

German Cities May Suffer For Hun's Work in Belgium

Washington, Oct. 3.—An ultimatum to Germany regarding the ruthless destruction of cities and private property in Northern

France and Belgium is being urged on the Allies and the United States, and is under consideration. The burning of Cambrai and St. Quentin and the devastation of one of the most populous regions of Europe as the Germans retreat, have aroused great indignation, and it was said in diplomatic circles yesterday that Germany soon would be warned that if she allows the work of destruction to continue severe reprisals will follow.

It is suggested that the cities of the Rhine should be marked for destruction and the Berlin government told that for every French and Belgian city ruined without military reason,

a city equally important and valuable sentimentally and materially will be laid waste. GIRL MESSENGER "BOYS" Boston, Oct. 3.—Female telegraph boys' made their appearance here yesterday. For weeks the managers of the telegraph companies have

been nearly frantic trying to supply messenger service. Uniforms brought some responses, but not enough. It was thought the uniforms would be a great card in getting the young women into the service, but, on the contrary, it was discovered that almost every new female "Mer-

cury" objected strenuously to the plan. They will work in their ordinary attire. PRUSSIAN RAILWAY BOMBED London, Oct. 3.—The Treves railway was bombed by the British independent air force Tuesday night,

according to an official statement issued last night. Treves is in the Rhine province of Prussia and claims to be the oldest town in the German empire. The railroad passing through Treves runs northward to Coblenz and Cologne and southward to Metz and Strassburg.

TURKS APPROACH ALLIES London, Oct. 3.—Turkey has made further inquiry approaches to the Allies through financial channels which are being considered by the British War Cabinet. The Standard says it learns of good authority. Important developments, the newspaper adds, are expected.
