If we were to draw up a list of the shortcomings of our government the censor would leave nothing but blank spaces.

One Price

We do not sell clothes at one price to-day, and tomorrow offer the same qualities, during a sale, at a lower price.

"We keep our overhead" expenses at a minimum and fix prices to allow a legitimate profit.

We could only reduce prices by inflating them to begin with.

The man who buys a suit here to-day, for example, will not meet some one to-morrow wearing a garment representing a similar value, bought for \$5.00 less.

If you were this buyer of to-day, would you feel that you had been fairly dealt with? Think it over.

Claims Dandruff Will Cause Baldness

If you have dandruff you must get rid of it quick—it's positively dangerous and will surely ruin your hair if you don't.

Dandruff heads mean faded, brittle, gray, scraggly hair that finally dies and falls out—new hair will not grow—then you are bald and nothing can help you.

The only sure way to abolish dandruff for good is to destroy the germ that causes it. To do this quickly, surely and safely, and at little expense, there is nothing so effective as Parisian sage, which you can get from Kennedy's Drug Store and good drugists everywhere. It is guaranteed to banish dandruff, stop itching scalp and falling hair, and promote a new growth, or the cost, small as it is, will be refunded.

Parisian sage is a scientific preparation that supplies all hair needs—an antiseptic liquid neither sticky or greasy, easy to apply, and delicately perfumed.

If you want beautiful, soft, thick, lustrous hair, and lots of it by all means use Parisian sage. Don't delay—begin to-night—little attention now insures abundant hair for years to come.—Adv.
