Save The Peach Stones

At last the humble peach stone has been exalted to play a prominent part in this war. For ages it has helped to fill up about one-third of the basket, only to be thrown away again as useless. Now the peach stone saves the lives of our soldier boys in trenches.

About two hundred peach stones will provide enough carbon for a Gas Mask. Uncle Sam is using about three hundred tons a day, and wants yours, no matter how few.

Dry and save them for the Red Cross. Also plum stones, apricot pits, date seeds, hickory nut, walnut, butternut and coconut shells. Instructions will be published as to their disposal. Peach pit depositories will be arranged in every neighborhood to prevent their waste.

Modart Corsets Are Poise-Designed

Poise is the art of holding one's self correctly. It is the object of the "setting up" exercises of all armies, resulting in the military carriage so universally admired.

Poise means free breathing, better health, greater strength and less fatigue. Modart front-laced corsets are poise-designed. The correct poise they give the figure at the time they are fitted is maintained by the use of the lightest clock spring boning which yields, yet restrains — which does not become "set"—that is, it does not stay permanently bent.

Modart front-laced corsets are supremely comfortable.

We ask you to accept a free trial fitting of the Modart model that has been poise-designed for your figure.

Prices ranging from **\$4.50 to \$10.**
