Yanks Gain Blood Enemy When Hans Reorganize For Counterattack! Important Points Are Taken in Continued Advance

With the American Forces on the Aisne-Marne Front, July 19 (12 p. m.)—American and French forces are continuing to advance their spearhead midway between Chateau Thierry and Soissons. The Americans took several towns in the course of the night.

Early today the Americans made further progress. In the night German reinforcements were coming from the region in the north, but the expected counterattack has not appeared up to an early hour this afternoon.

American Fire Hot

American troops continue to hold the same southern line of Soissons where on Thursday the Germans made their first organized counterattack. This same line has fallen down, however, as soon as the Americans were unable to keep it up.

This was one of the greatest struggles in connection with the Franco-American offensive. The battle raged southwest of Soissons where the guns were firing from the Germans falling back fast, under the rain of the guns, and the British troops.

One of the stories told today is that of the Varey six miles south of Soissons. A line of one mile of this side was taken in the morning from the hill of the place and the last of the people on the hill were reported.
