

### 30 DRAFT MEN GO FROM PERRY

#### Board Gives Out List of Those Selected For Next Week's Camp Lee Quota

New Bloomfield, Pa., Aug. 23.—Thirty men will leave here next Tuesday afternoon at 4 o'clock for Camp Lee, Petersburg, Va. They will report to the local board at 10 o'clock Tuesday morning. The last nine men on the list as given are taken from Class One of the men who registered June 5 of this year. All of the Class One men on the first draft list have now been called, with a few exceptions. Those who go on Tuesday are:

John E. Hench, Landisburg; Sherman O. Fry, Ickesburg; Thornton A. J. Conrow, Hog Island; Charles E. Gamin, Ainslie; Forest M. Lightner, Landisburg; Paul R. Smith, Ickesburg; James A. Reeder, Newport; Banks R. Rohm, Blain; James A. Sattler, Millerstown; Roy C. Hench, Landisburg; J. R. W. Latchford, Newport; Alfred Low, Duncannon; J. Walker Snyder, Elliptsburg; Nevin E. Roush, Duncannon; Charles C. Copp, Hershey; John W. Zellers, Liverpool; Clarence B. Kipp, Millerstown; Fred C. Kunth, Newport; Frank L. Mumper, Loysville; Ralph

### CORN SUGAR MUCH USED IN HARRISBURG

[Continued from First Page.]

that it is made in limited quantities, which can hardly be increased, owing to the nature of its manufacture.

Two thousand bags of 100 pounds each of corn sugar have been used in Harrisburg during the past six months. During that time the places and methods for its use have been increased twelve fold, it was said by S. R. Coover, of the Witman-Schwarz Wholesale Grocery Company, this morning.

#### Used to Advantage

The common use of corn sugar here was not generally suspected until patrons of public eating places discovered the little yellow grains mixed with the granulated sugar which they poured into their coffee and onto their cereals and desserts. It has been commonly used in ice cream, and can be used to advantage by ice cream manufacturers, Mr. Coover said. It's use in bread is also becoming common. Corn sugar is always mixed with cane sugar to insure a palatable product.

Besides these common uses, it is being tried out in many other ways. Corn sugar costs about a half a cent a pound less to the wholesaler than cane sugar. The retail cost is the same. The sweetening qualities of corn sugar however, are only about three-fourths those of cane sugar.

Reasons were given this morning for the fact that the manufacture of corn sugar cannot be increased to a point extensive enough to insure it as a factor in relieving the sugar situation. The corn sugar is manufactured from a small germ in the end of the corn grain, it was explained, and it was pointed out that very little sugar can be manufactured from even a great quantity of corn.

The sugar germ is no larger than a pin head, which shows how small is the amount of sugar that can be derived from an ear of corn. The corn is extracted in the process of manufacturing glucose and starch from corn. The latter two products are results of a separate process; corn sugar is derived as a side issue in their manufacture.

Corn sugar is a small round yellow grain. It is about as heavy as cane sugar. It is manufactured in the large corn centers of the United States. Argo, Ill., is the nearest center for the supply of corn sugar for Harrisburg.

At present there is little corn sugar held by wholesalers. A few carloads are expected by the Witman-Schwarz Company, but there are a dozen places for every carload that comes in, the demand has increased so since the sugar shortage.

### HELPED BOTH HIS WIFE AND HIS SON

Sinking Springs Contractor Says Tanlac Restored Health and Harmony at Home

#### RESULTS CAME PROMPTLY

"My wife was in a bad way from nervous indigestion," says Peter R. Leininger, a well-known stone mason contractor of Sinking Springs, Penna. "I read in the paper where Tanlac had brought relief in a similar case. I bought my wife a bottle of this wonderful medicine and it gave her relief from the very first doses. She improved steadily and it wasn't long until she found herself enjoying her meals and sleeping well and long.

"We both feel now that she is permanently cured and we have been giving Tanlac to our young son and he is rapidly becoming well and strong, so that, thanks to Tanlac, health and harmony have been restored to our home."  
Tanlac is now being introduced here at Gorzas' Drug Store.

### John C. Stooss, Lemoyne Barber, Dies From Stroke

**JOHN C. STOOSS**

Lemoyne, Pa., Aug. 23.—John C. Stooss, widely-known barber of Harrisburg for years, and who holds a record for attending Sunday school fifty-four years without missing a session, died at his home here yesterday afternoon, following a stroke suffered two weeks ago.

Although in ill health for more than year, Mr. Stooss did not miss a session of Sunday school and up to six months ago held his remarkable record of continuous attendance at sessions. Seized with a sudden attack of illness about that time he was compelled to miss a session, but the following week started out to make a new record for himself. He managed to attend weekly until two weeks ago, when he was seized with a stroke. During the severe cold weather last winter, despite the advice of physicians, Mr. Stooss with the assistance of his wife and daughter managed to get to Sunday school every Sunday.

Mr. Stooss, who was 73 years old, started this remarkable record in Germany. He attended Sunday school for fourteen years in Germany and forty years in this country, making a total of fifty-four years without missing a session.

Born in Germany, Mr. Stooss came to this country in 1865. As a barber he located in Broadway, New York, and later moved to Harrisburg, where he followed his trade for number of years. In 1898 he came to Lemoyne, where he has lived since. Because of ill health Mr. Stooss was compelled to retire from business several years ago and since that time has been living a retired life here. For several terms he was town assessor and was also active in church work. Until a short time ago he was teacher of the Young Men's Bible class of the Lutheran Church, which he organized about ten years ago.

Surviving him are his wife, three daughters, Mrs. George E. Ellis, of Lemoyne; Mrs. J. W. Walck, of Steelton, and Miss Pansy Stooss, of Lemoyne. Funeral services will be held to-morrow afternoon at 2 o'clock from his late home, Burial will be made in the Prospect Hill Cemetery.

### CANNING DEMONSTRATION

Millerstown, Pa., Aug. 23.—Miss Mary Whitney, of the Pennsylvania State College Farm Extension Bureau, will give a demonstration on the preservation and canning of foods and vegetables in front of Mrs. Hannah Rounsley's residence in the Square Friday evening at 7 o'clock, under direction of the Perry County Food Administrator, Archdeacon William Dorwart, of Newport.

### COUNTY JAIL FILLED

Lewistown, Pa., Aug. 23.—There are more prisoners in the county jail at present than in many years past. Many of them are awaiting trial at the term of court next week. The present sheriff is working the prisoners on jobs about the county. A number have been working on the construction of a bridge at Bernham-

### WHOLE GERMAN LINE WAVERS UNDER ASSAULT

[Continued From Page One.]

held by the Germans as a protection to their right flank. The exact line as it now stands cannot be given, but some of the towns taken by the British are nearly a mile inside of the positions where the Germans are believed to have stood yesterday and the greatest advance is said to be two miles.

When it is realized the fighting on this front is along the lines which were strongly entrenched by the Germans and held by them until the great British offensive before Albert in 1916, the importance of the advance made to-day appears to be augmented.

#### Battle Rages on 50-Mile Front

London, Aug. 23.—A battle is raging to-day in France on one of the widest fronts of the war. It extends for about fifty miles north from Soissons. Everywhere, according to news received here this afternoon from the battle front, the battle has been going successfully for the Entente Allies.

The British Third Army has gained more than a mile on a front of more than seven miles.

The British Fourth Army has gained more than two miles on a front of seven miles.

### COUNTY MAY HIRE EXPERT FOR PROBE

[Continued from First Page.]

This section was taken after the Wednesday and Thursday in Scranton, getting data on how Lackawanna county boosted its coal land assessment in ten years from \$4,000,000 to its present figure of \$100,000,000.

The Commissioners are thinking seriously of employing Lackawanna county's mining engineer, T. Ellsworth Davies. Davies is the man who boosted the coal land assessment in his home county and he told Solicitor Moyer that there is need for boosting the Dauphin county assessments which, comparatively, are a paltry \$323,000. The engineer said he would be glad to help the Dauphin commissioners make the assessment; the Lackawanna county commissioners said they'd have no objection to Mr. Davies coming here and the engineer urges that the results to be obtained through an examination of Dauphin county coal lands would more than warrant and repay the expense.

Davies thinks that Dauphin county coal lands are worth anywhere from \$12,000,000 to \$15,000,000, and the aggregate may run to \$20,000,000. The county commissioners passed a resolution directing their chief clerk to write the engineer and have him come here for conference on September 4 or September 5.

Solicitor Moyer's message from the Lackawanna county officials greatly enthused the county commissioners. The engineers didn't tell Mr. Moyer what it might cost Dauphin county to make the examination of the mines but that will be the chief point of inquiry when Mr. Davies comes here in September. The commissioners fixed September 9 as an alternate date although they would like to meet him on September 4 because they insisted "we want to get this thing started as quickly as possible."

According to what Davies told the solicitor, it will take at least two months to thoroughly examine the coal lands. That will include the coal fields of the Susquehanna Coal Company in and around Williams-town and Lykens, which are being worked, and also the Rush township land of the Reading Coal and Iron Company which Davies insists contain marketable coal that is workable. This latter tract the Reading company always has insisted contains no workable coal deposits and because the county here before has had no way of confirming or disproving that contention, the land always has been assessed as timber land, at an extremely low figure.

### PENN-HARRIS SOON TO OPEN ITS DOORS

[Continued from First Page.]

and there should be no question about the opening of the hotel in the late autumn.

The cleaning down of the exterior of the building is moving along rapidly and the marquoises have been erected at the Walnut and Third street entrances.

The large assembly or convention hall is ready for the plasterers; also the refrigerators, ice machinery, bake ovens, kitchen and laundry equipment are being set up.

All the wall papers have been selected and the interior decorating contract will be let within the next ten days. All the furniture has been ordered and is ready for shipment as well as the hangings, carpets, china and line.

Details of the cafeteria, which will be located on the Walnut street side with a street entrance as well as an entrance from the main lobby have been gone over and this feature of the hotel will be quite attractive.

**J. A. MUTZABAUGH BURIED**  
Duncannon, Pa., Aug. 23.—John A. Mutzabaugh, who died at his home here on Sunday was buried on Wednesday. He was 68 years old and survived by his wife and eight children as follows: Joseph Mutzabaugh, of New Bloomfield; Mrs. Albert Scott, of Marysville; Miss Elizabeth Mutzabaugh, Harry and Clayton Mutzabaugh, at home. Ellis and Orville Mutzabaugh and Mrs. William Perry reside here.

**ENGAGEMENT ANNOUNCED**  
Harrisburg, Pa., Aug. 23.—Engagement of Miss Elsie Shultz, a daughter of Mr. and Mrs. D. L. Shultz, of Harrisburg, to J. Howard Chubb, of Harrisburg, has just been announced. Miss Shultz is a graduate of Central high school, at Harrisburg, and taught the Urch's school in Halifax township last year. Mr. Chubb is employed by the Pennsylvania Railroad. The wedding will take place on September 12, 1918.

**LIVED CROSS NURSE ENLISTS**  
Liverpool, Pa., Aug. 23.—Miss Daisy Sweezy, daughter of Mr. and Mrs. Josiah Sweezy, of Liverpool township, a graduate nurse of the Methodist Hospital, at Des Moines, Iowa, has volunteered as a Red Cross nurse and has been sent to a base hospital at Camp Bowie, Fort Worth, Texas, for service. This is the third nurse from Liverpool to enlist in Red Cross work, the other two being Miss Dorothy Thorp, graduate of Woman's Hospital, Philadelphia, and Miss Mary Morris, graduate of Johns Hopkins Training School, Baltimore.

**SENATE HONORS HEROES**  
Washington, D. C., Aug. 23.—Congress to men in the Army and Navy for their efforts in the war is expressed in a resolution by Senator Jones, of New Mexico, adopted yesterday by the Senate. As a special tribute to the men who have died for their country the Senator in voting, remained standing for one minute.

couldn't get down into the mines. However, that time Davies was not in the employ of the county.

If the commissioners engage him there'll be no trouble about getting down into the mines, the commissioners said.

With Davies at the helm, the Lackawanna county assessments started in 1907 to boost the coal land assessments. The aggregate then was \$4,000,000, and it was sent up to \$38,000,000 in one jump. In the next triennial assessment \$2,000,000 more was added and then in 1917 it was sent up to \$100,000,000, according to the data Moyer obtained. And Davies told Moyer, he said, that all the while the county was boosting the assessment the coal company was reporting that annually it was getting anywhere from \$18,000,000 to \$20,000,000 worth of coal from the mines.

#### Books Changed

Davies told Moyer that the assessment books for the coal mining sections of this county will have to be changed and some other records will have to be modified if the county attempts the Lackawanna county system. Up there the assessment is laid on the acre and regulated by the thickness of the coal veins. Land in which the coal veins are two feet or less thick are not assessed as coal land but that which contains heavier veins are assessed at the rate of \$300 per foot of coal per acre.

Hence where the vein is forty feet thick, the acreage assessment is forty times \$300, or \$12,000 an acre. Except where the coal company owns the surface ground, the coal land is assessed separately from the surface land. And the county has separate assessments on the breakers, and real estate. The \$300 an acre assessment is about seventy-five per cent of full value. An examination of the Dauphin county coal lands by a mining engineer, Davies assured Moyer will furnish the county with complete data with respect to width and breadth of coal veins and the commissioners say it will provide them with the first real foundation upon which they can boost the assessments.

The main lounge and dining rooms as well as the main lobby have already been plastered and the plastering is practically finished throughout the building, except the top floor, which is now being completed. The wood work has been practically finished from the third to the seventh floors and the hanging of doors, painting and placing of hardware is proceeding on the third and fourth floors. Setting of tile and marble throughout the building is going forward and the plumbing fixtures are being rapidly installed, as also the radiators.

### Most Comprehensive Stocks of Hosiery and Underwear in Harrisburg for Women and Misses

Embracing all sizes and styles that are essential to the attire of well-dressed woman and miss—many styles not found anywhere else

The attention of the men of Harrisburg and surroundings is most earnestly directed to the exceptionally complete lines of

**HAND TAILORED**  
**Ready to Wear Clothing**  
For Fall and Winter 1918-1919

The critical as well as the man economically inclined will find in these Finest-in-America Clothes the full measure of satisfaction and service looked for.

And after all points are considered, when you have examined these clothes and tried them on, you will see very clearly the difference between the ordinary "run" of ready-made and our ready-to-wear clothes, hand-tailored.

And you pay no more for ours than for the ordinary kind—and perhaps less, when the real test comes.
