

Scout Stamp Sales High Up in Millions

The sales of War Savings Stamps and certificates by the Boy Scouts of America can be measured only by millions. The Government Printing Office has already turned out 13,000,000 of the pink postcards especially for scout use.

G. Schuyler Tarbell, Ithaca, N. Y., 362 sales, \$1,841; Ralph W. Stahley, Lewisburg, Pa., 180 sales, \$2,775.25; George Golden, Lewisburg, Pa., 204 sales, \$2,664.75; W. A. Ketterer, S. M., Rochester, Pa., 92 sales, \$21,141.

Where Scout Tarbell will be able to place these stamps on his uniform without looking like an armored knight giving of them more worry than the work of winning them.

GOOD FOR TROOP ROOMS

Boy scouts in some sections of the country are posting up in their troop rooms part of one of Kipling's poems as particularly appropriate to their principle of doing a good turn daily and "helping other people at all times."

"ALL RIGHT, I'LL FIGHT" Two British soldiers went into a restaurant in Saloniki and asked for Turkey in Greece. The waiter said, "I'm sorry, gentlemen, but I can't serve that. Fetch the Bosphorus!"

SO IT WAS Examiner (giving first-aid test)—"Why do you boil water?" "Bright Scout—"To make it hot, sir."

Examiner—"How many points has the compass?" "Scout—"None, sir, a compass is round."

MICH. PRIMARY AROUSES SENATE

Ford Quoted in Debate on Suggestion For an Inquiry

Washington.—Senator Pomerene, Democrat of Ohio, chairman of the Privileges and Elections Committee, called a political storm in the Senate when he introduced a resolution for an investigation of campaign expenditures of Senatorial candidates in various states.

The recent primary in Michigan, where Henry Ford, President Wilson's picked candidate, lost the Republican nomination to Truman H. Newberry, was specifically mentioned in the resolutions, but it is understood the Democrats want to investigate also the expenditures of Republican candidates in Illinois and West Virginia. The Republicans, on their part, indicated that the Democratic Senators insist upon an investigation in Michigan, Illinois and West Virginia, the inquiry will be extended to include the candidates for the Democratic nomination in West Virginia and Georgia.

Resolution Raises Storm The introduction of the resolution created a storm in the Senate. Senator Pomerene suggested that Senator Ford's name be put on the list of those to be investigated.

"Whereas, A political committee in the state of Michigan has reported that it received \$178,826 and expended \$176,568.98 in conducting the campaign for the nomination of a Senator to the United States Senate in the state of Michigan," the committee be directed to investigate.

Says President Named Ford "I have no hesitation in saying that this is a purely political move," said Senator Townsend. "A man was named by the President as candidate. Mr. Ford ran on both tickets."

"It was charged and proved and admitted he had contracts with the Government, the profits of which would amount to \$30,000,000, I believe. It was a cost-plus contract; there was no possible chance for contractors to lose. It was argued in the primary that Mr. Ford, the President's candidate, was making this sum, and thereupon he came out in a statement saying his share of the profits of the concern would be turned over to the government. This statement was undoubtedly for

Schaeffer, the state superintendent of public instruction, in an "open letter" issued to the teachers, school superintendents and school directors of the state to-day.

Those who have made a careful study of the pupils in our public schools claim to have discovered that the two most common characteristics of high school pupils are loyalty and patriotism, says Dr. Schaeffer. "Right education is thought of as emotions or affections, but when the will enters into them and makes them the law of life, they become virtues of the greatest value in the formation of character."

Watch New Disease—Careful observation of cases resembling influenza are being kept at Philadelphia, Chester, Bristol and other points along the Maryland and Delaware borders by State Department of Health inspectors and physicians to forestall any outbreak of Spanish influenza. For several years there have been reports of the disease appearing, but nothing like the foreign ailment has been discovered.

Routine Work Out—The State Board of Public Grounds and Buildings cleared up the routine business of the department yesterday. The contracts will await the return of the Governor.
