Forty-three qualified, twelve held for special service, two in group B, five discharged, two transferred to other local boards is the result of further examinations by the Elizabethville draft board, it was stated to-day. Two registrants did not report for examination. A total of 25 cases are still in the hands of the district board, it was stated by draft board officials. FINED AS PARK DISTURBER John Sturgis was fined \$10 and \$7.38 costs by Alderman Murray yesterday morning on charges of disorderly conduct in Paxtang Park. Sturgis was charged with being drunk in the park and refused to leave when the park policeman ordered him away. He was arrested and held for the hearing before Alderman Murray.

ENHAUT

Announcement has been made in town of the marriage, in Newark, New Jersey, July 2, of Miss Anna Reinke and Harry Garfield Snavely. Professor Snavely is connected with the Board of Education of the City of Newark, N. J. Mr. and Mrs. Lester Thompson announce the birth of a son Thursday, July 11. Borough engineer William Callaghan, of Steelton, is giving grades for a few people in town who are anxious to lay pavements this summer. Elmer H. Paul, Franklin Paul, Harry August and Squire A. W. Ellenberger have returned from an automobile trip to State College, Pa. Franklin Paul was one of the Swatara township high school graduates last year, will enter that institution this fall. Miss Jonas Baughman has returned from Shippensburg. Mrs. Floyd Geary has returned from a visit to her parents at New Bloomfield, Pa. Mrs. Arthur Keeney and daughter, Bernice, of Detroit, Michigan, are spending several weeks here. Mrs. Grace Holmes has accepted a position in Buffalo, N. Y., and left for that city on Monday. Harry O. Thumma has returned from Baltimore. Miss Evelyn Waidley has received several war trophies from France. She is the possessor of a small American flag which has been through service on the front, attached to ambulances. She has also received a number of pieces of French paper money. Birth notices are being made by the Sunday school of the Church of God to hold its annual picnic.

TOBACCO RATION IS A POSSIBILITY FOR AMERICANS

Government May Limit the "Smokes" and Control Whole Industry

Washington, July 15.—Government control of the tobacco industry of the United States may result from the heavy requirements of the armies and the American military forces abroad. Rationing of the American population is believed to be a possibility. The war industries board announced yesterday it is conducting an investigation to determine the requirements abroad and the amount that must be conserved in this country to meet the situation. It estimates that approximately two-thirds of the leaf tobacco raised in this country in 1917 will be available for American manufacturers. Out of this must come cigars and pipe tobacco for their great value as bug destroyers of manufactured tobacco in addition to cigars and tobacco purchased here for Belgium. The crop in 1917 was 1,196,000,000 pounds, and of this the board estimates that 850,000,000 pounds would be available for export to the allies. The total yearly consumption of the military forces of England, France and Italy amounts to approximately 159,000,000 pounds a year, the board said. The total consumption of the military forces of the entire world amounts to approximately 387,000,000 pounds, or 41,000,000 more than this country is able to export.

Consumption Here Large

Persons who pointed to possible government control in order to assure tobacco issued to the allies and American forces said it is more than probable that with the allied armies consuming between 40 and 45 per cent of the total consumption in allied countries, American forces would use more than 50 per cent of the total amount used in the United States. The board estimates that the annual per capita consumption of the United States and the allies as follows: Italy, three and a half pounds; France, three and a half pounds; Great Britain, four pounds, and the United States, seven and a half pounds. England, France and Italy are now chiefly dependent on imports from the United States, as their imports from other tobacco-growing countries have been materially reduced through lack of shipping facilities and inability to import from Turkey and Bulgaria.

60 Names on List of War Casualties; 3 From State

Washington, July 15.—A summary of the United States Army casualties to date, issued to-day follows: Killed in action, including 291 at sea, 1,670. Died of wounds, 605. Died of disease, 1,346. Died of accident and other causes, 508. Wounded in action, 5,469. Missing in action and taken prisoner, 522. Total, 10,110. A summary of Marine Corps casualties to date follows: Officers—Killed in action, 24. Wounded, twenty-nine. Missing, two. Enlisted men—Died, 549. Wounded, 1,016. In hands of enemy, two. Missing, sixty-one. Total, 1,682.

Total Loss to Date 11,793, Army 10,110, Marines 1,693

Washington, July 15.—The Army casualty list to-day contained sixty names, divided as follows: Killed in action, 14; died of wounds, 7; died of disease, 7; died of accident and other causes, 1; wounded severely, 28; missing, 3. Three Pennsylvanians are named in the casualties, as follows: Killed in action, Private Reuben O. Wright, Philadelphia; died of disease, Chief Mechanic Roy W. Sherman, Temple; Private Charles W. Williams, Saltsburg.

Express Hits Automobile; 1 Dead; 3 Badly Injured

Reading, Pa., July 15.—Erma Sproesser, 7, was instantly killed and her mother, Mrs. Charles H. Sproesser, brother Charles, 12, and sister Grace, 9, were badly hurt last night when the Pennsylvania railroad's Wilkes-Barre Express, southbound, hit their automobile at a grade crossing at Muhlenberg, north of this city. Erma Sproesser, driving the car, and a son, Paul, escaped injury.

COUNTRY CLUBS UNDER FUEL BAN ON DEC. 1

Washington, July 15.—Another intimation of the danger of a severe coal shortage next winter was given last night when the Fuel Administration announced that private country clubs would be placed under its ban beginning December 1, as still another measure to conserve coal. If the clubs remain open after that time they must burn other forms of fuel, such as wood and peat, and must not use the nation's transportation facilities to move it.

PLAN FOR LABOR PARADE

Plans for their participation in a monster Labor Day parade which is to be held here, were outlined at a meeting of labor organizations in their headquarters, 211 Locust street, recently. It is planned that the parade shall be a tribute to the second line of defense, the army of organized workmen. Another meeting will be held to-night.

We are in position to supply you with Sugar Certificates for Canning and Preserving. We print them in large quantities and can supply any quantity on short notice. THE TELEGRAPH PRINTING COMPANY, Printers, Binding, Engraving, Photo-Engraving, Die Stamping, Plate Printing, Harrisburg, Pa.

TEN UMPIRES NAMED TO AID LABOR BOARD

President Selects Men to Act When Agreement Is Not Reached

Washington, July 15.—Selection by President Wilson of ten prominent citizens to serve as umpires in labor controversies on which members of the national war labor board are unable to reach an agreement was announced last night by the board.

The President acted on the basis of the report of the war labor conference board, upon which the national war labor board was organized. The President's letter naming the ten umpires follows: "Hon. William H. Taft, Hon. Frank P. Walsh, chairman national war labor board, Department of Labor Building, Washington, D. C. Gentlemen—In accordance with Paragraph D of the report of the war labor conference board, I hereby nominate ten distinguished persons suitable to act as umpire when drawn by lot as provided in said paragraph: "Henry Ford, Detroit. "Matthew Hale, Boston. "James Harry Covington, Washington. "Charles Caldwell McChord, Washington. "V. Everit Macy, New York city. "Julian William Mack, Chicago. "Henry Suzzallo, Seattle. "John Lind, Minneapolis. "William R. Wilcox, New York city. "Walter Clark, Raleigh, N. C. "Cordially yours, "WOODROW WILSON."

Board Defines Procedure

The board's statement follows: "Up to this time there has been no final decision of the national war labor board upon which the entire membership has not been in complete agreement; and the necessity for selection of one of the President's nominees to act as umpire is not immediately in view. However, as the President's letter indicates, the report of the war labor conference board, anticipating the possibility of a failure of the twelve members of the war labor board to come to agreement in one or more of the controversies which may come before it for settlement, provided, "If the sincere and determined effort of the national board shall fail to bring about a voluntary settlement and the members of the board shall be unable unanimously to agree upon a decision, then and in that case and only as a last resort an umpire appointed in the manner provided in the next paragraph shall hear and finally decide the controversy under simple rules of procedure prescribed by the national board. "The members of the national board shall choose the umpire by unanimous vote. Failing such choice, the name of the umpire shall be drawn by lot from a list of ten suitable and disinterested persons by the President of the United States."

Report Small Shortages in Anthracite Traffic

Shipments of anthracite for June, as reported to the anthracite bureau of information in Philadelphia, amounted to 6,867,669 long tons, as compared with 6,887,256 tons in May and with 7,049,037 tons in June, 1917. These figures show that so far as the total tonnage is concerned, the output is being well maintained. The shipments for June were only 19,587 tons less than in May of this year and 181,368 tons less than in June, 1917. In both of these months the calendar provide twenty-six working days, as agents twenty-five days in June. This average daily shipments were 271,117 tons in June, 1917; 264,894 tons in May, and 274,907 tons in June of this year.

American Army Pledge of Allies Triumph, Says Foch

New York, July 15.—The following cablegram from General Foch, commander-in-chief of the Allied armies, was read by Charles E. Hughes last night at the mass meeting in Madison Square Garden, when New York celebrated France's greatest holiday, commemorating the fall of Bastille: "We are celebrating to-day the anniversary of our independence and we are fighting for that of the whole world. "After four years of struggle, the plans of the enemy for domination are stopped. He sees the number of his adversaries increased each day and young American Army bring into the battle a valor and a faith without equal. "It is not this a sure pledge of the definite triumph of the just cause?"

British Destroy 3,856 Enemy Planes in Year

London, July 15.—In one year on the British western front the royal air force has accounted for 3,333 enemy airplanes. In the same period the naval aviators shot down 523, a total of 3,856.

How quickly Resinol healed that ugly skin eruption! Resinol Ointment heals skin irritations that if neglected become serious. One small pipette or slight blotch mares the most beautiful face. A patch of itching eczema or other skin ailment causes great discomfort and much misery. Resinol heals skin sicknesses because it contains harmless antiseptics for such conditions. Resinol Ointment was originated by a doctor for the treatment of eczema and other skin affections, so you need not hesitate to use it. All dealers.

May They Come Back

Fifty-seven years ago when James Johnson enlisted for the Civil War, he hung his scythe in the crotch of a Balm-of-Gilead tree on his farm in New York and told his wife not to touch it until he returned. Johnson never came back and the tree has grown around the blade of the scythe until only a small end protrudes. Now two new scythes are hanging in another crotch of the same tree, and will not be touched until their owners return from the war, but the villagers hope for a happier ending of the tradition.

1000 Pairs Of Women's Stockings
