These City Physicians Explain Why They Prescribe Nuxated Iron TO MAKE HEALTHIER WOMEN AND STRONGER STURDIER MEN

Now Being Used By Over Three Million People Annually

By enriching the blood and creating thousands of new red blood corpuscles, Nuxated Iron builds up the flabby flesh, toneless tissue and pallid cheeks, of weak, anemic men and women into a glow of health. It increases the strength of delicate, nervous, run-down folks in two weeks' time in many instances.

Dr. Ferdinand King, a New York Physician and Medical Author, says: "There can be no vigorous iron men or healthy rosy-cheeked women without deficiency. The skin of anemic men and women is pale; the flesh flabby. The muscles lack tone, the weak, nervous, irritable, despondent, and melancholy. When the iron goes from the blood it weakens the women the roses go from their cheeks. I have emphasized the fact that doctors seek to find more organic iron in the blood of their patients. I have found Nuxated Iron in the blood of their nervous, run-down, weak, irritable, despondent, and melancholy patients."

Dr. A. J. Neumann, late Surgeon of the City of Chicago, and former House Surgeon, says: "Nuxated Iron has proven through my own investigations with habit-forming preparation have ever used for building up the system, increasing the red blood corpuscles, thereby enriching and fortifying the blood against ravages of disease."

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York City, says: "I have never before given any medical preparation for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I would be remiss in my duty not to mention it. I have taken it myself and give the most satisfactory results."

Dr. T. Alphonus Wallace, a physician of many years' experience in this country and abroad, says: "I do not make a practice of recommending advertised medicinal products, but I have found Nuxated Iron so potent in nervous, run-down conditions that I believe all should know of it. If people feel weak or run-down, instead of dosing themselves with habit-forming stimulants and alcoholic beverages, there are probably thousands of men and women who are suffering from red blood corpuscles, increase their physical energy and get themselves into condition to ward off the millions of disease germs that are almost continually around us. It is surprising how many people suffer from iron deficiency and do not know it."

Dr. Schuyler C. Jacques, formerly Visiting Surgeon, St. Elizabeth's Hospital, New York, says: "I have found Nuxated Iron so potent in nervous, run-down conditions that I believe all should know of it. If people feel weak or run-down, instead of dosing themselves with habit-forming stimulants and alcoholic beverages, there are probably thousands of men and women who are suffering from red blood corpuscles, increase their physical energy and get themselves into condition to ward off the millions of disease germs that are almost continually around us. ALLIED TROOPS UNDER FIRE OF SOVIET'S GUNS

Withdraw in Archangel Sector; Bolsheviks Blow Up Railway Tunnel

Amsterdam, Aug. 20.—It is officially reported from Volokda, says the Czechoslovak forces, in pointing out the range of the Bolshevik artillery.

Soviet troops are reported to have blown up the Balka tunnel of the trans-Siberian railway.

Vladivostok, Aug. 20.—General Dieterichs, the commander of the Czechoslovak forces, in pointing out to-day the great odds his troops are facing, estimated the enemy strength at 40,000 men, with seventy guns and two hundred machine guns.

The Czechoslovak forces in Transbaikalia is unknown, he said, but it certainly must be desperate. To attain the object sought by the entire allied governments, a substantial force must be sent to the Manchurian front.

Doctor Yaronim Spacek, a member of the Czechoslovak National Council, has left for Washington to acquaint Professor T. G. Masaryk, the president of the council, with the situation of the Czechoslovak army.

Dr. Spacek told the correspondent that the Czechoslovak army abide by the decision of Professor Masaryk as to whether they shall proceed to the front, or their ambition, or their stay in Russia to fight the enemy, if given adequate support.

Opinion on all sides appears to be that the Czechoslovak army are underestimating the magnitude of the task of liberating the Czechoslovak and do not realize the necessity of actual warfare against superior numbers.

In the absence of artillery, the British have equipped two gondolas with guns from a cruiser and sent them to the Ussuri-front.

Gas in the Stomach IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that familiar feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, the so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis and finally to serious stomach ulcers. Food ferments and sour, creating the distended stomach and hampers the normal functions of the vital internal organs. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomachic acids. Instead, get from any druggist a few ounces of Bisulphated Magnesia and take a teaspoonful in a quart of water right after eating. This will drive the gas, wind and bloating out of the stomach, sweeten the stomach, neutralize the excess acid and prevent its formation and increase the amount of the bisulphated Magnesia (in powder or tablet form—never liquid or milk) harmless to the stomach. It is expensive to take and the best form of Magnesia for stomach purposes. It is used by thousands of men and women who enjoy their meals with no more fear of indigestion. G. A. Gorgas.

To Redeem Sugar Coupons For Canning Purposes

At a meeting of the Dauphin county grocers in the Y. M. C. A. last evening, it was decided that the most equitable means of distributing the sugar recently released from the wholesalers' stocks by the State Food Administration, would be through the redeeming of the customers' canning certificates of the local Food Administration. Hereafter grocers who sell such canning certificates, may have the canning certificates made out by the customer redeemed for a sugar charge certificate for an equal amount of sugar.
