

KEYSTONE MEN TAKING PART IN GREAT ADVANCE

American Troops Establish Firm Lines, Despite Counterattacks

With the First American Army West of the Meuse, Oct. 2.—American troops have established themselves solidly in Clerges, despite powerful German counterattacks.

Following a brief artillery bombardment the Germans counterattacked at 7 o'clock this morning from the region north of Aprement in an effort to drive us back in the Aire valley.

Troops from Pennsylvania repulsed the attack, though some fighting was still in progress at 10 o'clock.

Minor enemy attacks elsewhere yesterday evening were beaten off. The enemies' artillery fire every where decreased during the night and

this morning except in the Argonne. Our guns silenced the enemies' batteries across the Meuse. Fewer privates from Pennsylvania suspended and captured seventy-five Germans in fighting north of Vaux-la-Claye. An anonymous document dropped in our lines west of the Moselle reads: 'We want to know about peace. We believe the great war will last at least another year if our capitalists and pan-Germans do not learn the truth about the great Allied-American offensive. We can't have victory by the sword.' Though we have made important gains since the opening of our new offensive, including the capture of the dominating heights of Montfaucon and taken many prisoners, it is doubtful if this is more important to the Allies than the fact that we have blundered down many enemy divisions which otherwise would have been thrown into line to stop the Anglo-American and Belgian offensive in the north.

Railroad Notes

During September the Cumberland Valley Railroad Relief Association paid out \$427 sick benefits, \$223 accident benefits and \$300 death benefits.

William Jaeger, aged 49, of Brooklyn, N. Y., conductor on the Pullman car Freeman, attached to train No. 27, westbound, was injured while the train was running over the Middle division yesterday. Jaeger swerved under the speed of the train. He fell against a berth and sustained a bad gash above the right eye.

Studies are being made by the United States railroad administration to determine whether the adoption of an equitable and universal plan for the compensation of employees, in case of death or injury, and old age insurance is practicable. There are difficulties in the way arising from the existence of the present pension and insurance plans, but it is expected that they can be overcome.

As a fire prevention precaution, orders have been issued by the railroad administration prohibiting smoking in railroad shops, warehouses, storage houses, freight houses and offices, including record rooms and around freight platforms, and in all places where inflammable material is stored. The list of Pennsylvania employees retired on pension on July 1, which has just been issued, contains the names of 63 men and one woman. Seven of them had worked more than half a century each. The one woman, Miss Bridget E. Whalen, was telegraph operator at Collier, W. Va., where she had served without a break from July 25, 1868, or 26 days less than half a century. The company's circular includes a portrait and sketch of Miss Whalen, says that she was regarded as one of the company.

TELEGRAPHERS TO GET RAISE

Railroad telegraphers probably will receive a wage increase of between \$20 and \$25 a month soon, it was said yesterday by Railroad Administration officials. The application of the Order of Railroad Telegraphers for more than twice this amount of increase still is pending before the Board of Railroad Wages, which is expected to report soon to Director General McAdoo. The increase to be suggested will be about equivalent, it is said, to that recently granted clerks, maintenance of way men, mechanical workers and other classes of employees.

KEPHART CLEARS TOWNSHIP LIST

Almost a Million Dollars Paid Out to Second Class Townships For Roads

State Treasurer Kephart has finished paying the second class townships of the state the sum of \$1,878,470.40 which was voted by the last Legislature to pay the arrears due by the Commonwealth for abolition of the road work tax.

This sum covered the years 1910, 1911 and 1912 and the Legislature which meets in January will be asked to care for 1913 and 1914. The last payments made were \$944,185.20 for 1911, \$727,575.34 having been paid for 1910 and \$201,959.86 for 1912. Payments were only made to townships which filed reports and agreement with the State Highway Department's bureau of township highways and also showed the amount of what they receive from the State tax or will be expended by the township for certain specified purposes.

Since the first of 1907 the state has appropriated not far from \$4,000,000 under township acts. War Hits Repairs.—State reports are commencing to feel the effects of the war and some which used to be spread over hundreds of pages have been cut in half. Superintendent D. F. Long called attention of some heads of departments to the difficulties confronting the printing trade and urged that they curtail their publications. In issuing leaflets as far as possible they are being held down to one page while tabular work has been ordered reduced to a minimum.

Scale Freeman attached to train No. 27, westbound, was injured while the train was running over the Middle division yesterday. Jaeger swerved under the speed of the train. He fell against a berth and sustained a bad gash above the right eye.

Prominent Paxtang Man Is Chosen to Be Additional Member For Section

Thomas W. Smallwood, well-known Harrisburg businessman and active in various lines, was today announced as appointed an additional member of the district appeal board for the section of the state. The board meets at the Capitol and is headed by David E. Tracy. It has charge of appeals for Adams, Center, Mifflin, Cumberland, Columbia, Dauphin, Franklin, Fulton, Luzerne, Juniata, Lebanon, Montour, Northumberland, Perry, Snyder, Union and York.

Local draft boards throughout the state were informed to-day by state draft headquarters that postponement of the movement of men scheduled to Camp Lee and Humphreys next week does not affect the enlistment of registrants for the purpose of filling deficiencies because of rejections at camp. Every rejection must be replaced. The movement of men to Fort Thomas, which includes almost 1,650 for limited service, was started yesterday and will be concluded Friday.
