## FUEL ORDER IS SLIGHTLY MODIFIED

[Continued from First Page.]

The Federal authorities as violators of the Lever act, which imposes a fine of \$5,000, two years' imprisonment, or both.

The \$2,000 fine imposed on Steel was divided as follows: \$500 for the Dauphin county Red Cross, \$500 for the Millin county Red Cross, and \$1,000 for the Philadelphia Red Cross.

It was announced also by the county fuel administrator this morning that the regulations restricting the use of elevators in office buildings and prohibiting the use of lights in offices after 6:30 in the evening, have been rescinded.

The Dauphin county fuel committee brought to the attention of Mr. Potter, the hardship this order placed on the number of professional men who had offices in buildings equipped with elevators, and have received word to-day from Mr. Cole, director of conservation for the state of Pennsylvania, that Dauphin county would be exempted from this regulation from 6:30 p. m. to 7 o'clock a. m.

It is hoped that office holders may burn sufficient light in their offices during the evenings to do necessary work, but no more light must be burned than is necessary. Elevators may also be operated in the evenings.

Office building owners and tenants must, however, not confer this evening privilege with the elevator rules and regulations during the daytime, as no exemption has been granted on the rules and regulations for the operation of elevators from 7 a. m. in the morning to 6:30 p. m.

This order will go in effect at once until further notice.

## EXPECT SOON TO SOLVE HOSE LOSS

### Hygienic Hose and Special Council Committees to Meet Soon

What information was obtained by a committee from the Hygienic Hose Company during the investigation of the destruction of 750 feet of hose assigned to that company by the special committee of council appointed to probe the cause at a meeting with in a short time.

The committee composed of L. M. Glattacker, Max Reider and James Avery has been working hard since being appointed. It is understood the men have some information that will clear up the matter finally. Just what they found during the probe members of the committee have not yet told for publication before they report to the special committee from council.

In a statement to the press to-day the committee wishes to inform Steelton taxpayers and residents that rumors widely circulated at the time the damaged hose was discovered are false. Members of the committee say that rumor to the effect that several members of the Hygienic Company declared they would get even with council because the hill company was assigned some hose that had been stolen is entirely untrue.

Committeemen say that during their investigation they find all these rumors are without foundation and are only tending to make a serious matter worse. At the present time committee have clues to several causes and if they develop, Steelton residents will be told how ridiculous these rumors were.

I am able to offer good, substantial mountings as follows: Aluminum Frames, \$1 and \$1.50 Gold-filled Eyeglass Mountings, best quality, at \$2.50. Solid Gold Eyeglass Mountings, \$3.50 and \$4.00.
