Gettsburg, Pa., Aug. 24.—No more twheat will be brought in tiettysburg tuntil the embargoes now on at all neerby seaports are lifted. C. M.
Wolf, Warehouseman, has hotiled the farmers that it was impossible to ship any wheat and that until the situation was relieved they would have to stop hauling in their strain. For the past ten days the ware-houses at Hanover, Littlestown and Taneytown have been refusing to accept wheat, with the result that a large amount of the Justiness which would normally go to those places have been coming to Gettysburg and from five hundred to fifteen hundred bushels has been bought here daily. But in order to get rid of this grain it was necessary for Mr. Wolf to source six permits which allowed him to ship in spite of the embargo. These have now been used and it is impossible to get others, so the farmers will have to hold their grain unto the hundred to fifteen hundred which have now been used and it is impossible to get others, so the farmers will have to hold their grain unto the hundred to fifteen hundred which he was supplied and the stable during a storm. SHARON HOUSING

DEVELOPMENT COST

[Continued from First Page.]

At this juncture the whole proposal was laid before the United States Housing Bureau of the Department of Labor at Washington and when the need of houses was clearly shown the government sent to Sharon an expert who looked over the ground in order to verify, the findings which the chamber had placed at the disposal of the bureau.

Offer to Co-operate

The result was an offer by the government to co-operate in the solution of the problem. At first it was proposed that the Sharon corporation formed for the purpose should put up twenty per cent. of the money necessary for the development and would retain that equity in the property, to be liquidated at the conclusion of the war. This was finally decided to be an unsatisfactory arrangement from the standpoint of the government, due to disputes likely to arise in the event of joint ownership, and the Housing Bureau finally agreed to put up \$1,000,000 for the erection of houses in Sharon.

This took the matter entirely out of the hands of the local Chamber of Commerce and the housing corporation, although both are co-operation in proposal even large numbers of nouses that have fallen numbers of houses that have fallen numbers of nouses that the Housing Bureau wold listen to such a proposal even large numbers of nouses that have fallen numbers of nouses
