Assessors to Distribute Dog License Application

Assessors in all city and county districts are being furnished with blanks by the County Commissioners to be given to all owners of dogs so that they can be filled in and sent to the County Treasurer's office in applying for 1919 licenses. The Commissioners decided upon this method as the best one for the convenience of dog owners as otherwise they would be compelled to go to an alderman or justice of the peace, fill out an application and also pay for a small fee. By using the application blank the owner of a dog gives the district in which he resides, the breed, sex, color, age and markings of the animal, full name and post office address. The information should be mailed to County Treasurer Mark Mumma with \$1 for each male, or \$2 for each female dog, and a stamped addressed envelope to be used in mailing to the owner a receipt and the license tag. All licenses for 1919 must be secured on or before January 15.

GIVES ADDRESS AT MASS MEETING

Robert E. Reeves Speaks on the Problem of Spanish in America

The public mass meeting at the Y. W. C. A. in the interest of the study of the Spanish language was opened by the displays of views from the South American countries by Dr. Karl Schaeffer, state medical inspector. Dr. Schaeffer brought to the audience a new vision of the unexplored opportunities awaiting trade and industry in a mastery over tropical industries, vegetation, architecture were noted; a graphic description of the stamping out of yellow fever in the Panama Canal Zone, overcoming what had rendered the completion of the canal impossible to the French was full of interest.

Robert E. Reeves, general secretary of the local Y. M. C. A., gave an address on the importance of Spanish in commerce.

Mr. Reeves said that were he twenty years younger he would consider seriously qualifying himself in Spanish in view of their great opportunities. For "Young man, go West," he substituted "Young man, go South." South America is a rich field, he said, and our war, working against an intense struggle an economical and commercial war, Germany will, with her great ingenuity and might, strive not to be destroyed, but to survive in the world, we shall not sit back and allow other nations to beat us in trade.

Another advantage we will have is closer financial relations than formerly. Our banking institutions are extending business throughout South America. The National City Bank has established a school to train men to go to foreign countries to learn the customs of country, language, banking laws, stenography and typewriting. Greater confidence will be a natural outcome of the psychological aspect has been enlarged.

Many of the South American countries have lined up with the Allies, making very friendly relations with us.

The Pan-American Union is working on this subject.

Mr. Reeves closed with a convincing appeal to the young people to study Spanish.
