CROWDER HALTS ENTRAINING TO SOLDIER CAMPS

Influenza Rages and Provost Marshal Delays Movement

Washington, D. C., Sept. 27.—Because of epidemics of Spanish in-

from pneumonia following influenca, and 723 new cases of pneumonia also were reported.

Two camps, Kearney, Cal., and Eustis, Va., were added to-day to the list of those where influenza has made its appearance, leaving only thirteen camps free from the disease. The total number of cases of influenza in all camps was placed at 35,146, with 3,036 cases of pneumonia. One out of every four men at Camp Devens, Mass., has contracted influenza, it was announced, and ten per cent. of the cases have developed into pneumonia.

In canceling the call for the entrainment of the draft registrants early next month, General Crowder acted upon instructions from General March, chief of staff. Every state and the District of Columbia had been assigned quotas, and the men webe to have gone to practically all of the camps in the country. The men probably will not be entrained until after the influenza epidemic has been checked.

It was said at the office of the surgeon general of the Army last night that every possible precaution is being taken in all camps to check the spread of the disease, but that despite all measures it is believed the disease will run its course and probably spread to still other camps, Additional physicians and nurses have been sent to camps where the epidemic is most severe.
