**Your Best Opportunity Now to Serve Your Country and Earn Big Money**

This applies to Business as well as Government Work. Both need young men and women badly, and are willing to pay splendid salaries to those who are capable of doing efficient work.

**IS IT WORTH WHILE?**

A number of our graduates, boys and girls, some of them grammar school graduates only, who passed the Civil Service examination, accepted positions at \$1,100.00 a year. In six months these have advanced to \$1,400.00 and \$1,600.00.

Two of our young men graduates have just reported promotions which carry with them salaries of \$2,300.00 and \$3,300.00 a year. These young people earn every two weeks more than their tuition cost them.

**DON'T PUT IT OFF ANY LONGER,** but decide to take up the work at once. Write, phone, or call to make arrangements for your course.

**GOVERNOR TO BE BUCKNELL HEAD?**

Rumor Has It That He Will Succeed Dr. Harris, Who Has Resigned

A dispatch from Millifinburg to-day renews the report that Governor Brumbaugh is being seriously considered for the presidency of the University of Pennsylvania at Lewisburg. Some time ago it was whispered about that the Governor might be made head of this institution and later there were reports that Susquehanna University might give Dr. Brumbaugh a call. The dispatch which set tongues wagging to-day is as follows, under a Millifinburg date:

"It is rumored that Governor Martin G. Brumbaugh may head Bucknell University at Lewisburg next year, as President John M. Harris has resigned. Former Judge McClure, of Lewisburg, a trustee of the university and a friend of the Governor will have much to do with the choice of a president.

Judge McClure recently honored by appointment as Public Service Commissioner by Governor Brumbaugh. The Governor was absent from the city on his vacation to-day and nobody at the Capitol would venture a comment upon the report.

Teachers—The State Department of Public Instruction hears that school boards over the state are having difficulty in obtaining the best qualified for the work.

**SCHWAB SEES WAY TO VICTORY OVER GERMANS**

Points to Shipbuilding Record That Should Warn Berlin

Philadelphia, July 26.—Ten million tons of shipping completed every year will be the record of American shipyards when all of them are completed and working full blast. This was the declaration of Charles M. Schwab, director general of shipbuilding, on his arrival here yesterday. Mr. Schwab went on to say that the Delaware River yards would produce 300,000 tons a month when everything gets going properly.

More steel is the outstanding need of the shipbuilding industry at present, especially in the east, and whatever measures may be found necessary to obtain delivery of the necessary amounts will be taken, according to Mr. Schwab.

It may become advisable to stop the exporting of steel to foreign countries in order to assure an adequate supply to the shipyards. If so, exports will be stopped wherever they may be destined and for whatever purpose they may be intended, even those already contracted for by China and Japan.

At least 4,000,000 tons of steel each year will be required to keep all the shipyards going at full speed and steps are to be taken at once to provide that amount, Mr. Schwab estimated.

The Hog Island yard will cost the government, completed, \$55,000,000, but the money will be well invested. Eventually there will be about 400 practicable, working shipways in the country, and they will turn out from 1,200 to 1,600 ships each year.

"How does this strike you?" was the cheery salutation of the director general of the Emergency Fleet Corporation as he sat in his shirt sleeves behind the correspondence which had piled up for him. "The United States alone delivered ships enough in June to make up for seventy-five per cent. of the total shipbuilding sunk by the U-boats during that month. Get this right now; not launched that many ships, but put that many ships into commission. That's a record that ought to make Berlin sit up and take notice."

**MUST RAISE WAR AGE LIMIT OR CALL ON CLASS 2**

President Has Approved Proposed Bill Making Maximum 36 Years

Washington, July 26.—Inroads upon Class 1 of the selective draft registrants in the past two weeks by the navy, marines and shipbuilding and other industries were so great that army officers to-day predicted that men of Class 2 will be called to the colors in September unless ages are raised by Congress.

Following conferences among army chiefs at Provost Marshal General Crowder's office, it was disclosed that President Wilson and Secretary Baker have approved a bill to be placed before Congress soon calling for the advance of draft ages. The new limits will be from 20 years to at least 36 years. If the draft is to be used to bolster up the labor supply of munition plants, the increase will be to 40 years.

The months of June and July have seen 300,000 men taken from the 1,000,000 who were in Class 1 on June 1.

Orders have been sent to the draft boards to prepare for a call of at least 400,000 in August. About that

number will be available from the men who registered last June.

Local draft boards also have been warned not to give waivers to men who wish to enter the navy, marines or necessary industrial work unless the boards are convinced that they can supply the quotas which will be sought in August.
