By Associated Press. Amsterdam, Sept. 4.—The German general staff has transferred its headquarters from Spa, Belgium, to Verviers, a little further to the north and fourteen miles east of Liege, according to Les Nouvelles.

GERMAN IDEA OF TRIUMPH NOW TO "HOLD OUR OWN"

No Moment More Unfavorable For Germany Than Now, Crown Prince Says

Amsterdam, Sept. 4.—The German idea of victory as defined by the German Crown Prince, in an interview published in the Budapest Az Est, is an intention "to hold our own and not let ourselves be vanquished."

The Crown Prince denied he was a "fire-eater" and continued: "If Germany had wanted war we should not have chosen this moment. No moment could have been more unfavorable for Germany than this."

In reply to the question as to how he thought the end of the war would come, he replied: "Through the enemy perceiving the colossal stake which they are not equal to the winning, and that they cannot win as much as they are bound to lose."

In discussing the present operations on the western front, the Crown Prince said: "The enemy attacks and the withdrawal on our front at several places are often wrongly interpreted in some circles. Some of our people are too accustomed to a continuous advance and when a battle occurs wherein the enemy attacks and we have to defend ourselves, the situation is not always correctly understood."

Regarding the American forces in France the Crown Prince said: "I've found that the majority don't know what they are fighting for, but we feel, of course, that the entry of the Americans, they have sent over very much material and now are sending very much human material."

"We speak openly of victory," the Crown Prince said. "The word victory must not be understood to mean that we want to annihilate the enemy but only that we mean to hold our own and not let ourselves be vanquished. The moment England entered the war that was clear to me and I always emphasized it."

When the interviewer remarked that the Crown Prince was considered abroad as a "fire-eater" he answered: "I am aware of these accusations. Do I need to say that not a word of them is true."

German Deaths Are No Longer "Heroic"

By NICHOLAS KLEIN. Since the beginning of the war it has been the custom of German trade unions in Germany to honor fallen members by inserting in the labor papers death notices in honor of members who met death in the field of battle or in the service. The forms are all set up and the deceased member's name is inserted.

In the first year of the war the death notices gave the name of the fallen member and this phrase: "Died heroically on the field of honor."

In the second year, the notice was changed to read: "Gave his life for his fatherland."

The third year's harvest was that the notices gave the name of the land in performance of his duty. German papers just coming here now show a great change in the German labor spirit, and here is the sobering notice used in the fourth year of the war: "Died as a further sacrifice to the horrible war."

DRAFT TO EASE UP ON MEN WHO ARE BEYOND 31

President Wilson Summons March and Crowder For Conference

Washington, Sept. 4.—No changes are contemplated in the basic rules governing the operation of the draft in the case of men included under the new age limits. This was indicated yesterday by Provost Marshal General Crowder, who after a visit to the White House with General March, chief of staff, explained that the principles which prevailed in the selection of men between the ages of 21 and 31 would be retained in large measure for the guidance of those operating the selective machinery.

There will be some changes, however, in the details relating to men engaged in certain industries, and more especially to men of more mature age included in the new registration.

But what these are the government is not prepared to announce, but it is believed that rules to cover all questions that can be foreseen now will be sent to draft boards within a few days. General March and General Crowder conferred with President Wilson for an hour to-day. They were summoned by the President, who wished to familiarize himself with all details of the manpower and its proposed method of operation.

Whether arrangements will be made which will automatically exempt railroad men and coal miners as a body cannot yet be stated. Provisions for the registering of men within the age limits of the new draft who may be ill on September 12 were announced to-day by Provost Marshal General Crowder. Any man who is unable to appear for registration may send one else to the draft board and where the board is satisfied the case is bona fide, the representative will be deputized to make out the card and the registrar report. The word "sick" will be written on the card which on being delivered to the registrant must be mailed or taken to the local board having jurisdiction.

France Has Fought All Except America

"I visited a public school in a small French village," says Stephane Lauzanne, in the September Forum, "and asked of an 8-year-old boy, 'What do you think of America?'"

"The child's inquisitive reply was accurate as a matter of fact; between America and France there has never been the smallest quarrel, or the slightest disagreement. Better still; throughout history we have an infinity of points in common. We were conquering our interior and forty very time America was conquering her exterior liberty. We have always had the same ideal of independence, the same passion for democracy, and we have the same color for our flag."

HOW TO AVOID BACKACHE AND NERVOUSNESS

Told by Mrs. Lynch From Own Experience.

Providence, R. I.—"I was all run down in health, was nervous, had back aches, headaches, my back ached all the time, I was tired and had no ambition for anything. I had taken a number of medicines which did me no good. One day I read about Lydia E. Pinkham's Vegetable Compound and what it had done for women, so I tried it. My nervousness and backache and headaches disappeared. I gained in weight and feel fine, so I can honestly recommend Lydia E. Pinkham's Vegetable Compound to any woman who is suffering as I was."—Mrs. Adeline E. Lynch, 100 Plain St., Providence, R. I.

Backache and nervousness are symptoms or nature's warnings, which indicate a functional disturbance or an unhealthy condition which often develops into a more serious ailment.

Women in this condition should not continue to drag along without help, but profit by Mrs. Lynch's experience, and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and for special advice write to Lydia E. Pinkham Med. Co., Lynn, Mass.

A Great Change Enters Into Life Of Storekeeper

A certain unassuming gentleman in this city who happens to be a prominent dealer in furniture and who up to a few weeks ago had become a recluse because of his physical condition tells this remarkable and most interesting tale:

"For a number of years," he said, "I have been so closely confined to my business, working zealously to make my store representative in every respect, that wear and tear finally got me, my face became drawn and haggard and my disposition seemed to urge people to evade me. It was then that I began to despise my own company. My book-keeper, who has been with me a long time, one day suggested that I needed a rest and that my nerves required attention. She told me that her father had been in the state of health which I was experiencing and that he had taken Phosphated Iron. 'Look at him now,' she said. 'He works ten hours a day and appears to be the happiest man in the world, which he believes he is, he says.'"

"All this happened less than a month ago. I followed the advice, and look at me now. Back in the harness with a smile all the while. I am feeling more fit than ever. When I see a tired-looking face the name of Phosphated Iron immediately comes in my mind. I am convinced that it is converting many a worn-out body into a life rich in thought, ambition and enthusiasm."

Special Notice—To insure physical and patients receiving the genuine Phosphated Iron we have put up in capsules only so do not allow dealers to substitute pills or tablets, insist on the genuine in capsules only.

South's Hospitality to Soldiers There

New Orleans, La.—New Orleans has tucked up her skirts and gone to work to give our soldiers, sailors and marines within her gates a day of pleasure and fun such as New Orleans of all American cities knows best how to provide. The day is to be Thursday, September 12, and is to be known as War Camp Community Service Day, since this is the organization which provides for the mental, moral and physical well-being of our fighting men on leave for the commissions on training camp activities of the War and Navy Departments.

Mayor Behrman has approved the project, and will issue a proclamation announcing a day of universal hospitality for soldiers, sailors and marines. The commanding officers of all of the nearby camps and training stations will be requested to grant the maximum number of leaves of absence on that day, and it is planned that automobile rides, lunches, invitations to dinner and other forms of hospitality shall be extended to every man in uniform. During the day there will be music, drills and other forms of entertainment at various places not far from the center of the city. For it is planned to give somewhat of the spirit of carnival, of the far famed New Orleans Mardi Gras, to this celebration, so that anyone can speak to anyone else and Mrs. Grundy will understand.
