—Because of the slim attendance of brokers, stocks were only mildly stimulated at the opening of today's market by the further favorable war news. Specialties made the most noteworthy gains, Texas Compons advancing 2 points and Tobaccos large fractions one point. U. S. Steel hardened perceptibly, but gains in relative issues were nominal. Marine pfd and Inspiration Copper made slight reactions, and rails continued stagnant. Liberty Bonds were easier.

The investor who has kept his funds liquid or who has recently accumulated a sur-plus, can, because of the general change in the prices of securities, invest his money on a basis that will provide him with a larger income than has been possible from good securities for many years.
