

PLUVIUS WORKS WITH FUEL HEAD TO DARKEN CITY

Beats Administrator in Inaugurating Lightless Nights; Hour of Total Gloom

The lightless night prevailed in Harrisburg to an extent never contemplated by the fuel administration.

The storm charged the air with electricity to such an extent that the high power conducting wires were overcharged, resulting in the burning out of wires.

Complaints Are Few There were few complaints because of lack of service for electric lighting last night.

Don't Be Bald

How to Make Hair Grow Strong, Thick and Lustrous Few of us get bald in a day and we all have ample warning when our hair is thinning out.

Parisian sage is a most efficient hair invigorator, but to immediately stop any further loss of hair and quickly start a new growth it must be rubbed into the scalp so the starved hair roots can really absorb it and get the vital stimulation so badly needed.

Parisian sage is not expensive. It's a scientific preparation that supplies all hair needs in a clean, non-sticky, antiseptic liquid that is sold by Kennedy's Drug Store and at drug and toilet counters everywhere with guarantee to give you perfect satisfaction or money refunded.

Good looking hair is half the battle in any man's or woman's personal appearance. Neglect means dull, thin, lifeless hair and finally baldness, while a little attention now insures thick and lustrous hair for years to come.

thought the collapse of the lightning system was due to conservation efforts of the fuel administration.

In the business section those who were abroad said this morning it was impossible to discern where sidewalks ended and streets began.

Kerosene and candles came into their own last night, while many dwellers went to bed in the early hours of the evening.

When the light service was finally resumed, the city began to brighten.

BEEKEEPERS ARE NEEDED IN PENNA.

Shortage of Sugar Gives State Department of Agriculture Work to Do

An active campaign to interest all owners of orchards and farmers in the bee industry and the production of honey from the flowers is being waged by the Bureau of Zoology of the Pennsylvania Department of Agriculture.

Mr. Greene says: "The shortage of sugar and its rigid supervision is felt by all and the most wholesome substitute is gathered by the honey bees. Hundreds of tons of honey secreted in the flowers is going to waste in this state and farmers never had an opportunity to expand their production and consumption as that of the present time.

"Two hundred and fifty million pounds of honey in the United States. This allows two and a half pounds per capita, three per cent. of the annual per capita consumption of sugar. The total amount of sugar in the nectar of the flowers in Pennsylvania greatly exceeds the amount of all the sugar sweets consumed by the people in the state.

Meetings for the latter part of July and August will be arranged in a number of counties. The schedule is as follows: Mercer county, Transfer, July 27; Indiana county, Homer City, July 29; Cambria county, Johnstown, July 31; Tioga county, Blossburg, August 3.

Militia Men to Resign.—Adjutant General Beary said today that following the encampment of the Pennsylvania Reserve Militia last week he had forty letters from officers and men who say they will resign in order to join the United States Army to fight in France.

500 Italians Escape Austrians; Flee Afoot to Japan; Seek Homeland

Denison, O., July 25.—Escaping from the Austrians and making their way through Siberia to Japan, five hundred Italian soldiers passed through here last night enroute to an Atlantic port where they will sail for Italy, by the way of the Mediterranean.

The men were captured by the Austrians while fighting in the Piave front and were impressed into service in the Austrian army operating in Russia. Several months ago they rebelled and marched afoot to Siberia and thence to Japan where they were put upon a ship and transported to an American Pacific port.

The Italians narrating their experience said many of their number died from exposure while traveling through Siberia. They said altogether one thousand Italians escaped from the Austrians, some of their number having passed through here several days ago enroute for an Atlantic port. They declared seven thousand Italians have been forced to fight in the Austrian armies in Russia.

Yankees Shatter Hopes of Kaiser at Thierry

With the Americans at the Marne, July 25.—From the aged civilians who were left at Chateau Thierry details were learned of the German occupation of the city and of a visit by the Kaiser. He arrived on the Marne on June 3. He expected to stand on Hill 204 and watch his troops debouch from Belleau wood, reach the Paris highway in the rear of the prepared French positions and capture La Forte, then Meaux and finally Paris.

Helping Others, Mother Finds Her Wounded Son

Paris, July 25.—A New York woman attached to the American Red Cross happened to be in Paris and volunteered to help in taking care of the wounded coming in from the battlefield. She was working busily when startled by a loud cry of "mother."

Turning, she saw her son, a young lieutenant in the American Army. He had been wounded in the leg by shrapnel in the fighting on Monday. The first news she had had that her son was engaged in the battle was when she heard his cry.

Emergency Fleet Adds to Pacific Coast Plant

San Francisco, July 25.—The Emergency Fleet Corporation in conjunction with the Bethlehem Steel Corporation, has perfected plans for the acquisition of 153 acres of land adjoining its Alameda plant as the site for an extension to its shipbuilding facilities costing approximately \$25,000,000, it was announced today.

Picayune, Miss., July 25.—Lyle W. Barrett, alleged deserter from a Pennsylvania field artillery regiment at Camp Logan, Texas, was captured here last night after being shot by county officers and probably fatally wounded. He was taken to the base hospital at Camp Shelby.

Strange Ship Off Nantucket Lightship May Be Sub Herald

Boston, July 25.—The unknown armed ship sighted off Nantucket Sunday morning by Captain William Price, of the schooner Elizabeth King, of Gloucester, was looked upon with suspicion to-day by naval officials, some of whom believed it might be a mother ship for German submarines operating off the New England coast. The mysterious ship was seen but two hours before a U-

boat attacked the tug Perth Amboy and her tow off Orleans. The strange vessel, with guns fore and aft, was reported to be in the line of trans-Atlantic travel about twenty miles south-southeast of Nantucket south shoal lightship. The boat displayed neither flag nor name and carried heavy wireless equipment.

Captain Price, upon reaching Gloucester last night, reported that the ship came within one hundred feet of the Elizabeth King and trained its guns upon the schooner but did not hall her. When Captain Price spoke an officer of the steamer replied in a foreign tongue.
