

### STATE PLANS TO SUE BOROUGHES

Maintenance Matters Will Get Attention From Legal and Highway Offices

Boroughs and townships through the state which have not paid the State Treasury the amounts assessed against them for the maintenance of state highways in their limited areas for construction of bridges and other work pertaining to the road system will be sued in the Dauphin county courts. A list of all such municipal divisions which are delinquent has been made up and the actions will soon be entered. In a number of instances townships refused to pay until certain questions were cleared up by tests in the Supreme Court, but in spite of decisions they have not sent checks.

Nothing has been decided regarding boroughs which have failed to accept invitations of the State Highway Department to unite with the Commonwealth in improvement of sections of State Highways which are borough streets and against which numerous complaints have been made. There are about a score which have failed to act, among them Camp Hill and Paxtang. The latter town's authorities hold that they cannot afford to improve the horrible stretch of Derry street between Twenty-ninth street and Tarrang avenue on the line of the William Penn Highway to Reading, Easton and New York, one of the most traveled roads in this section. Commissioner O'Neil has been eager to get this section improved and it is a disappointment at the Capitol that Paxtang has not co-operated in view of the importance of the highway and the heavy travel over it by army trucks.

Collins Named—Herman L. Collins, former president of the Philadelphia Evening Telegraph and a brother of Emerson Collins, deputy attorney general, has been named as director of publicity of the State Council of National Defense. He is one of the best known newspapermen in the country.

To Come Up August 5—The Hog Island trolley extension cases will come before the Public Service Commission in executive session on Monday.

Now a Corporal—Arthur J. Lewis, formerly connected with the Compensation Bureau, who is now training at Pittsburgh has been made a corporal. He was inducted a short time ago.

Grasshoppers Again—State agents are making an inquiry into reports of an invasion of grasshoppers into York county. The hoppers are reported as devastating crops of cabbages and tomatoes. It is estimated that half the oat grain has been cut from the stalks and some of the farmers were compelled to cut their crop before it was ripe in order to save it. The grasshoppers have become a veritable plague and nothing like the present visitation has been seen in the past sixty years. It is feared the next drive of the hoppers will be made on the young tobacco crop.

Going to New York—Superintendent Shreiner will leave to-night for New York to attend the conference with Arnold W. Brunner in regard to the plans for Capitol park extension and the monumental bridge.

### German "Hunger Stone" Seen; Predicts Famine

Amsterdam, Aug. 1.—The famous "hunger stone" in the river Elbe, near Tetschen, which, according to popular belief in Germany, predicts a famine when seen, is now visible for the first time since the beginning of the war.

The stone lies in the bed of the river, and has never been visible save at exceptionally low tide. On the stone is chiseled in old German, "When ye see me ye will weep."

### CZECHO-SLOVAKS TO HAVE AID OF ALLIES IN EAST

Burden of Greater Military Force in Siberia Rests on Japan and China

Washington, Aug. 1.—Negotiations between the Entente Powers, Japan and the United States regarding aid to the Czecho-Slovaks in Siberia have advanced another step. Information sought by the Japanese government upon certain points of the American proposal looking to a definition of the aims and scope of joint action has been furnished by the State Department. This places the whole subject again before the Japanese foreign office, which must determine whether the American proposal is now in a sufficient concrete form to warrant action.

Japan and the Allies are perfecting arrangements for the organization of a joint military force. Because of their proximity to Siberia, Japan and China have been foremost in this work, with the full co-operation of the military commanders. Though for strategic reasons the exact extent and nature of these preparations cannot be disclosed, it is generally realized that upon these two countries will fall the burden of providing the greater part of any military force that may be employed.

### French Gun Has American Godmother

Olympia, Wash.—Mrs. Earnest Lister, wife of the Governor of Washington, has accepted an invitation to act as godmother in the christening of the first gun in a French battery that has served with distinction at Verdun, on the Somme and in Flanders, and is still serving in the present drive. In her honor, Mrs. Lister's name will be inscribed on the gun.
