Careless Use of Soap Spoils the Hair

Soap should be used very carefully. If you want to keep your hair looking its best, most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulisified coconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use. One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage. You can get mulisified coconut oil at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.—Adv.

TROOP TWO NOW HAS THIRTY-SIX MEMBERS

The boys of Troop 2 held their first weekly meeting since coming back from camp, Monday evening, August 19. It was planned that the boys should meet Monday, August 26, on the Island to take some of their second-class examinations. Patrols were rearranged. The troop now contains thirty-six scouts. Bernard Cohn, Scribe.

Bicycle Squad to Aid by Carrying Light Articles

The bicycle squad of Troop 12 has been called upon to do some important work on Saturday, August 24. They will ride to the scout camp, carrying light articles, such as blankets, etc. Scoutmaster Orr is going to take some luggage to the camp in his machine in the morning. The troop will save trouble and money by the squad riding up to the camp on their wheels. What will the records be one year from to-day? We should have at least 14,000 men and boys then if we maintain this percentage of increase. To do this means that each Scout official must definitely co-operate in a recruiting campaign from this day forth. Let us "be prepared."

TROOP TWENTY IS BACK FROM CAMP

Husky, Sunburned Lads Enjoyed Every Minute of Life in the Open

It was a husky, sunburned bunch of twenty-seven Scouts from Troop 20, of Fifth Street Methodist Church, that rode into town on a big truck last Tuesday from the Scout camp along the Conodoguinet. Scoutmaster Swope and Assistant Scoutmaster Weaver, tired, but thoroughly satisfied with their experience, accompanied the boys. Troop 20 went to camp on the 10th, and immediately things began to happen. A camp schedule was posted and adhered to throughout the entire stay. The schedule follows: 5.45 First call. 6.00 Reveille. 6.05 Assembly and to the colors. 6.15 Setting-up exercises and dip. 7.00 Mess call. 8.00 Inspection of camp. 9.00 Morning program of the day. 12.00 Mess call. 1.00 Attention to orders and afternoon program of the day. 5.45 Retreat (parade) and to the colors. 6.00 Mess call. 7.30 Campfire. 8.45 First call. 9.00 Taps. Troop 20 ran into the only bad spell of weather that the Scouts incurred this summer. The entire first week it rained, and rained hard every day. On the seventh day one of the Scouts, while in swimming, found a cow's skull floating down stream. He secured it and brought it into camp. Immediately a big pow-wow was held, and it was decided to bury the bad weather. So a procession was formed with a gravedigger at the head, and with qualified diggers and tom-toms beating the Scouts buried the bad weather. In a little while the sun looked through the clouds and for the rest of their stay the weather was propitious. Scoutmaster Swope is sure that the finding of a horseshoe, and the nailing of it to the camp bulletin board also helped. The troop had one other experience of bad luck. The first cook engaged failed to materialize, and Scoutmaster Swope had to act as chef. None of the boys fared badly though, at least so the Scouts say. A good cook was secured for the next week and the boys lived up to their reputations. One long hike was indulged in—to the top of the tower at Sterret's Gap. It was a good sixteen-mile hike, and one that the Scouts will not forget for a long time. At least twelve boys perfected themselves in swimming to what is the equivalent of the first class examination, and about five boys who had not learned before, mastered the art while in camp. Almost every day there was some drilling in tracking and Scout pace; and many of the boys, showed their ability to build a fire in the open using not more than two matches. Thursday was visitors' day and they came with a vengeance. A total of eight auto loads visited the camp, and of course none of the fond parents came without bringing something good to eat. The boys complained that there was only one visitor's day in their whole camping period. Among other activities, the troop built a good wharf at the swimming hole, and also cleared up the brush from the entire pasture. A great pow-wow was planned for the last night in camp. It started with a huge campfire, the telling of stories, and finally an Indian war dance to the tune of a tom-tom orchestra. Before bed time Assistant Scoutmaster Weaver served lemonade and sandwiches. Every boy vowed that he was not going to sleep that last night, but the scoutmaster had difficulty in finding one to wake an hour after taps had sounded. The entire troop voted the camp a perfect success, and all wish their stay had been longer.
