**Lemon Juice For Freckles**  
Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

### WALK ERECT AT EIGHTY

Because a man or woman is old does not mean that they must walk along bent over and supported with a cane. A man can be as vigorous and healthy at eighty as at twenty if he aids the organs of the body in performing their functions.

All diseases whether of a malignant or weak character tend to tear away our vitality. You must counteract disease in its incipient stage if you would live a happy and useful long life.

### LET OFF WITH A FINE OF \$25

(Continued From First Page)  
aged 21, arrested Saturday night on the charge of furnishing liquor to soldiers, was let off with a \$25 fine at police court yesterday.

The fine was on a disorderly conduct charge. Alderman Householder presided during Mayor Keister's absence. When arrested, a half pint of whisky was taken out of Samba's pocket. He was arrested in a side room of the dance floor at Thirteenth and Market streets, and another empty half pint whisky flask was in the room. Two lieutenants from the Tank Corps at Gettysburg were locked in the room with him. Patrolman Rineer made the arrest. He declared that he tried to open the door and it locked. He peered through a hole where a Yale lock had been taken out, and saw Samba pass a half pint flask to one of the lieutenants, and also saw the lieutenant raise it to his lips and drink. When he opened the door the flask was standing nearby, empty, and a filled flask was in Samba's pocket. "It was a good fellow and don't arrest me, because I'll get me five years," the patrolman testified Samba begged him when he placed him under arrest.

Dancing Instructor Sullivan, who is on duty at the dance hall dance nights, declared that the lieutenants came to the dance hall perfectly sober and did Samba. When arrested Samba and the officers were both under the influence of liquor, it was testified. Samba had been seen to go out of the dance hall two or three times during the evening, while the soldiers had remained. Because he noticed the effect of the liquor on the soldiers and the brief absences of Samba, the dancing instructor called the officer's attention to the fact.

**Not There to Dance**  
Mr. Sullivan also testified to the fact he had found still another half pint bottle in the side room before Samba was arrested.

Patrolman Rineer testified, and Samba admitted that Samba had never been on the floor before and could not dance, and associated with the soldiers all evening. Samba said he accompanied a crowd of friends to the dance.

Counsel for the defense pleaded that the unsupported word of the patrolman was not sufficient to convict Samba in Federal Court and begged the attorney to realize the seriousness of it. Before imposing a fine he asked twice if the attorney realized the serious nature of Samba's offense, and reminded him that "the city is under suspicion for this very thing."

After thus apologetically leading the way to the sentence, Alderman Householder imposed a fine of \$25, and let the prisoner off. He reminded him that he could consider himself lucky he was not turned over to the government, but did not add on what grounds he failed to turn the prisoner over to the Federal authorities when he had so much evidence.

### Sergeant in Signal Corps Now Serving in War Zone

### Hun Line Menaced From Soissons to the Aisne

(Continued From Page One.)  
tured 500 Germans in the sector attacked. North of Roye the French have taken the Braquemont and Fendu woods and have occupied the greater part of Beauvraignes, according to advices. It also is reported they have made progress to the southeast of Beauvraignes.

**Advance Is Rapid**  
The attack of the French yesterday between the Matz and the Oise was on a front of twelve miles and although the Germans offered a stubborn resistance the French made an advance of about a mile.

At 6 o'clock last evening the battle line ran as follows: La Pravam farm, which is northwest of Fresnes, Arbec-Canny, the western outskirts of Lassigny, La Rue des Boucandes, the southern outskirts of Orval, Le Hamel, the southern outskirts of Dreslincourt and Pimprez.

Though the advance was a small one, it is regarded as important as it carried the French line further down the slopes of Lassigny massif.

The French also moved up the valley of the Oise, the line being between five and six miles from Noyon.

### CITY MILKMEN AGREE TO ZONE SYSTEM HERE

Plans of State Conservation Expert to Be Followed by Dealers

As a result of the meeting of the city's milk men in Maennerchor Hall last evening it is likely the city will be zoned within the near future for milk distribution.

J. William Bowman, appointed by the Dauphin County Food Administrator to work out the zoning problem with the dealers, presided at the meeting. L. A. Sterick, president of the Retail Milk Dealers Association, and another representative of the food administration, also were at the meeting.

**To Act Immediately**  
As a result of the meeting practical steps to make the zoning complete within a short time will be taken at once. The plans of Dr. Clyde L. King, state milk conservation expert, will be followed by the milk men.

Blanks were distributed on which the milk men will list their routes. Each milk man will list his route at once and submit the list to Mr. Bowman, who will send the tabulated lists to Dr. King when they have all been received by him, then Dr. King will work out the zones for the city. When Dr. King's zone plans are returned the milk men will begin to distribute milk on the same basis as newspapers are delivered, from door to door.

The saving in time and materials through the zoning plan was apparent to the local food administrator after Dr. King's visit to this city. Donald McCormick, food administrator, appointed Mr. Bowman at once to look into the plan and work with the milk men.

**Dealers' Vote Unanimous**  
The vote of the dealers to accept the zoning plan was unanimous. Mr. Bowman expressed himself gratified at their ready response to the request of the food administration. The choice of Perry county dealers that many of the dealers will have to give up some of their oldest customers for the common good.

The zoning plan was unanimously expressing confidence in the food administration and agreeing to co-operate in the plan for efficient distribution of the milk supply.

**NEWPORT**

curing competent instructors still exist.

Lieutenant Leshar, head of the Harrisburg recruiting district, said that while they were willing to take charge of instruction in Harrisburg secondary schools, a recent War Department ruling will prevent them from detaching members of the recruiting staff to do this work.

Last spring permission was granted officials of the station to institute a system of training at Technical High school, but because of the lateness of the tender and acceptance of the offer, no steps were taken to establish the system then. The system to have been established at the in-

### THREE U. S. SOLDIERS TREATED AT ASYLUM

Three United States soldiers of unbalanced mind are now located at the Pennsylvania State Lunatic Hospital undergoing treatment. All of them were sent to the local institution from camps and cantonments in this country. Their condition was brought about by the strain of the new conditions they found in camp.

Three other soldiers have been located at the hospital during the past month. One of them has been discharged as cured and two others have been sent to other institutions for care and treatment. The cases of two of the men there now are of rather advanced stage.

## Packers' Profits Are Regulated

The public should understand that the profits of the packers have been limited by the Food Administration since November 1, 1917. For this purpose, the business of Swift & Company is now divided into three classes:

**Class 1** includes such products as beef, pork, mutton, oleomargarine and others that are essentially animal products. Profits are limited to 9 per cent of the capital employed in these departments, (including surplus and borrowed money), or not to exceed two and a half cents on each dollar of sales.

**Class 2** includes the soap, glue, fertilizer, and other departments more or less associated with the meat business. Many of these departments are in competition with outside businesses whose profits are not limited. Profits in this class are restricted to 15 per cent of the capital employed.

**Class 3** includes outside investments, such as those in stock yards, and the operation of packing plants in foreign countries. Profits in this class are not limited.

Total profits for all departments together in 1918 will probably be between three and four per cent on an increased volume of sales.

The restrictions absolutely guarantee a reasonable relation between live stock prices and wholesale meat prices, because the packer's profit can not possibly average more than a fraction of a cent per pound of product.

Since the profits on meat (Class 1) are running only about 2 cents on each dollar of sales, we have to depend on the profits from soap, glue, fertilizer (Class 2, also limited) and other departments, (Class 3) to obtain reasonable earnings on capital.

Swift & Company is conducting its business so as to come within these limitations.
