Money vs. Eyesight

While in New York City a few years ago, visiting a brother optometrist, a gentleman who owns one of the large office buildings on Broadway near Wall street, valued at nearly a million dollars, came into his office. The optometrist, after introducing us, told me that if I could fit his friend with glasses which would enable him to read a newspaper, the title to the building would be cheerfully decided to me, which was verified by the gentleman himself.

I examined his eyes and had to say, "Impossible." The other optometrist knew, the gentleman knew, and I was certain, that he alone was to blame. Wearing cheap glasses and careless attention to his eyes in the beginning were the cause of his helpless condition.

Can you afford to take the same chance that this man took for the sake of buying cheap glasses, when for a little more money I will examine your eyes and fit your eyes with glasses that will help and preserve your sight? My prices are very low for the service I give you.

MINISTERS PLAN PRAYER PERIOD

Fifteen Minutes to Be Set Aside at Noon Six Days Each Week

The Ministerial Association this morning considered the adoption of a plan providing a daily period of intercession for the cause of the Allies in the great war and for the safety of the American troops. The meeting was at 10 o'clock in the parish house of Trinity Church.

The plan as outlined is to observe the period of prayer six days a week at the noon hour. The prayer will be held in a different church every day with the periods lasting not longer than fifteen minutes. The object of the principle design for intercession, the practice will continually keep the memory of the boys who have gone from the community in the minds of those at home.
