Tech Athlete Goes to U. S. Naval Service

Edwin B. Harris, 219 South Thirtieth street, well-known and popular Tech High athlete, will leave Harrisburg tomorrow morning for Philadelphia to enter the United States Naval Service.

Complaint that the Newport and Sherman's Valley Railroad, a narrow-gauge line in Perry county, was charging rates which were excessive, was filed with the Public Service Commission to-day by a Newport manufacturing concern, which also raised the point that the tariff became effective four days before the railway was released from Federal administration, and that it has not been changed.

Hearing was held to-day on the first complaint filed against a ferry company, it being charged by the borough and citizens of Millersburg that the Millersburg-Liverpool Ferry Company, known as the Hunter and Hadel Ferry Company, had a schedule of rates unjust and excessive and that its schedule was unsatisfactory.

Plenty was said about the service rendered by the ferry and its erratic timetable, while the rates charged appeared to be a sensitive point with a number of persons. This ferry has been used, or tried to be used, by a number of people from Harrisburg at divers times.

CAPITOL IS HIT IN REGISTRATION

Many Men Have to Go to Their Homes to Enter Their Names on the Lists

Dozens of men connected with departments of the government left Harrisburg for their homes to-day to register their names under the new draft law, while others who had prepared their papers here forwarded them to the draft boards of their new districts.

The first draft affected the departments on Capitol Hill lightly, but the present taking in men from 31 to 46, to all intents and purposes, will have a much greater bearing.

Major K. G. Murdock, the chief draft officer for the state, in a final word to-day said that the draft meant that all men who have attained their 18th birthday and not their 46th must register, excepting of course those who registered under the first draft law.

It is to be hoped that local boards will register men in important munitions plants and on railroads as rapidly as possible. They need not wait until to-morrow, but can register them now to avoid shut-downs," said he.

Large employers should see that their men are registered and can arrange for registration outside of works. And lastly men should register to-morrow before 5 p. m. if possible. Everyone knows what the final two hours rush at an election precinct is like. I hope we can avoid that to-morrow.

All registration boards have been called upon to report their registration by telegraph to Major Murdock.

Fifteen Young Men Are Called to U. S. Navy

No less than fifteen young men of this section have left within the past few days or will leave to-morrow to enroll for training against the Hun. This number of youths of this section enrolled in the Naval Reserve, have been called into active service. Most of them enrolled for service at the local Naval Recruiting Station several months ago.

Some of them have already gone to Pier 19, Philadelphia, while the remainder of them will go to-morrow. These already there have been sent to the Great Lakes Naval Training Station and the others are expected to be detailed to the same place for training.
