

Leon Kobrin's Pace in Yiddish Drama
 Boston.—Leon Kobrin's career in the history of Yiddish drama has been one of consistent battle against the tyranny of the Jewish managers. Beginning about a quarter of a cen-

tury back as a collaborator of Jacob Gordin, he quickly achieved a reputation as a playwright who was determined to maintain not only a high standard of workmanship, but also a high standard of personal independence. Gordin and Kobrin found the stage in possession of silly farces

and operettas of the most innocuous type, to say the least, and determined that the time was ripe for a realistic reaction. Often, as was natural in the early days, and as is still prevalent among playwrights of less prominence, the realistic reaction swung to the extremes of violent melodrama and grotesquerie;

Gordin himself transgressed in that respect. On the whole, however, the more intelligent audience of the Ghetto, familiar with the best in foreign literature and thoroughly ashamed of the degraded condition of the Yiddish stage, recognized the beginning of a new era and flocked to the realistic drama.

DYES HIS HAIR AND ENLISTS
 Uniontown, Pa., Oct. 3.—With two sons in active service in France and another scheduled to depart next week, William Briscoe, aged 45, dyed his mustache and hair, spruced up to make himself look ten years younger and enlisted in the Navy. He left yesterday for New York,

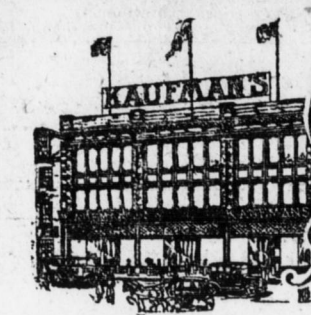

where he declared he would request to be sent at once to European waters.
RUSHING PLANES ABROAD
 Washington, Oct. 3.—Liberty motors now have reached quantity production, and American-built

airplanes are being shipped in trainload lots daily from the factories for service overseas. W. C. Potter, acting director of the Bureau of Aircraft Production, made this announcement yesterday upon his return to Washington from an inspection of factories building planes and motors.

REALTY BOOMS IN LONDON
 London.—Business in real estate is booming as it has not done for twenty years. Auctioneers say they know no parallel to the present demand for farms and portions of big estates which are gradually being split up all over the country.
