MEN TO ENTRAIN AT MONDAY NOON

Draftees to Report Sunday For Final Instructions; Orders For Entrainment Received From State Draft Bureau

The names of the 156 men who will be sent to Camp Lee, Petersburg, Va., from Harrisburg and Dauphin county were announced by the six local boards this morning. The men will report Sunday afternoon at their boards, and will leave the Pennsylvania station in their special at 11:50 Monday morning. The Elizabethtown contingent will entrain at 7:29 Monday morning.

While the contingent Monday is not the largest that has yet been called, it is the first regular draft quota from the city and county in which 1918 registrants had to be called. Possibly fifty of the registrants are from the 1918 registration.

City board No. 1 has ten 1918 registrants in its quota. City board No. 2 has almost as many. City board No. 3 has six. County board No. 1 has enough 1917 registrants to fill the quota, the Paxtang board used about fifteen of the new registrants and the Elizabethtown board as many.

The registrants have been notified to report at the boards Sunday afternoon at 4 o'clock, with the exception of the Elizabethtown quota, which will report Sunday afternoon at 2:30.

The boards' quotas were as follows: City board No. 1, 26 men; No. 2, 24 men; No. 3, 15 men; county [Continued on Page 2.]

Old Rubber to Be Sought For Red Cross Benefit

"Any shoes, any tires, any hose or rubber, to-day?"

This paraphrased call of the old junkman will be the substance of a plea for rubber goods within a few days of Mercer B. Tate, chairman of the rubber station, to be instituted by the salvage committee of the Harrisburg Red Cross Chapter.

The appointment and acceptance of Mr. Tate as chairman of this committee has just been announced by Mrs. Mabel Cronise Jones, chairman of the salvage committee. He expects soon to erect the rubber station at some public place to be announced later. He will be assisted by a sub-committee, the names of which will soon be announced.

This station will receive any goods of rubber as salvage to swell the funds of the local chapter. Such campaigns in other cities have netted thousands of dollars.

TALK OF REVOLT OPEN IN RANKS OF BOCHE ARMY

By Associated Press. British Headquarters in France, Aug. 21.—An order issued by a German military commander and which is more illuminating than anything that has come out of Germany in many months, says: "It has come to my knowledge through a letter addressed to the Royal Prussian Ministry of War that men on leave have spoken publicly of a revolution which is to break out after the war. I wish to impress all superior officers who happen to overhear such objectionable talk or who hear it through others that they must deal with it at once and without hesitation. The home authorities and the director of military railways have been requested to take corresponding measures."

GERMAN UNREST GROWS UNTIL A REVOLT IS NEAR

Soldiers Home on Furlough Speak Openly of Deposing Hun Leaders

SMUGGLE ARMS TO HOMES

"Cowards" Forced to Fight in the Front Lines in France

British Headquarters in France, Aug. 21.—Germany's military leaders now have become distinctly worried over the prospects of a revolution in Germany.

General Ludendorff, in a captured secret order, has taken steps to employ the assistance of his commanding officers and various governmental agencies to help him stamp out the glowing spark which has been seen. The order, which is more illuminating than anything which has come out of Germany in many months, follows:

Take Weapons Home "It has come to my knowledge through a letter addressed to the Royal Prussian Ministry of War that men on leave have spoken publicly of a revolution which is to break out after the war."

"A soldier," said to have come from the industrial region of Rhineland Westphalia, declared in a train that in his home district men were going on leave, taking weapons with them for the avowed object and that it was easy to take home German or captured revolvers as well as hand grenades separated into two parts."

Another order just captured bearing the signature of the chief-of-staff of the 41st Infantry division, recites that court-martial have had various and an increasing number of cases where subordinates emphatically refused to accompany their units into the line and where the "superior officers" have neglected to enforce obedience by failing to compel the cowards to go into the front line.

"Obedience in this respect," the order said, "must be enforced even though it may be necessary to resort to force and the use of arms."

"Unworthy of German Army" Another captured order deals with the investigation into a case where a German airplane was shot down, probably in mistake by German troops, and the occupants secretly buried. "Such procedure," the order said, "is unworthy of the German army."

In still another document General Ludendorff says there are constant reports of German officers on leave voicing utterances that are calculated to awaken feelings of doubt as to German preparedness for battle. He mentions an officer in Berlin who said further offenses were impossible on the western front because of the shortage of horses and oats. General Ludendorff warns officers against spreading unfavorable rumors, declaring it is remarkable that they never bring encouraging news home from the front and adds that it is "better to color the situation with a rosy hue than with black paint."

Rice Riots Rend Japan; Tokio Mobs Violent in Attacks Upon Property

By Associated Press. Tokio, Saturday, Aug. 17.—Disturbances in the campaign against the high price of rice continue and there have been many clashes throughout Japan, some of which resulted seriously.

GROCER FINED \$100 FOR FALSE SUGAR CARDS

Red Cross to Benefit by Misstatements Made by M. Berk

A fine of \$100 to the Red Cross confiscation of over 500 pounds of sugar, withdrawal of unused certificates for 1,200 pounds and discontinuance of all sugar sales for an indefinite period constituted the penalties imposed on M. Berk, grocer, in business at 621 Wisconsin street, this morning by the Dauphin County Food Administrator.

Berk, who stated that he is a moving picture operator in addition to owning a grocery store, signed a statement July 1 stating that he used \$761 pounds of sugar during April, May and June last. He claimed to have 450 pounds of sugar on hand July 1. Investigation by Federal agents disclosed the fact that Berk actually used less than 3,600 pounds during the three months before July.

The sugar now held by Berk will be redistributed by the food administrator. Berk, through his misstatement, was able to secure sugar double his requirements, and profited at the expense of other dealers in that district, who had observed the rulings and turned in exact statements regarding their purchases and sales of sugar.

Investigation of other statements are being made.

The offer was made by Major Henry M. Stine, commandant, who will have the cooperation not only of his company officers, but of those of Company 1 of the Reserve Militia and former National Guardsmen in making details. It follows in with the work the reserves have been doing for weeks in training men of draft age in the city and county.

GOVERNMENT ENCOURAGES BETTERMENT OF HARRISBURG

Inquiry From Harrisburg and Those From Other Cities Answered in a Statement Given Out Today by Secretary McAdoe

RESTRICTIONS DO NOT BAR CONSTRUCTION

Only Buildings That Are Unnecessary Come Under the Government Plan; Building Operations Need Little Encouragement to Resume

Washington, Aug. 21.—The constantly growing demand for housing, coupled with the increased cost and call for building material, has caused many inquiries to be made of late as to just what stand the United States government took in the matter. Included among these is one from Harrisburg.

Numerous orders have been issued by the Treasury Department restricting building and there have been several debates in Congress on the subject, but it is evident that they have not been clearly understood by those interested in the trade.

When asked for an elaboration of his statement concerning the desirability of restricting at this time unnecessary building operation, and just what he defined as unnecessary building, Secretary of the Treasury William G. McAdoe, said:

"It is only by subordinating local and personal interests to the general welfare, and by enforcing the most rigid economy in matters of public and private enterprises, as well as in matters of personal expenditure, that the United States can hope to bear its part of the financial burden of the war and to release sufficient labor [Continued on Page 3.]

ALIES CUT WAR FRONT 50 MILES IN MONTH DRIVE

Line at Beginning of Hun Advance 250 Miles; Now Less Than 200

Washington, Aug. 21.—As a result of allied successes during the past month the battle front in France from Rheims to the North Sea has been reduced in length more than fifty miles. General March told the newspapermen to-day in his mid-week conference.

When the Germans began their last advance the line stretched for 250 miles. It is now less than 200 miles.

32 Divisions Abroad General March enumerated thirty-two American divisions as having arrived in France. They are as follows: First, Second, Third, Fourth, Fifth, Sixth, 26th, 27th, 28th, 29th, 30th, 32nd, 33rd, 35th, 36th, 37th, 41st, 42nd, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 85th, 89th, 90th, 91st, 92nd and 93rd.

80th in Flanders Answering further questions regarding individual divisions, General March said the 76th division (New England and New York National Army), now is serving as a depot division and is stationed in a back area. The 80th division (Pennsylvania and Virginia National Army), is serving with the British in Flanders.

The success of the enlarged American program of the War Department, General March said, still is dependent upon the acquisition of adequate shipping and while the Emergency Fleet Corporation is constantly swelling the tonnage at the ship's disposal, it still is necessary to charter and hire many additional ships.

On the plains near the Oise the allied advance has put the line well back of the old 1916-17 line.

General March said the War Department had not yet received details of the capture of Frapelle, in the Vosges, by the Fifth United States division (regulars). The line at this point is four miles over the German border.

In commenting on the shipping situation, General March said that for the first time the fact that Brazil had given a ship to the United States without compensation of any sort for two trips. He said that so far as he knew this was the only case of the kind on record.

NEED STENOGRAPHERS State draft headquarters to-day received notice that the army wanted good stenographers with legal training to volunteer from group C of Class 1 of the draft. These men are to serve in courts-martial in the field and the time for volunteering will end August 31.

Foe Recoils Three Miles as Haig's Men Press Forward Under a Heavy Mist

INFANTRY SURGES FORWARD WITHOUT ARTILLERY WORK

Battle Line Carried to Within Three Miles of Bapaume, One of Hun's Supply Bases

LONDON, Aug. 21 (4.45 p. m.)—French troops advanced three miles to-day along the Oise and reached Sempigny, a mile from the outskirts of Noyon, according to reports from the battlefront.

British forces struck the Germans over a front of approximately ten miles on the line southwest of Arras at dawn to-day.

According to meager details received from the scene of the new assault, the British have advanced from two to three miles and have captured the towns of Moyenneville, Courcelles, Achiet-le-Petit and Beaucourt-aux-Andres and have reached the town of Achiet-le-Grand.

Sweep All Before Them The assault was begun under cover of a mist which materially assisted the British in their advance. It would appear from this that there was only little, if any, artillery preparation and that the plan of attack was similar to that followed south of the Aisne on [Continued on Page 10.]
