GERMANS PLAN DRIVE AGAINST MURMAN COAST

Indications of Attack on Re- Draftee Held on Desertion gion Where Americans Have Armed Force

London, Aug. 2.—According to news through Swedish sources there men who have been found unqualiare indications that the Germans fied for service as soldiers abroad shortly will begin an offensive have been sent to Washington to shortly will begin an offensive against the southern part of the Murman railway. The Finnish population now is intensely hostile to the Germans. There is a great shortage of food and the people are entirely dependent on the Entente for sustenance. Both the government and the army, however, are completely under German control, and there is every reason to suppose they will co-operate with the Germans. The Germans have induced the Bolshevik government to agree to the cession of the whole Murman coast to Finland, notwithstanding the desire of the inhabitants to remain Russian.

The Murman coast is now the asylum of Ambassador Francis and party who have been obliged to leave Vologda and armed forces of the United States and the Entente are stationed there. The latter will probably be the objective of a German expedition.

More Provinces Taken Over The Russian government has agreed that Livonia and Esthonia shall be separated from Russia as a result of negotiations between Germany and the Soviet government. Consequently there probably will be a change in the organization of the territory occupied by the Germans. Courland also will be separated from the administration territory of the German commander-in-chief in the east and will be united with Livonia and Esthonia.

Awakaned by a noise in her room, Mrs. Harvey looked up and saw the youth standing over her with a revolver pointed at her breast. "Give me your money," he demanded. Mrs. Harvey retained her composure and ordered him to leave. The youth was so surprised by her attitude that he backed out of the room without taking jewelry valued at \$1,000 lying on a dresser.
