

BURIAN, VOICING ENEMY SENTIMENT CRIES FOR PEACE

Austro-Hungarian Government Calls Conflict "Senseless and Purposeless"

Amsterdam, July 17.—The Austro-Hungarian government regards the war as "senseless and purposeless bloodshed" and believes it might end at the moment when the allies again manifest feelings of humanity. Baron Burian, the Austro-Hungarian Foreign Minister, made this statement in the concluding portion of his address to the Austrian and Hungarian premiers Tuesday, according to dispatches from Vienna.

After declaring the allies would not succeed in their purpose of sowing discord among the nationalities in the dual monarchy, the Foreign Minister said:

Calls War Defensive
"It is unnecessary further to characterize this method of fighting. Our races indignantly disavow it. The resolute battle of defense now must be carried on to a good end until it brings us the security necessary for our future peaceful existence."

The Foreign Minister said his confidence was based on the war alliances, particularly the old alliances with Germany. He said Austria and Germany would seek means of extending the alliance so that it would be adequate for all the requirements of new times.

GIRLAND BROTHER MEET IN FRANCE

Miss Beulah Armor, of Gettysburg, Sees Sergt. Howard Armor For 15 Minutes

Gettysburg, Pa., July 17.—A happy meeting in France was that of two young people of Gettysburg, Miss Beulah Armor and Sergeant Howard Armor, brother and sister. Miss Armor has been in France since last fall, sailing with a unit of trained nurses from the Methodist Hospital at Philadelphia, from which institution she had just graduated. The brother went over early this summer, being a member of the Quartermaster's Corps. He was on one of the truck trains that passed through here on its way to port to sail and was allowed two or three days at his home. Another soldier in France, who happened to know both of the young people, learned where they were located, being about seventy-five miles apart, and arranged the meeting.

Concerning the meeting, Miss Armor writes to her parents: "I had the most pleasant surprise this evening. I consider myself more than fortunate. It was really more by accident than anything else. We had only fifteen minutes together, but they were about the happiest fifteen minutes I have had since I have been here."

FRENCH LOSSES VERY SMALL IN RESISTING HUN EFFORTS

tration of the French line of about six miles at Festigny, the most southern point reached by the invaders. A semi-official report from Paris reads:

"While the enemy losses were frightful, ours were quite light, especially east of Rheims. If we were allowed to state the figure it would be most reassuring. Whereas during the previous offensive, we had to send for reinforcements from other parts of the front, this time those on the spot sufficed to sustain the shock. This is partially due to the constant arrival of Americans which reduces the unequal proportion of the forces."

Don't Let Soap Spoil Your Hair

When you wash your hair, be careful what you use. Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is just plain multiflora coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can find this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Pershing Congratulates American Troops; Says Sacrifice Makes Example

London, July 18.—General Pershing has issued an order to the American troops in France, congratulating them on the successes which have marked their brilliant debut in the fighting arena.

"These divisions, subjected for the first time to all the most painful ordeals of modern warfare, have invariably behaved with the greatest courage," says the order. "Their cooperation with their brothers in arms, under the unified command was prompt and effective, and their allied comrades speak in praise of them.

"The conduct of these brave soldiers and of their comrades who have made the supreme sacrifice by falling on the field of honor has established a model which each unit of the American Expeditionary Corps will strive to follow."

HUN BOMB HITS SOLDIER ON FIELD AND HOSPITAL

Paris, July 17.—Two German airplanes took part in the deliberate bombing of the American Red Cross hospital at Jony late Monday night. A private from Philadelphia was struck by a piece of bomb at almost the identical spot on his back from which a piece of shrapnel had been removed a few hours previously.

GERMAN OFFENSIVE BROKEN DOWN INTO LOCAL ATTACKS

[Continued From Page 1.]

of the fighting is that the French, according to unofficial reports, have lost no cannon.

Raids have been carried out by the British in the Amiens region and to the north of Halluch. The German artillery is said to be active, notably in the region around the Arras-Lens salient.

Throwing new forces into the fray to maintain the strongest pressure against the allies, the Germans have not yet captured important positions and on most of the front are being held in check.

The heaviest fighting continues along the Marne and on the plateau east of Rheims. Enemy progress on the Marne is slow and Franco-American forces have recaptured two towns and heights commanding the bend in the river at Dormans, as well as additional prisoners.

Apparently the allied resistance Monday was greater than the German command had anticipated. The enemy has changed his tactics to strong local attacks at vital points instead of continuing a general assault along the front from Chateau Thierry to near the Argonne.

Fail to Enlarge Gains
On the region of Dormans and eastward along the Marne the Germans have penetrated about five miles and now hold both banks of the river for a stretch of about fourteen miles. Strong and repeated attempts to enlarge their gains north and south of the river have been repulsed. Unless they can enlarge their hold on the river the troops along the Marne are in a dangerous situation should an allied counter-attack begin.

Evidently the German purpose in striving to press forward astride the river to Epernay is to outflank the strong natural obstacle of the mountain of Rheims, which lies between the Marne and Rheims. Attacks against this height from the west have stopped for the moment and no effort has been made to attack Rheims frontally.

French Hold Stubbornly
Formidable attempts by the Germans to break the main French line at Prunay, about eight miles east of Rheims, have been broken up by the stubborn resistance of the French, who hold a strong line along the Vesle river.

In the region of Tahure and Croisnes, in the hilly country west of the Argonne forest, the Germans have been unable to advance farther than the first advanced line. Repeated attacks there have been repulsed with heavy losses by the French.

Monday the Germans captured 13,000 prisoners, according to Berlin. The first lengthy official statement on the new offensive did not men-

British Take Prisoners in Raids in Two Areas; Enemy Guns Are Active

By Associated Press

London, July 17.—British in the Amiens area east of Villers-Bretonneux and in the neighborhood of Hulluch, on the front to the north, resulted in the taking of prisoners, the war office announced to-day.

In the Somme and Ancre sectors, to the northeast of Amiens, and in the Arras region, north of the Scarpe, the enemy artillery was active last night. Similar activity was displayed by the German guns in Flanders, in the district northeast of Bethune and to the north of Bailloul.

Aerial Fighting Is Intense
French airmen have accounted for forty-one machines and nine balloons besides destroying five bridges across the Marne. Berlin claims the destruction of thirty-one airplanes and four balloons.

West of Chateau Thierry American troops around Vaux have repulsed a strong German local attack. After the first setback the enemy made no other attempts to penetrate the American positions. Except for an increase in German artillery fire on some sectors of the British front, there has been no other activity.

On the Italian mountain front near Monte Grappa, Italian troops have gained ground and taken nearly one hundred prisoners. Vienna says all attacks were repulsed. The French advance up the Devoll valley in Eastern Albania continues and three more villages have been taken from the Austrians.

Murmans Welcome Allied Troops
Premier Lenine as head of the Russian government is reported about ready to break off diplomatic relations with Great Britain and other countries which have armed forces on the Murman coast. American troops have been reported there in aiding the British in protecting the ports along the coast and the Murman railway. The local population has welcomed the allied troops.

PACKARD TWIN SIX

Announcement of Policy

THE Third Series Twin Six will be continued in response to public demand. It is essentially unchanged. Our patrons shaped this decision by their approval of the latest Packard.

Packard cars of today cut down the number of good cars that can be built. And yet in war-time a good car is almost indispensable to the efficient man of affairs.

The smoothness and plus-power of the Twin Six engine are even more widely known. We believe the road ability of this engine is matched by what we now offer in lines, finish and appointments.

It is true that war has cut down the number of good cars that can be built. And yet in war-time a good car is almost indispensable to the efficient man of affairs.
