### Special Sale 2000 Yards Unbleached Sheeting

36, 72, 81, 90 inches wide  
The prices at which this sheeting will be sold are so low that we could not duplicate the same goods to-day at this figure. And with a tendency of the market going still higher, the sale will only be for several days. We would therefore suggest liberal purchases if you are in need of sheeting, as the savings are substantial.

1,000 yards are of 36-inch unbleached sheeting with smooth, even thread, free from cottonseeds. Will wash and bleach easily. This is a well-known brand that has been on the market for the last 25 years. Made of Sea Island cotton. Very special value at

### 28c Yard

# Our Basement Is Filled to Overflowing With Dependable Merchandise

Now is the time to replenish your kitchen needs: do up your lace curtains—prepare for the heating of your home, and fall house cleaning.

Take Care of Your Cooking Utensils. They are made of material very valuable. Now Mrs. Anna B. Scott says in the Philadelphia North American of Sept. 13th—

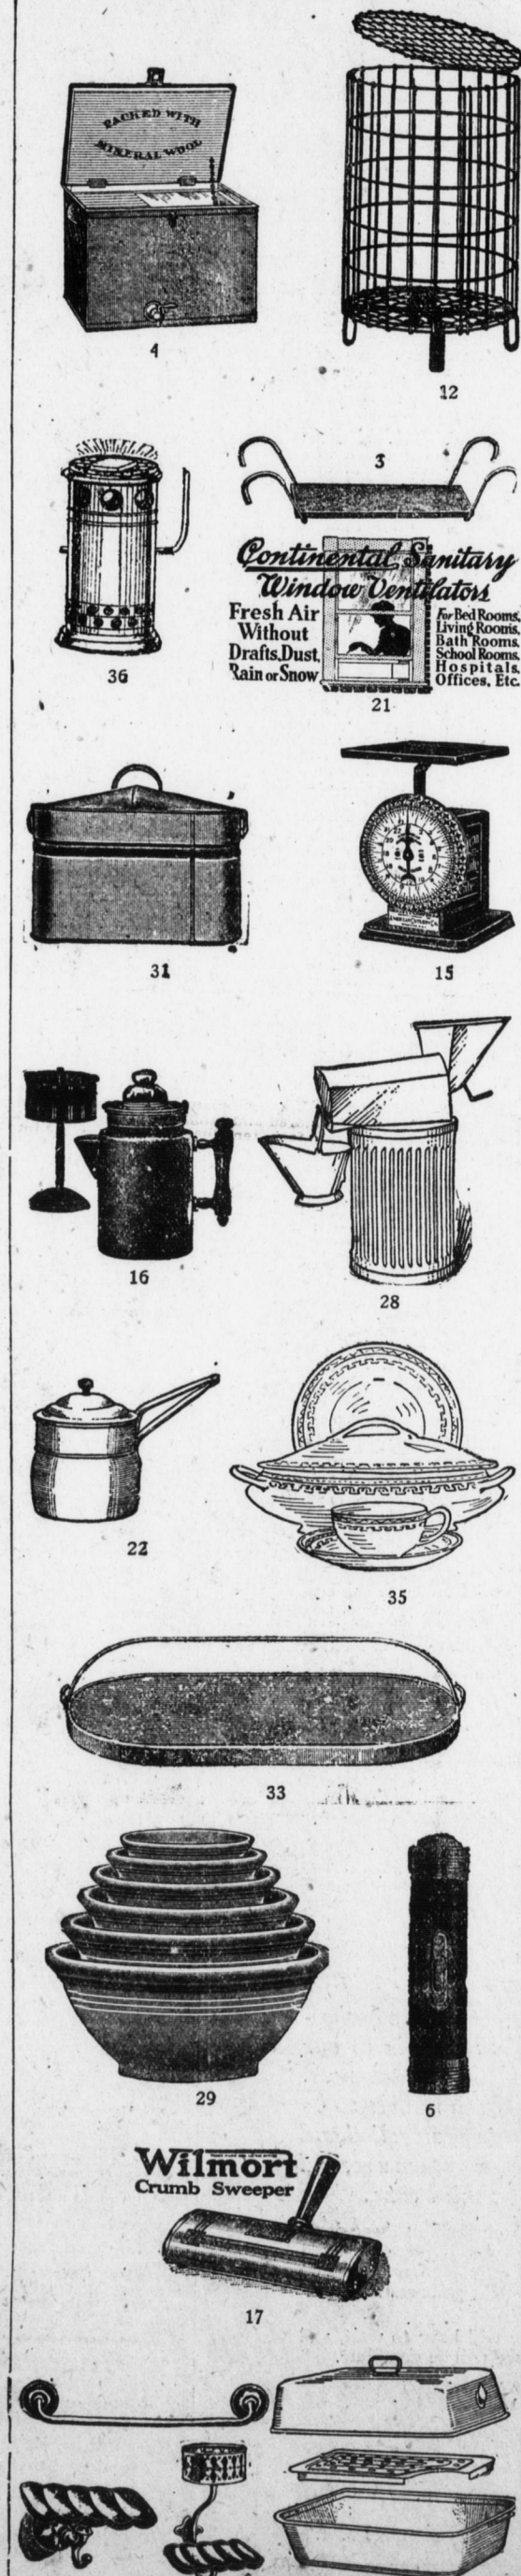

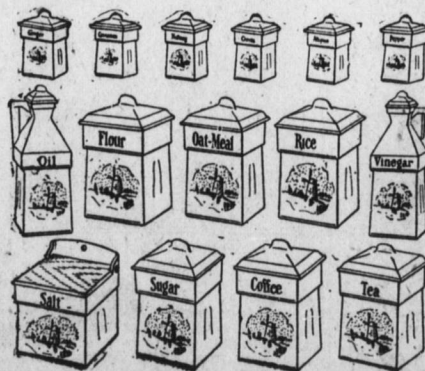

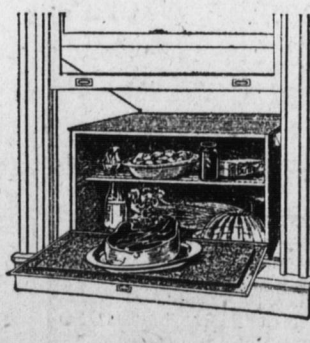

"It is very important for every housekeeper to take the best of care of her cooking utensils in these days, to save material, whether tin, aluminum, iron or agate—all of these materials are needed for the war. We should handle our cooking utensils with just as much care as we do our Haviland china."
