RECEIVERS FOR CUMBERLAND CO.

Judge Sadler Asked to Make Decree in Affairs of Insolvent Railway Company

Carlisle, Pa., Sept. 21.—Receivers have been appointed for the Cumberland Railway Company, the concern which operates all of the trolley lines between Carlisle and Mount Holly Springs and Carlisle and Newville. They are C. H. Bishop, of Lemoyne, Walter Stuart and J. Harvey Line of Carlisle. The decision was announced late yesterday afternoon and came after a series of hearings on the plea of a bondholders and stockholders committee after the failure to meet interest payments.

The decree which Judge Sadler is asked to make was arrived at by the attorneys for the two parties in interest and embodied the following features:

That the Cumberland Railway Company is insolvent.

That C. H. Bishop, Walter Stuart and J. Harvey Line, be appointed Methodists to take over the property, assets, etc., and that they manage the same to the best interests of the creditors.

That the present officials of the Cumberland Railway Company refrain from interfering with the operation of the road by the receivers.

That the receivers be permitted to continue the operation of the road using their best judgment in the conduct of its affairs.

Farmers' Trust Company, except the mortgage, be restrained from interfering with the operation of the road by the receivers.

That the receivers give bond in the sum of \$20,000. The costs are to be met out of the assets of the company.

Improvement in the operation of the road is expected to come from the receivership.

The guests included: Misses Beatrice Swanger, Pearl Corman, Arvilla Cook, Mrs. Stansfield, Mrs. Ostot, Mrs. Shope, Kenneth Shope, Mr. and Mrs. Jacob Cook, Miss Tessie Cook, Miss Shobe, the Rev. and Mrs. Charles E. Fisher, Miss Vera Myers and John Cook.

FINE APPLES AT \$4 PER BARREL

Bushels Sold by Orchardists to Big Buyers

Gettysburg, Pa., Sept. 21.—Almost the whole of the great apple crop of the county has been sold to different big buyers throughout the east, the orchardists realizing a good price for the output. According to reports from different parts of the apple country the crop has never been of finer quality. The apples are averaging large in size and have an excellent color. The crop is estimated, however, at twenty-five per cent below the average yield. Under this estimate the yield of the county will be about 547,500 bushels, or 182,500 barrels. Four dollars per barrel is being received for the better grades of York Imperials and five dollars for Stayman and Grimes Golden, while some of the less popular varieties are selling for less. Four dollars a barrel, packed and delivered to the railroad station, is about the average for the entire crop, so that about \$730,000 will be received by the orchardists for their year's work. This is apparently an off year for Adams county in quantity for the estimate for the county as a whole is from ten to fifteen per cent in excess of the usual harvest.

Some difficulty is anticipated in the picking and packing. The labor situation with the apple growers is similar to that of every other business. There is a constant cry of help shortage. This year arrangements have been made by a number of orchard men for women instead of men to help during the rush time. In addition to this the promise has been made that at least sixty-seven boys will be sent into the county from other places to assist in the work of picking the fruit. The boys are to be divided into three camps and will be located at York Springs, at Arendtsville and one between Goodover and York Springs.

"Yes! Since We Bought that Duplex I've Been Quite a Stranger Here"

Duplex owners tell us that Duplex 4-Wheel Drive Trucks consume from one-fifth to one-half less gasoline than rear drive trucks of similar capacity.

The 4-wheel drive principle is accountable.

Duplex Trucks make use of every drop of gasoline.

All power generated by the Duplex motor is evenly distributed to all four wheels—and is utilized as a pulling and hauling force.

Power wastage is reduced to the lowest possible minimum.

Then, too, Duplex tire mileage is high—usually 30 per cent greater than that of any other type of truck.

Repair and maintenance costs are low because the strain is distributed over the entire truck.

Naturally, Duplex ton-mile costs are greatly reduced.

Figured on a business basis, Duplex Trucks pay the biggest dividends on the investment.
