**MARRIED HAPPINESS RUINED BY QUARRELS** 

## Families Are Broken Up Because of Nerve

Doctors claim a man or woman with a strong nervous system has complete control of happiness. It is only those who are played out by overwork, worry, excesses, and thoughtless dissipation that are quarelsome and disappointed in life. Do not condemn them, their nerves are starved, they are depleted of life and energy and no thought is given to supply them with food nerve energy to make them calm, strong and controlable. The foolish waste of nerve force the grouch that accounts for so many coparations. Nature requires aid and Phos-phated Iron is necessary in such it contains the vital elements of iron

miles an hour. Believe me, one ac-quires that much speed diving. This morning (yes, it's the 27th) we were out again at 4 a. m., but we had the sky all to ourselves, and no wonder, for the haze was so thick one could hardly keep his direction. as at 5,000 meters the ground was a hazy blur. The compass came in handy then, and, after climbing above a bank of clouds, the sun came out and that helped some more. But as far as finding Huns was con-cerned, the patrol was a failure, because there were not any. "Arche," though, was not to be caught napping and opened up on us promptly as we reached the lines. Being at 5,000 meters then, our leader decided he wanted to be low-er and came sliding down in a num-ber of Ss so sharp and sudden it taxed my ability to keep after him and keep from running into the oth-ers following. All this time "Archies" was barking away quite freely and every now and then one would break was barking away quite freely and every now and then one would break high overhead with a loud bang and a cloud of black smoke.

Lilac Philadelphia a cloud of black smoke. Don't Mind "Archie" Flying in a Spad, though, one is blissfully ignorant of how close "Archie" does really come some-times, as it is very hard for the plot to see just below him; in fact, one has to stand upon one wing to do so. At 5 this evening I am scheduled to go oùt again and I have no doubt but we shall meet those five Huns again, for they have been noticed at that particular part of the lines for several days. This time I have two guns which are working and a mo-tor so strong that both hands are re-quired on the "joy stick" to hold it down.
