

Y. M. C. A. PICNIC THROWS DULL CARE TO WINDS

Businessmen by Score Join Big Out-Door Frolic at Ingle- nook; Party Gets Back From Hooverized Meal With Few Casualties

Two hundred of Harrisburg's prominent, progressive men and youth, active dynamos of the Central Y. M. C. A., whose aim is to make this city's establishment a model in the nation, yesterday sent a virile, inspiring message to the myriad "Y" butts in foreign lands which must have penetrated even to the Hun Kaiser's stizzled brain.

Logically enough, the prime feature of this, the first "Y" picnic, was a sporting program, which instantly transfigured the participants from "modest and shy men," as an English writer describes some thousands of Yanks at a rest camp near London, to a "yelling, gesticulating, merry mob, and no sooner seen burdened with nerves and an ache."

There is no mystery to this, for every one should understand that muscular action becomes easy and pleasant under the influence of mental excitement; hence the utter inefficiency of the dull and monotonous daily work.

There were no Russians or bayonets at Inglebrook yesterday, though the dinner table did have a sound like both battles of the Marne being pulled off simultaneously.

"CLEAR THE TRACK ALL WAY TO BERLIN" Remarkable Feats of American Engineers in France Described in Sunday Public Ledger

American engineers, among them a large percentage of Pennsylvanians, and headed by a former P. R. vice-president, have amazed the world by their accomplishments in France.

Their part in preparing for the great "drive" that will end only in Berlin will be described in a graphic article by Charles E. Duke in next Sunday's Philadelphia Public Ledger.

Another important feature will be a number of articles describing additional acts of heroism by Pennsylvania soldiers in France, such as were contained in last Sunday's Hero Supplement. In order to be sure of a copy place your order in advance with M. Forney, Harrisburg News Agency, or E. Hoffman.

Where Can I Find Relief From Itching, Terrifying Eczema?

This Question Is Ever on the Lips of the Afflicted. Eczema, Tetter, Erysipelas, and other terrifying conditions of the skin, are deep-seated blood diseases, and applications of salves, lotions and washes can only afford temporary relief, without reaching the real seat of the trouble.

SPRINGTEX is the underwear with a million little springs in its fabric which "give and take" with every movement of the body, and preserve the shape of the garment despite long wear and hard washings.

EVERY GUILTY HUN MUST PAY FOR HIS CRIME

Personal Reparation Imperative if Peace Is to Be Worthy Its Name

New York, Aug. 30.—James W. Gerard, formerly ambassador to Germany, says there exists among the American people a feeling, none the less intense because its expression is subdued by the dominant will to win the war, that no peace will be wholly satisfactory which does not bring in its train a physical suffering and sacrifice to those who have been the leaders and instruments of frightfulness.

Gerard said he would arraign before the bar of that high international tribunal, which should be constituted when the Central Empires have been beaten into submission, every Hun accused of crime—the Kaiser, stripped of his royal trappings, or his prerogatives of rank, of his imperial dignity, pleading as an individual, it may be, and responsible for those who have been torturing a starving prisoner of war by snatching back a piece of bread from his ravenous hands.

One object of this war is to prevent wars in the future. The most effective way of preventing future wars is to inflict personal punishment on those who have been responsible for this war. The Germans have been guilty of violating the laws of war. They have killed women and children in defiance of international law on the high seas; they introduced the use of poison gas; they have visited outrageous cruelties and horrors on the prisoners of war.
