HERE IS ONE THING THAT IS ABSOLUTELY IMPOSSIBLE

Rheumatism Has Never Been Cured by Liniments or Lotions, and Never Will Be.

You never knew of Rheumatism—that most painful source of suffering—being cured by liniments, lotions or other external applications. And you will never see anything but temporary relief afforded by such makeshifts. But why be satisfied with temporary relief from the pangs of pain which are sure to return with increased severity when there is permanent relief within your reach? Science has proven that Rheumatism is a disordered condition of the blood. How then, can satisfactory results be expected from any treat-

ment that does not reach the blood, the seat of the trouble, and rid the system of the cause of the disease? S. S. S. is one blood remedy that gives relief to even the most aggravated and stubborn cases of Rheumatism. It cleanses and purifies the blood by routing out all the impurities that cause the disease. Others who have taken S. S. S. will convince you that it will promptly reach your case. You can obtain this valuable remedy at any drug store.

A valuable book on Rheumatism and its treatment, together with expert medical advice about your own individual case, will be sent absolutely free. Write to-day to Medical Department, Swift Specific Co., 431 Swift Laboratory, Atlanta, Ga.

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition 7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food. Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man. So says a student of the nervous system who advises all men, women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drug store. This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despair of ever amounting to anything in life. People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks. No matter what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone. Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned. Note to Physicians: There is no secret about Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycerophosphate; Iron; Peptonase; Manganese Peptonase; Ext. Nux Vomica; Powdered Gentian; Phenolphthalein; Oleoresin Capsicum; Kola.

GORGAS ISSUES CALL IN DRIVE FOR NURSE ARMY

Surgeon General Says 12,000 More Women Are Needed Before January 1 Washington, July 29.—"I cannot conceive of a more valuable service, a more womanly service," This was what Surgeon General Gorgas said yesterday in his message asking young women of the country to come forward at once to enlist as army nurses. The campaign to obtain 25,000 recruits begins all over the United States to-day. The surgeon general's message follows: "I want every young woman in the country, every woman between nineteen and thirty-five to read carefully what I have to say and to give it earnest attention. It is a message which every girl ought to welcome, because it tells of an opportunity to help the nation. "The army and the country face a shortage of nurses. "The army alone will require something like 25,000 nurses by the first of next January. We have secured about 13,000 of this number; we need 12,000 more. We have got to have them or the army will run short—and this would be an outcome incredible and intolerable to the American people. "Only graduate nurses, who have been through the full course of training, are available for this high service. These nurses have to be taken

Cavalry Active In the region north of the Ris forest there were some very furious combats which lasted several hours and resulted in the allies gaining possession of Champvoisy. Then Rochers was reached by advanced guards. Further to the east cavalry patrols came into action in the Meuniers wood and at Villers-Agron-Aigulzy. All along this part of the line the enemy threw great quantities of gas shells, the fumes of which remained for a long time among the woods. Near Romilly-sur-Seine the allies got over the Dormans-Rhalmes main road.
