Beautiful Service Flag Presented at U. B. Church

New Cumberland, Pa., Aug. 19.—A beautiful service flag containing fifty-eight stars was presented to the United Brethren Church, of which the Rev. A. R. Ayres is pastor, last evening. The church was decorated with flags, flowers and plants. The flag is of white silk with stars of blue and a red rosette in each corner. It was carried into the church and down the aisle by a class of young men taught by Miss Helen Lechman. The program included: Singing, "America," by the audience; "Flag March," children of primary school; presentation address by the Rev. J. B. Hutchinson, a retired United Brethren minister of New Cumberland; calling of roll of boys in service by Superintendent E. A. Witmyer; response by relatives and friends of the young men; address by the Rev. F. Berry Plummer, of Carlisle, on "Democracy." B. F. Eisenberger Post, No. 462, G. A. R., attended in a body. The entire affair was under the direction of Superintendent Wilmer, of the Sunday school. The flag cost \$40 and the contributions were solicited by the Rev. J. R. Hutchison. Several cards containing portrait of the Rev. Mr. Hutchison and a picture of the flag were presented to all at the service.

CARLISLE'S BIG WAR HOSPITAL

Captain Backmayer, U. S. A. Officer, Planning Changes at Indian School

Carlisle, Pa., Aug. 19.—While no formal statement has been issued, officials now at the Carlisle Indian School to superintend the passing of the government institution for the training of the red men for a big rehabilitation hospital conducted by the War Department have indicated that the plans call for the Carlisle hospital being one of the largest in this section.

It is expected to be opened early in September with about 700 patients and attendants. The numbers will be increased from time to time and it is stated that the real size will depend on the duration of the war and the number of casualties.

Before winter sets in considerable new construction work will be begun. New buildings will be erected to the east of the present ones and will cover the greater part of Farm No. 1. All of the shop buildings will be used for vocational training.

The first of the new buildings will be of tile, about two and one-half stories high, to accommodate 2,000 patients. The ultimate size of the institution depends on the duration of the war, according to Captain Backmayer, who is in charge. It is probable that Carlisle will be a permanent army post. Equipment is expected to arrive about September 1.

HEARING IN CUMBERLAND Railway Receivership

Carlisle, Pa., Aug. 19.—An interesting legal battle occurred in the preliminary hearing held before Judge Sadler on the request of the bondholders and stockholders committees to have a receiver appointed for the lines of the Cumberland Railway Company, Carlisle and Mount Holly Railway Company and Mount Holly Spring Light and Power Company.

After many witnesses had been heard the hearing was adjourned until September 6, when additional testimony will be offered.

Many prominent attorneys participated. The delegation acting for those in control of the company and opposing the receivership was headed by Deputy Attorney General William M. Hargest, of Harrisburg, W. S. Snyder and A. Carson Stamm, also of Harrisburg, were on the same side. E. M. Biddle, Jr., Caleb S. Beinton and E. Yale Carlisle, appeared for the petitioners.

CARLISLE INDIANS IN WAR Carlisle, Pa., Aug. 19.—Carlisle Indians are doing their full share in the fighting on the Western front, according to a letter just received from David Wiener, a Carlisle attorney, now serving as a first lieutenant in France. He writes of having met back of the lines a Carlisle Indian, Corporal Francis W. Lequier, of Minnesota, a student here from 1906-11. He was wounded at Chateau Thierry. Prior to that he had been over the top five times. He told the Carlisle man that there were sixteen other Indians in his company, nine of them from the Carlisle school.

PUBLIC SQUARE MADE BEAUTIFUL

Drinking Fountain, Electric Lights and Grass Plots Given Gettysburg

Gettysburg, Pa., Aug. 19.—The new adornment to the public square was formally presented to the town with approximate exercises Saturday evening. The improvement consists of a circular grass plot enclosed in a cement walk, with walks running from the four streets entering the square to the center of the plot, where public drinking fountains are placed. A liberal supply of electric lights are placed in the plot and the whole thing was engineered and financed by businessmen without a cent of cost to the town.

For the presentation exercises the place was profusely decorated with the American flag, a group of flags adorning the central part of the "park," while around the entire circle small flags arose from the ground. H. T. Weaver presided and made the presentation speech, and William Arch McClean, accepted on behalf of the town. The address of the evening was made by the Rev. Dr. J. A. Singmaster, taking as his subject "The Town Beautiful." The community chorus sang patriotic selections.

Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpetually tired; his blood needs more red corpuscles and his brain and nerves are craving for food.

Given the right kind of medicine, any tired-out, inactive, lagging fellow can quickly be made into a real live, energetic and even ambitious man.

So says a student of the nervous system who advises all men and women who feel worn out and who find it hard to get up ambition enough to take a regular job to get a package of Bio-feren at any drugstore. This is the new discovery that pharmacists are recommending because it is not expensive and speedily puts vigor and ambition into people who despaired of ever amounting to anything in life.

People whose nerves have been wrecked by too rapid living, too much tobacco or alcohol, have regained their old-time confidence and energy in less than two weeks.

No matter from what cause your nerves went back on you; no matter how run down, nervous or tired out you are, get an original package of Bio-feren at once. Take two tablets after each meal and one before bedtime—seven a day for seven days—then one after each meal till all are gone.

Then if you still lack ambition; if your nerves are not steady and you haven't the energy that red-blooded, keen-minded men possess, your purchase money will be gladly returned. Note to Physicians: There is no secret about the formula of Bio-feren, it is printed on every package. Here it is: Lactin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nux. Yonioid; Powdered Gentian; Phenolphthalein; Ofearesin Capsicum; Kola.

We Build Mausoleums

We will gladly furnish an estimate of the cost of one for your plot. We also submit a variety of designs or will make a special design to your liking.

Temporary Advance In Ice Prices

ON TUESDAY, August 20, ice prices will be advanced 10c per 100 pounds.

A canvass of the ice supply in cities and towns shows that Harrisburg has been better supplied with ice than other sections. In Pittsburgh the ice man inquires whether there is a baby in the house before making a delivery. At other places but a fraction of the consumption has been supplied.

With few exceptions consumers in Harrisburg have been able to get their regular quantities.

The supply in Harrisburg has been made equal to the demands by extraordinary efforts. The threatened ice famine has been averted by having ice shipped daily from the mountains 36 miles above Wilkes-Barre, Pa. Ice coming from such a long distance naturally increases the cost of doing business. The cost of this ice is as follows: Price at ice house, \$3.00 per 2000 pounds, freight to Harrisburg \$2.40 per 2000 pounds, waste from melting at 20 per cent amounts to \$1.08 per 2000 pounds, making the cost on the tracks in this city, \$6.48 per 2000 pounds.

The expenses for doing business are mounting daily. It now costs from \$4.00 per 2000 pounds to \$4.50 per 2000 pounds, to make house to house deliveries, and the end is not yet in sight. Labor is much the biggest item in the ice business; every person knows the advance along this line within the year. The labor situation is acute, it is a difficult matter to get sufficient help.

A most important item is barn expense as follows: Horse feed, shoeing, veterinary, light, barn superintendent, stable men, cost of horses, wagons, blacksmith material, etc., etc., all these are costing more month by month.

Taking into consideration the above increase in costs it is essential that we have a slightly larger revenue, otherwise we cannot efficiently keep consumers supplied at this period when ice is necessary to preserve the food which costs so much.

We ask our customers to consider carefully the position of the ice man with respect to other industries which are forced to continually make rapid increases in prices. It's costing us all more to do business today.

The above increase in price has the approval of the Food Administrator.
