

PENBROOK SEEKS STATE'S AID TO GET CITY WATER

Asks Public Service Commission to Investigate and Grant Relief

The Public Service Commission was today asked by E. K. Lawson, J. A. Miller and M. L. Ludwick, residents of Penbrook, to make an investigation into the condition of the Penbrook Extension Water Company and if possible to arrange for the supply of water from the city of Harrisburg.

The Susquehanna Water Company against whose service complaint was entered a few days ago by citizens of Progress, filed an answer to-day in which it claimed the shortage was due to leaks in the system of the Rutherford Heights Water Supply Company, and trouble at the Hummelstown plant, said to be owing to shortage of skilled labor.

John S. Stark to-day entered complaint that the Harrisburg Gas Company had failed to construct extensions of lines to furnish gas on Mandata and Hudson streets near Nineteenth.

Formal notice of the granting of the petition to make appeal of the Harrisburg firemen a supersedeas was received at the office of the commission to-day.

Returned "Y" Worker Tells of Duties of Secretary in France

Dr. J. Riley Bailey, for six years medical missionary in India, and now home on furlough after six months spent as Y. M. C. A. secretary in France, addressed the Y. M. C. A. Recruiting Committee at the local association headquarters to-day on the need of Y. M. C. A. workers at the front.

That's the sort of thing that makes or breaks a "Y" worker, Dr. Bailey said. If the secretary does his full share and is always busy with some definite duty there is never any question of his standing with the troops.

What is a Branch House?

The Branch House is the place in the packing organization where what the packing plant does for you is put where you can use it.

Both are the natural result of growth and development in the living thing they belong to.

Swift & Company Branch houses are located in distributing centers all over the country. They are fitted out with refrigerating equipment to keep meat cool, sweet and fresh.

Each one is in personal charge of a man who believes in what Swift & Company is doing for people and wants to help do it.

They are directed by men who have spent years learning how to get better meat cheaper to the places where it is needed.

Meat is shipped to the branch houses direct from the packing plants in Swift & Company's refrigerator cars, in such quantities that it can be disposed of while fresh and sweet.

Your meat dealer comes here to buy your meat for you—unless someone else can treat him better than we can.

So you need the branch house in order to live well; and the branch house and the packing plant need each other, in order to be useful to you.
