### LAUZANNE CALLS GERMANISM THE HORROR AND HYPOCRISY OF WORLD

CHICAGO, September 5.
Stephane Lauzanne, editor of the Faris Matin, at a luncheon here resterday defined the war as not one of people, but of ideals against Germanism, and he defined Germanism thus:
"Germanism is the Kaiser issuing in 1914 four declarations of war in three days and exclaiming in 1918, 'God knows what I have not ione to prevent such a war.'

ione to prevent such a war."

"Germanism is all the hypocrisy, all the wickedness, all the frightfulness that we meet in the world.

"Germanism is all the horrors, all the atrocities, all the crimes that we have witnessed in this war."

obard's recommendations were followed.

8-Hour Day Basic Time
The order specified that eight hours is to be considered the basic day, but overtime up to ten hours is to be paid pro rata, with one and one half the regular rate for overtime past the ten hours. Specific rules are laid down for the promotion of employes on grounds of merit and seniority. Other regulations forbidding dismissal of employes without cause, and providing for hearing on appeal resemble the rules now in effect under government civil service. These restrictions will affect mainly the half-million railway clerks.

Women Share in Raise
Thousands of women clerks employed by the railroads are to receive the same pay as men for similar work, but the interpretation of "similar work" is left to executives.

Back pay from January 1, will be made under the former general wage order and the advances now granted will be figures on top of the wage last January 1, rather than on the pay received in the immediate past under the general wage increase. Minimum rates of pay are established for any the increase of \$25 a month applied if the employers.

made under the former general wage order and the advances now granted will be figures on top of the wage last January 1, rather than on the pay received in the immediate past under the general wage increase. Minimum rates of pay are established for all classes covered by to-day's order, but the increase of \$25 at month, applied if the employe worked on a monthly or weekly basis, and of twelve cents an hour, applied if the employe worked by the hour, in many cases will run the actual new rate above the minimum.

No Decrease in Plan

In no case are wages received under the general wage advance order to be decreased. Wages for new positions are to be in conformity with rates for similar kind of work.

"Promotions shall be based on ability, merit and seniority. Ability and merit being sufficient, seniority shall prevail." This provision does not apply to personal office forces of superintendents, trainmasters, division engineers, master mechanics, general freight or passenger agents, and similar offices, where the management is to be the judge of promotions

Demoted Employes Protected The order does not apply in cases where amounts of less than \$30 at month are paid to individuals for special part time services. Employes assigned to higher rated positions assigned to higher rated positions.

## WHEN WILL THE WAR END?

No one knows, but the wisest men of the world expect it to be next year. As a proof of this, General March, Chief of Staff of the American Army, says that with the force we will send abroad by June 20, 1919, the war will be won before The men in the fighting line in France predict that by September, 1919, the Germans will have had enough.

French bonds have advanced from a low of 81 to above 95. Russian bonds, which sold as low as 32, are now 62.

On the other hand, German currency has been recently quoted in Switzerland at only a little more than half its normal value and Austrian currency at about 40 per cent. of its value.

Are not these pretty conclusive indications of the way the war is going and that its ending is not far distant?

Bonds of all the Allies are gradually but constantly rising in anticipation of peace. Real estate will go the same way will find everybody wanting ground at the same time, with the inevitable boom in BE WISE: do as the banker does, buy when you see that developments are in the right direction, and, even though you had to pay increasingly higher prices as

the banker is doing for bonds, you would be bound to reap a profit when peace is

with a jump, because the average buyer

will wait until peace is a reality; then he

really here. The Real Estate I am offering in the Hill section, north of State street, is the best improved and most conveniently located in all residential Harrisburg, and, whether you want it for a home or simply for profit, a purchase now at old prices will prove to be an act of considerable wisdom. My only reason for selling is that I have more than can develop conveniently, and you couldn't buy all my ground at present prices if you wanted to. But I am selling some of it, and can prove to your satisfaction that the prices are rare bargains.

# \$65.00 IN PRIZES

I will develop several of the more desirable sites in this section next Spring, and I am will-ing to give a prize for some suggestions that will be of value to me.

First: I will give a \$50 Liberty Bond for the best suggestion as to where to locate a home, the kind of house which would suit the location, the plot of ground considered neces-sary, etc.

Second: .I will give two \$5.00 War Savings Stamps for the next best suggestion. Third: I will give one \$5.00 War Savings Stamp for the third best suggestion. I have secured the consent of J. E. Gipple, president of the Harrisburg Real Estate Board; H. G. Pedlow, real estate agent, and Harry B. Shoop, architect, to serve as a committee to judge the papers and award the prizes, and all suggestions should be mailed to Mr. Gipple, 1251 Market street, Harrisburg, not later than September 28, 1918.

This opportunity is open to everybody. Don't think that it is for architects or builders; it is the ideas of present and prospective home owners that I desire to get.

Come out, look over any of the ground between Fifteenth and Eighteenth and between Briggs and the proposed Parkway, and tell us how to keep Harrisburg beautiful. I will be glad to give you any information as to street locations and sizes of plots.
