## 60 BILLIONS **INSURANCE ON** LIVES IN U.S.

Year Reach Aggregate of \$778,300,000

According to computations made by the Insurance Press of New York the American people, at the end of 1917, were protected by life insurance policies in excess of sixty billions of dollars. This tremendous to tal is divided into upwards of twenty-two billions under the government plan of insurance for soldiers and sailors, about ten billions carried in fraternal orders whose reports are available and about twenty-seven and one-half billions in level premium, or 'old line.' policies.

Claims paid in the United States and Canada during 1917 aggregated \$499,400,000, and in addition \$278,-900,000 was given out to annuitants and on account of premium savings and surrender values, making the total for the United States and Canada \$778,300,000.

Growth in taxation is said to be stimulating the demand for insurance, whose utility in meeting inheritance levies is becoming increasingly evident. Four billion dollars of new insurance was bought from the regular life companies in 1917, and women are said to be developing into heavy purchasers.

Major John Purroy Mitchel, according to the returns, carried \$149,-000 of life insurance.

The largest payment on a single life in 1917 was in the case of Frederick R. Hazard, of Syracues, N. Y. the amount being \$\$10,000.

Payments of \$50,000 and more numbered \$47. New York leading with fifty-one and Pennsylvania were the following. Horse of the following. Horse of the following. Horse of the following. Horse of the firm pervented \$149,-000 with forty-seven.

Among payments in Pennsylvania comming second with forty-seven.

German Submarine Bombs Gloucester Fishing Vessel

Kennebunkport, Me., July 24.—
Four men landed in a dory at Cape Porpoise yesterday reporting that their fishing schooner, the Robert and Richard, of Gloucester, had been sunk by a Germán submarine on Cashe bank, sixty miles southeast of Cape Purpoise at 10.30 o'clock in the morning. Other dories were coming in behind them, they said. The schooner had just stocked up up with halibut for the Boston market.

The submarine came out of the water a few hundred yards distant,

market.

The submarine came out of the water a few hundred yards distant, the men said, and sent a shell over the schooner's bow. The crew promptly took to their boats. Then the raider sent a boat's crew aboard the schooner, apparently took only her papers, placed a bomb and left her. A few minutes later an explosion sent the vessel to the bottom.

tom.

No other ships were in sight at the time. The submarine was last seen going south on the surface. Motorboats went out to search for the other dories. The first dory men to arrive had rowed for sixty miles and were thoroughly exhausted.

The schooner had just stocked up 30,000 pounds of mixed fish. All her dories had been recalled and she was headed for Boston when the submarine intercepted her. **COURSE IN RISE**
