Carl Probstner, Limestone. Joseph Leon Lawrence, South Bethlehem.

AMERICAN SHIP SINKS HUN SUB IN 29 MINUTES

Gun Fire From Frank H. Buck Sends U-Boat Down Off Atlantic Coast

Washington, Sept. 11.—Destruction of an enemy submarine Septem-ber 3 off the Atlantic coast by gas fire from the American steamer Frank H. Buck was reported to the Navy Department yesterday by the master of the steamer. He said two shots were observed to hit the sub-mer-sible, which sank after a "ter-rific explosion." The captain's narrative, as sum-marized in the report to the depart-ment, follows: "On September 3, at 8.25 a. m., an enemy submarine was sighted on the starboard beam at 1,400 yards. The submarine opened fire with two six-inch guns. We answered fire with forward guns. We saw the shot fall about 400 yards short and im-med-iately swung stern forward to sub-marine, using after guns. "Shrapnel Falls on Deck "Our shots were very close to the submarine and the submarine shrap-nel were bursting near to us. Some of the pieces falling upon our deck amidships. We changed the course frequently, which seemed to upset the submarine's aim and range. As soon as the submarine saw our range was equal to hers, she hauled away from us. Up to that time she had been closing in on us. "Before the submarine could get out of range, our twenty-eighth shot from the after gun apparently hit her stern. The twenty-ninth shot hit her just forward of the conning tower, near and under the water line. The bow immediately shot up into the air very suddenly, then settled and disappeared out of sight, mak-ing a half turn toward us and then it disappeared. "Sinks Almost Instantly "Upon shots striking the subma-rine we saw very nearly a terrific ex-plosion and black smoke, which en-veloped the submarine. I am positive that we destroyed her as she sank almost instantly after the shot struck her. "The engagement lasted 29 min-utes. Some of the fragments of the submarine fell on our decks and were picked up by the quartermaster and chief gunners' mate. "The submarine was about 300 feet long, of the early type of Ger-man submarine with high bow, and had two six-inch guns close to the conning tower, fore and aft. She fired in salvo, using about sixty shots altogether. News was camouflaged and few no flags. "Comments Gunner's Mate "The Navy Department announced that the captain of the Buck highly commended the efficiency and con-duct of Chief Gunner's Mate Joseph Steffens and the entire armed guard under his command. "The account of the encounter as given by the master of the steamer was received over the long distance telephone from an Atlantic port at which the Buck has arrived. "The summary was made public without comment and pending re-ceipt of more detailed reports and officials reserved opinion as to wheth-er the submarine actually had been destroyed. These were expected within a day or two. "The location of the fight was not given in the department's announce-ment. The description of the sub-marine by the Buck's captain was accepted as bearing out the previous-ly expressed belief of naval officials that the raiders operating on this side of the Atlantic are converted merchantmen of the Deutschland type. These vessels were about 300 feet long and carried six-inch guns.

Crown Prince Assailed; Dictatorship Demanded

Washington, Sept. 11.—From the two extremes of German party lines, the Socialist and the Pan-Germans the Crown Prince is being assailed for his recent interview denying re-sponsibility for the war. An official despatch to-day from France says the Socialist paper, L'Humanite, declares that if the government premeditates a peace offensive the Crown Prince must not be named as one of its spokesmen. In this belated past, his notorious attacks, his untimely manifestations at the Reichstag and elsewhere are in complete contra-diction with the way of speaking he now wishes to adopt. "On the other hand the Pan-Ger-man, Deutsche Zeitung now de-mands a dictatorship which will get together all those who have a clear perception of their duty.

McAdoo Urges Liberty Bonds Be Tax-Free

Washington, Sept. 11.—The need of immediate legislation affecting the entire financial structure of the United States was earnestly pressed upon Congress last night by the Sec-etary of the Treasury in a letter ad-dressed to Chairman Kitchin, of the ways and means committee. "Almost on the eve of the greatest Liberty Loan drive Mr. McAdoo vir-tually demanded that Liberty Bonds be tax-free up to \$30,000 during the war and for a limited period there-after; that his own powers be in-creased to correspond to that of those of the ministers of the execu-tive of foreign powers allied with the United States; that the issue of war savings certificates be increased from \$2,000,000,000 to \$4,000,000,000 and that the \$1,000 limitation on personal holdings of these certificates be lifted.

Army Ready to Equip 2,000,000 More Men

Washington, Sept. 10.—Brigadier General R. E. Wood, the Acting Quartermaster General of the Army, granted an interview to-day, during which he discussed the gigantic task of equipping the new draft army that now confronts the War Department. Including the September draft, there will have been inducted into the military service of the nation, accord-ing to General Crowder's figures, 2,750,000 men. General Wood said that the esti-mated requirements of wool for the Army, Navy and Marine Corps be-tween now and June 30 next will be 266,000,000 pounds, and approxi-mately 17,500,000 pounds additional for semigovernmental needs. This quantity, he said, will be available, and will provide for the new draft army.

NEW OFFENSIVE PLAN AGREED TO BY BOLSHEVIKI

Treaty With Germany Provides For Active War Against Allies

Washington, Sept. 11.—The supple-mentary treaty recently signed by Germany and the Bolshevik govern-ment in Russia provides for a Bol-shevik offensive against the Allied military expedition in northern Rus-sia, the State Department announced yesterday upon receipt of advices from Ambassador Francis at Arch-angel. Under the terms of the treaty, if the Bolshevik government undertakes an offensive against the Allied con-tingents on the Archangel front, Ger-many will guarantee Russia against attack either from or through Fin-land. If the Allied troops are expelled from Russia, Germany will guarantee the security of the Russian coasting and fishing fleets in Russian waters. Russia promises to pay to Germany the sum of 6,000,000,000 marks (nor-mally \$1,500,000,000), one billion of the form of commodities from the Ukraine, two and a half billions in gold and the remainder in German marks and the remainder in Ger-man currencies and Russian paper. Officials declined to intimate wheth-er the new treaty recognizes, from the Bolshevik and German view-

Brinner, 218 North Second.

ARMY MEN TO LEAVE FOR DELAWARE CITY

John G. M. Grab, recently made "Because Tonall Helped Others I Bought It Because It Benefited Me I Recommend Tonall" Mrs. Gertrude Schupp of Milwood, Lancaster county, pa., says: "I am a widow and make my liv-ing at dressmaking. I was troubled with my stomach and could not eat much, had difficulty with bloating. I used one bottle of Tonall and be-gan to feel good almost immediately. I will continue to use it as I feel sure it will bring me around all right. "I bought Tonall because it helped others and as it benefited me I recommend it for all stomach ail-ments." This testimonial was given August 22, 1918. Tonall is sold at Gorras' Drug Store, Harrisburg; Hershhey's, Hor-shay, and Martz' Drug Store, Steel-ton.—Adv.
